The Path to Truth

Introduction

The scope of LRH materials is vast. He recorded thousands of taped lectures, and wrote millions of words. He ignored the vested interests, the barriers thrown in his path, and simply persevered to complete his research and make it available to each of us and to the world.

This is THE BRIDGE: the way for everyone on this planet – whether they know it or not – to reach total freedom and create a new civilization.

From this point on, the task becomes getting this technology out and USED on every possible line. That is the job of every SCIENTOLOGIST.

GOLDEN ERA PRODUCTIONS was founded by Ron with the express purpose of making his taped lectures, films and E-Meters broadly available while maintaining the highest technical standards.

In some cases, this required developing technology far in advance of any currently in use on this planet. To ensure that even the early recorded lectures were clear and distinctly reproduced, for instance, highly advanced audio technology was developed and is used today at GOLDEN ERA PRODUCTIONS. That's CLEARSOUND™ state-of-the-art sound technology.

But it is not enough to simply reproduce it, package it and have it sit on a shelf. It does no good to anyone. This data is meant to be listened to, studied, played for friends and applied to life. Only in that way will we as a group accomplish our goal of a cleared planet.

When we say "complete your library of LRH materials" we do not mean you should put materials on a shelf where

they will gather dust. We do not mean you should have these for status or occasional reference or for entertainment during an otherwise idle hour.

No, we mean quite literally for you to create a library – a working library – of all LRH's materials.

We all cheered when we heard of the establishment of an L. RON HUBBARD library at Moscow University for the use of the students there. Well, why not get as enthusiastic about establishing such a library right where you are?

Every such library is an anchor point, a place of sanity, where Ron's tech is fully available, studied and used – by you, your family, your children and your friends. And learning, using and spreading this technology every day brings us that much closer to a cleared planet.

The materials described herein are the very stuff of life and survival. And, to be blunt, without these materials, you will quite factually not make it to full OT! You will find data in these tapes that is nowhere else. And it is data that affects you, your life and your future.

The DIANETICS and SCIENTOLOGY Materials Grade Chart

Open the foldout to the cover of this brochure and you will find The DIANETICS & SCIENTOLOGY Materials Grade Chart. This is a valuable reference which you will use as a guide to complete your library of LRH materials.

This chart lays out the full library of DIANETICS and SCIENTOLOGY books and lectures in an orderly gradient to parallel your progress up the Grade Chart. Knowing and using the technology contained in these books and lectures is your insurance that

you will make it up THE BRIDGE to full OT.

The Design of the Chart

The chart is laid out in thirteen steps, matching each major level on THE BRIDGE. It starts with the introductory DIANETICS and SCIENTOLOGY routes, progresses through the PURIFICATION RUNDOWN, SCIENTOLOGY Grades and NEW ERA DIANETICS. At the top of THE BRIDGE you move from Clear, through OT Preparations and onto the final level of the chart – the OT Levels.

At the side of the chart the materials are organized to parallel the major steps taken to boost your progress up THE BRIDGE to OT.

How to Use this Chart

1. Locate your current case level on the chart.
2. Note which materials you have studied up to that point and which ones you haven't studied.
3. Read or listen to all of the books and lectures from the bottom of the chart all the way up to your case level to maximize your gains.
4. As you complete your study of each book, video or lecture series, get it validated in your Passport Up THE

Note:

Each applicable section has an information box under it which looks like the one below. This is taken from the DIANETICS and SCIENTOLOGY Materials Grade Chart, and shows you the ideal point on the Grade Chart to study each of these materials.

5. Once you complete study of all materials up to your case level, continue forward with the materials of the higher levels. There are no stops to your studying materials above your case level.

This chart increases your knowledge and assists your progress to OT. All the materials on this chart are given in their recommended sequence of study, however they may also be studied wherever you are on THE BRIDGE.

The Materials Grade Chart allows you to chart your own progress across the only Bridge to Total Freedom that man has ever had in all the millennia of his attempts to find his way upwards and out.

"It's quite impossible to go to OT without a full knowledge of OT processes and an ability to audit them. That was the main point that emerged. But similarly, nobody gets past lower levels as a case without a knowledge of them."

Scientology, Current State of the Subject and Materials

by L. Ron Hubbard

There is a possibility that some Scientologists have not realized the extent of technical materials which exist in Dianetics and Scientology on the subject of the spirit, mind and life.

For instance, there are about 25,000,000 words on tape in archives which provide the consecutive path of discovery.

