Dear Scientologist,

Don't throw this away, take time to read it as it concerns you and your future.

We all share a common goal of getting Scientology into broad use in the society with the result of a cleared planet. As a Scientologist it is easy for you to observe the decline in the culture with the moral and social values lessening each day.

The thing that sets you apart from the regular person on the street is that you have the technology to arrest this decline and reverse the social downward spiral that threatens all of our survival.

With the knowledge of this technology (as is covered in the KRC Triangle) comes the responsibility to take control of our environment and do something about it.

A.B.L.E. is taking this responsibility and is spearheading a thrust of LRH Tech into the society. This is however a responsibility that as Scientologists we all share.

It is imperative that we join together in a positive drive to get the tech understood and into use in society. We must handle the barriers that stand in the way of getting all of our orgs upto and beyond the size of old St Hill and OT 9 released.

Drugs, crime and illiteracy are destroying our society daily. Without applying LRH tech and getting others to learn and apply it as well, we dont have a hope in hell.

We will reach our goal, but it will take a concerted effort by us all to make it happen.

Each one of us share this responsibility and can do something about it.

Contact A.B.L.E, working together we will knock down the barriers and open up the flood gates to our orgs and the Bridge so that clearing is possible.

Much Love

President

A.B.L.E. International
