## SUCCESS

### *Drug Rehabilitation:*

*"I was a drug addict, and when I arrived here about 1½ months ago I can assure you I had no desire to live. All I did was cry. I felt bad that nothing had any meaning to me any longer.*

*Now I wish you could see me. I am one of the happiest people in the world. I have a desire to live, to fight for my life and for the lives of those around me.*

*You cannot imagine the joy I feel having found Narconon. At Narconon I have found what is the true road which I want to follow in my life."*

**“The planet has hit a barrier that prevents widespread clearing — drugs and biochemical substances.”**

**“I was finally able to map an easy road which could be travelled despite drugs, despite that starting point, and of course that made it easier for everybody. That road begins with the Narconon Course.”**

**L. Ron Hubbard**

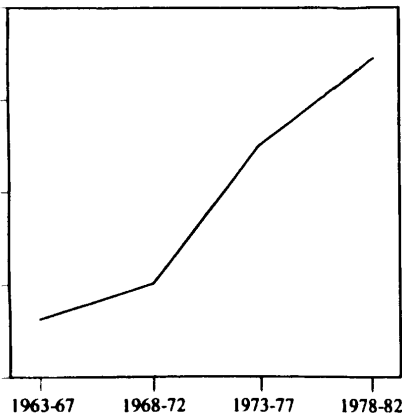

## What Does the Future Hold for Our Kids?

Since 1963, with increased psychiatric funding and increased psychiatric drug use. The resultant growing use of illegal street drugs by children on and off school campuses has increased proportionately to the increase in psychiatric funding.

With the drugging of schoolchildren sanctioned and increasingly promoted by psychiatrists and psychologists in schools, it is no wonder that our youngsters have themselves that drugs were the solution to their problems.

In the early 1960s, marijuana use was virtually non-existent among 13-year-olds, but now approximately one out of every six individuals in this age bracket has used marijuana. This increase started in 1963.

Percentage of 13-Year-Olds Who Have Used Marijuana

The percentage of students using drugs by the time they reach the sixth grade tripled from 1972-1982.

Recognizing the situation we were faced with and what the future held if we didn't take full responsibility now, LRH not only developed the only workable technology for handling drugs and made this widely available but in 1979 he also personally donated \$75,000 to Narconon.

In a letter to Narconon LRH stated:

There are two ways to escape the raw deal that this universe sometimes hands out.

One is to go to sleep or become wholly unreal and forget it.

The other is to attain a calm serene beingness that is proof against the knocks and arrows and misfortune.

The first method has distinct liabilities. However it is the most usual route taken by human beings who find the going too rough.

Alcohol, drugs, self-hypnotism, are all men have been proven to use. The only real trouble with them is that one wakes up into the same world but a bit weaker, a bit redder of eye, feeling a bit worse.

The drugs or other knocks on the head didn't change the universe any and one is still in it, still catching it, probably with an even lower resistance to it. So the first method is not a very good one.

The second method, the ability to rise above it all has long been preached. But unfortunately there wasn't readily available technology to accomplish it.

It's one thing to hear that we should rise above it all and quite another to do it.

The road out is the road of increased awareness. It is not a wholly painless road.

Those who had already taken the road down had a rough time going up again. If they increased their awareness enough they would arrive at a high level where they were at cause and in which they could not only cope with their environment but could prosper in it, well above the reach of suffering.

But how to get them up from the point to which they had already gone down? I was finally able to map an easy road which could be travelled despite drugs, despite the starting point, and of course that made it easier for everybody. That road begins with the Narconon Course.

I would feel pretty bad if a lot of good guys had to live with the road blocked.

Like anybody else I have had my own share of Slings and Arrows over the years and I know what it is like.

It isn't all that easy to help one's fellows and to be helped in return. But the end product is itself worth a lot of slings and arrows.

The road out is the way up.

I hope you make it.

Best of Luck.

RON

**Responsibility is the ability and willingness to assume the status of full source and cause for all efforts and counter efforts on all dynamics.**

— LRH

# We Have the Responsibility Because We Have the Technology

LRH has given us the road out with the most successful drug rehabilitation technology on the planet.

Narconon®, using the technology of L. Ron Hubbard, handles the drug and biochemical barriers that prevent people from going up The Bridge® and going free.

Thus far, our combined efforts to truly solve the problem have been inadequate — WITH YOUR HELP THAT IS ABOUT TO CHANGE.

## INTRODUCING

# The Narconon Chilocco New Life Center

Narconon and the Association for Better Living and Education (ABLE™) have formed an undying trust with the leaders of five Sovereign Indian Nations.

Together we have embarked on our biggest project ever in handling the drug problem in society.

The creation of the Narconon Chilocco New Life Center.

This is the **FIRST STEP** of a major plan to establish 100 major Narconon facilities near 100 of the largest cities in the world.

The Narconon Chilocco New Life Center is an 80-building, 167-acre facility, situated on the campus of the former premier Indian School in the nation.

This center will be unique as it will serve as **THE MODEL FOR NARCONONS ACROSS THE PLANET.**

The center will offer the following services:

*Rena Weinberg, ED ABLE INT, with the leaders of the Indian nations from Chilocco.*

- Individual drug rehabilitation services.
- Drug education training.
- Training on the delivery of standard LRH™ Drug Rehab Tech for people from around the world who wish to open their own Narconons.

# Help to Get LRH's Tech into Wide Wide Use

Many people have helped to support this project:

*Saginaw Morgan Grant, Native American celebrity speaking at the Narconon Chilocco Black Tie Event.*

*Kevin Wilson, Executive Director of Sterling Management Systems, receiving an award for his strong support of the Narconon Chilocco New Life Center Project.*

*Mr. Mike Rinder, LRH Personal Public Relations Officer International, accepting an award on behalf of LRH from William A. Mehojah, Leader of the Kaw Nation.*

**“WE ARE A TEAM.  
“WE HAVE A BIG JOB TO DO.  
“WE NEED EVERYONE ABOARD.”**

— L. RON HUBBARD

**We need your support now to ensure that this project becomes a reality**

**Here is how you can contribute**

## **Chilocco Founding Contribution Award**

The Founding Contribution Award is given to those who donate \$5,000 or more to the Chilocco program. It consists of the following:

- A) A beautiful showpiece for your home or office which will acknowledge you as one of the founders of the “Narconon New Life Center at Chilocco.”
- B) Your name will be inscribed along with L. Ron Hubbard’s on the Honor Roll at the “L. Ron Hubbard” Hall” at Chilocco.
- C) You will receive a special invitation to the Grand Opening Ceremony scheduled for September at Chilocco — a major event with Heads of Indian Nations, VIPs, Senators, Congressmen and popular celebrities.

## **Chilocco Donator Commendation**

Those who want to help but who donate less than the \$5,000 required for the Founding Contribution Award will receive a special commendation aesthetically designed acknowledging you for your contribution to getting this showcase of LRH Drug Rehabilitation Technology established.