When placed chronologically with books, HCOBs, HCO PLs and other issues this gives a nearly complete record of all discoveries and applications in these subjects.

The total numbers of words or even the number of tapes and issues to date have not been reliably calculated.

From time to time various efforts have been made to transcribe and issue all the materials. The task should be done, especially before the decay of magnetic tape, some of which was of poor quality, eradicates the material. But proper and safe equipment and trustworthy technicians who would not turn out an overt product have been lacking. A project of assembly in the 1960s was balked by inadequate record pressing

material available in the society around us. A more strenuous and reliable effort should be made to place these archives into a more durable form than magnetic tape.

More or less complete sets of all material exist in many places on the planet to safeguard against destruction.

It is from this tremendous archives that study packs and other materials are made up. These and their checksheets are very numerous and available.

A chronological study of materials is necessary for the complete training of a truly top-grade expert in these lines. He can see how the subject progressed and so is able to see which are the highest levels of development. Not the least advantage in this is the defining of words and terms, for each when originally used was defined, in most cases, with considerable exactitude and one is not left with any misunderstandings. It is for this reason that the Saint Hill Briefing Course checksheet should consist only of the chronological materials, studied in chronological order, excepting only the Study Tapes (Primary Rundown) which

should be done first if not previously done properly.

An enormous amount of this material does exist in issuable form. While not strictly technical, HCO PLs, almost all of them, now exist in books grouped by subjects and I think will soon exist in chronological form also. It is projected that this be done with HCOBs, but these of course should be only in chronological and complete order and the points where books and tapes were part of this track should be indicated. Transcriptions and edited versions of tapes (which do not however rearrange meaning or alter data) exist for a great many tapes and it is projected that these shall also be the subject of a future issue. For instance, the "Philadelphia Lectures" have recently been transcribed and could easily be edited into volumes for issue and should be, due to their popularity.

The subject of Scientology is to some degree developed in reverse order. The task was to undercut the current level of man and this was the general target. Therefore one finds the higher levels publicly spoken of most frequently in the earlier books and tapes (between 51 and 55). In

*"The actual barrier in the society
is a failure to practice truth.
Living lives of white lies,
they find it difficult to grasp
that truth actually exists."*

seeking full application to others and attainment for them of their potentials it was necessary to codify the materials and develop processes for them.

Any difficulties people were having with going Clear were handled in the mid-60s and OT levels as they exist in Advanced Orgs were completed by 68. There are perhaps 15 levels above OT VII fully developed but existing only in unissued note form, pending more peoples' full attainment of OT VI and VII.

In the early '70s the bottom was found with the discoveries of exactly what psychosis was and the development of processes to handle it. This was outside the scope of organizations at the time and is not in general use; but it did finalize the task of undercutting low enough to include all spiritual and mental materials, then, within the subject of Scientology, in a state of applicability.

Many people believe that Scientology materials contain mainly processes. They think of Scientology as processing. This is a very narrow view. It is understandable enough as processing is the way out for

them. But this neglects the more considerable materials which deal with basics and fundamentals: processes are only one use of these.

Other people, having gotten their smallest toe damp as an HAS then wander off to other fields looking for answers, whereas had they taken Dianetics or Scientology grade training, to say nothing of the Saint Hill Briefing Course, they would have found more fundamentals than exist in all other subjects combined, a fact which any advanced student of Scientology can confirm.

Still others think that the "newest" is of course the most advanced and are looking for new "processes" to be issued or new materials; whereas the process to resolve their case was most likely issued in earlier years. An amusing instance of this is one whole continental area where an exact set of principles were isolated and exact processes released that handle that exact national type; yet, waiting for something new because they did not know the old, they were found earlier this year to be ignoring this rundown even on new preclears and of course were having a hard

time of it for those ARE the basic processes for that continent, for those people DO have that barrier.

For quite a while I have had the "hat of finder of lost tech." Whole sections of knowledge drop out of view; whole arrays of processes (and administrative principles) go out of use and preclears there and the organization of the area sags; but recovery is swift the moment the "lost" knowledge is pulled out of their own file cabinets and restored.

Further, people in organizations are quite often at high case levels. They have already experienced the bridging knowledge which connects the subject to the man in the street. It is not new to THEM. They sometimes err in believing it is not new to the world. Thus gaps are permitted to exist. The solution is to recover the "lost" tech.

But it is also true that many in organizations work very hard to keep the knowledge bridge in. And do well in accomplishing it.

