ASSOCIATION FOR BETTER LIVING AND EDUCATION

**There's *never*
been an
organization
like ABLE in
our 39-year
history.**

WHAT IS ABLE?

ABLE is a new corporation whose purpose is to ensure that the social betterment technology of L. Ron Hubbard is broadly acknowledged and used by governments, corporations, institutions and foundations as *the* solution to the major troubles affecting society.

Through promotional and public relations campaigns to these publics, ABLE creates recognizable changes in society — changes that bring us that much closer to achieving the aims of Scientology®.

THE CURRENT SCENE

Today, however, statistics are grim.

- 27 million Americans who have been through the public schools are still illiterate and can't read a street sign.
- one in twenty high school seniors smokes marijuana *daily*.
- over 80% of the inmates freed from prison return as repeat offenders.
- lessons on morals for young children contain exercises in which students contemplate death and write their own obituaries.

The downward spiral is moving at break-neck speed. We are the *only* ones who can turn it around. We have the *only* technology that can salvage beings — the *only* technology — and with that comes the responsibility to make that tech known and get it used by the Fourth Dynamic.

How can Scientology expand into an environment full of drugs, crime and illiteracy?

ABLE is the organization which will engineer the social reform activities to reverse the whole decay.

THE FUTURE WITH ABLE

ABLE's priority projects are:

- open new Narconons in the 100 largest cities of the world to handle businessmen, politicians and celebrities.
- establish a thousand-acre center as a college to train teachers on study technology.
- restore a sense of ethics and responsibility to prison inmates.
- disseminate *broadly* to raw public newly compiled L. Ron Hubbard materials on study, drugs and ethics.

There has never been an organization like ABLE in our 39-year history. ABLE is a major forward thrust on the Fourth Dynamic. The products of ABLE have a direct effect on the expansion of Scientology.