Within the same civilization, many other subjects than Scientology exist. Many of these other subjects are in a

very primitive state while pretending a very advanced position. Psychiatry and psychology are a pair of these. Their pretenses, inhumanities and even cruelties muddy up the field of the spirit and mind. Because they produce negative or even damaging results and because they were "authority" before Scientology began to guide the field toward saner and more civilized levels, Scientology's task of handling the public is made far more difficult than if the public had not been so harmed and made suspicious of the field of the mind. Yet the most mind-wrenching problems psychiatry and psychology practitioners think they have (they have not confronted the real ones) give way before the lowest most pedestrian levels of Scientology.

There is an amusing story of a Scientologist who attended a social meeting of psychiatrists and psychologists and listened to them for a while as they moaned about their patients and their own cases and then, being compassionate, began to explain to them in a sort of technical baby talk the nature and resolution of these "vast" "unsolvable" "problems." As he took no offense at their

ignorant arrogance which first greeted him and as he did seem to have a grasp of their troubles, they kept him up until four A.M. going over their "problems" in detail and gave him more and more absorbed attention and began to cog-nite. They were very tame and very respectful when he left, certain they had heard the guru of all time; and this is amusing because he was not a trained auditor in any sense of the word and had only read a few Scientology books! Yet to them he was their dean as a professional by comparative and sensible knowledge. Many Scientologists have had similar experiences.

In the field of Scientology admin tech a staff member who had not had an Org Exec Course but had been hatted in HCO went home for a vacation. His father who, like some fathers, was certain his son was stupid, permitted him, with misgiving, to reorganize the administration of his medical clinic along Scientology lines. The son trained the small staff for only a week, lines began to whiz, patients began to get handled, records went straight, income rose and the father became absolutely convinced that his

son was the brightest organizational genius in the country; yet in the org they had considered he had a long way to go to be a good Ethics Officer! Gives you some comparative idea of where the lowest rudimentary levels of Scientology sit in relation to current technologies.

Above such small bits of fringe information the bulk of Scientology knowledge towers into mountains. It is accessible in the main, to those who seek it. The only barriers are usually their own lack of command of their own language and the misconceptions of study ground into them from kindergarten on. Means of solving these are also available and are daily applied to countless newcomers over the world.

The actual barrier in the society is a failure to practice truth. Living lives of white lies, they find it difficult to grasp that truth actually exists. This can hang on as a habit during the first studies of a student and he can defeat himself utterly by continuing a dishonesty in his study - skipping this, not doing that. For Scientology is the road to truth and he who would follow it must take true steps.

There is undoubtedly a considerable amount of neatening up that I could do, including making all materials more readily available, seeing to the compilation of a very extensive dictionary of terms, filling in incidental gaps where material may not have been fully recorded. These are difficulties of a minor nature compared to the research in making the result attainable.

It has been difficult working in a confused and, yes, even primitive society that is starved for workable knowledge in the humanities. The very condition that made it vital to seek out and release the material also made it difficult to do the job in the first place.

Scientology now has more than enough data and technology to handle even the broad problems in the humanities. The main task now is getting it fully used, and along this line there are hundreds of thousands working every day around the world.

Scientology is the fastest growing religion on the planet by actual surveys and statements by sociologists. And this is the more remarkable as in this period orthodox reli-

gions have shrunk before the materialistic onslaught of our times.

The materials of Scientology are the result of forty-three years of search, coordination and application to millions. The organizations of Scientology have been building and expanding for nineteen years (despite the fears and hates and jealousies of this civilization) on five continents and making it all the way, thanks to the magnificent people of Scientology.

We are very rich in materials, in results and in the potential future. Through our hardest times we have endured. Into our brightest times we are expanding.

These materials contain the full basics of the only game in the universe where everyone wins, the game of triumphant life itself.

What it Takes to Bring

The original master recordings of Ron's lectures are carefully handled to preserve the vital tech they contain.

When the massive task began to reproduce all of Ron's lectures and release them broadly to SCIENTOLOGISTS, there were a number of barriers to overcome. First, the recording equipment, the recording tape used and the skill of the recording technicians varied widely. In some cases, the recordings were so poor that they were barely audible. One lecture, for instance, had been recorded over a phone line!

Secondly, many of the original master recordings had deteriorated to the point where the tape was brittle and ready to fall apart. They needed to be copied fast before they were lost, and they also needed to be copied under the most optimum conditions so

The original recordings are copied under the most optimum recording conditions.

that the priceless data was preserved with the best possible sound quality.

Original Recorders

One of the discoveries made in the development of CLEAR SOUND was that a clearer reproduction of tapes was possible if one played the tape back through a system that duplicated the original tape recorder.

Therefore, an extensive project was undertaken to locate all of the types of recorders used to record Ron's lectures over the years. In some cases, not only the type of machine was located, but the exact machine used to record the lectures. In the case of the 1950 Oakland lectures, for instance, the project tracked down every sound company that had been in business in Oakland since 1950. At one of them, Swanson Sound, an older engineer remembered Ron and the lectures, and said that, yes, they had recorded

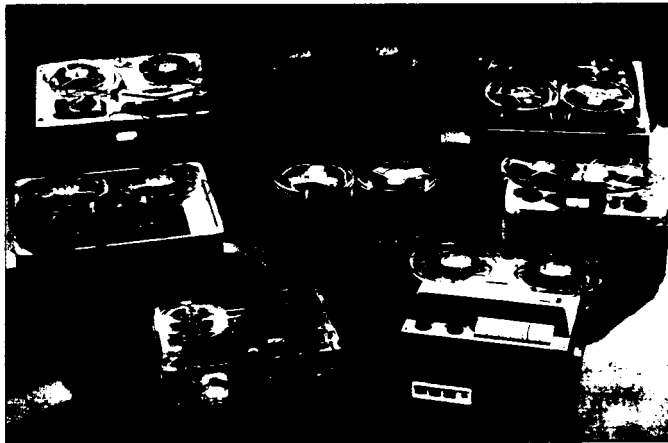

them. He described the exact type of tape recorder used. When asked if he knew where such a recorder could be found, he said, "Sure, I've got the exact machine we used sitting here in a closet!"

Once the original recorders had been collected and studied, this enabled the technicians to duplicate the playback of the lecture to match the original recorder. This is the first step in producing a CLEAR SOUND product.

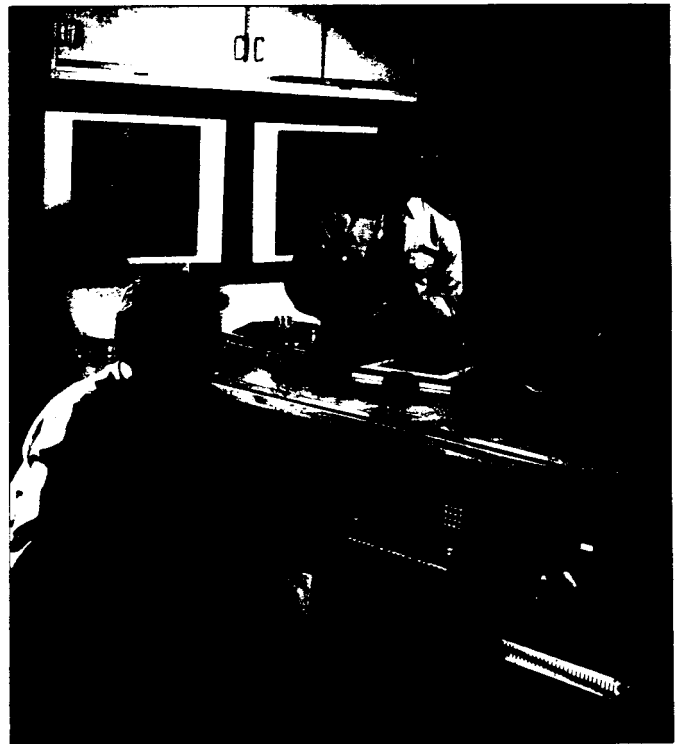

In the case of the SAINT HILL™ Special Briefing Course lectures, sound technicians also studied each of the rooms at Saint Hill where Ron lectured, so they could make him sound exactly as he did in the physical universe.

Restoration

In sound restoration, the ideal scene is to return the sound to what it sounded like before it ever hit the microphone – or even make it sound better than it did in the real universe!

GOLDEN ERA PRODUCTIONS collected all of the types of recorders used to record Ron's lectures since 1950, so that their exact recording qualities could be measured and duplicated.

In sound restoration, the ideal scene is to return the sound to what it sounded like before it ever hit the microphone – or even make it sound better than it did in the real universe!

g Ron's Lectures to You

This is accomplished by skillful and exact use of state-of-the-art components, some of which were built by GOLDEN ERA PRODUCTIONS technicians specifically to handle the problems with these early tapes.

The restoration process includes the removal of any external noises such as audience coughs, chair scrapes or automobile backfires, that would distract the audience from Ron's lecture.

In one of the SHSBC lectures, Ron played a recorded auditing demonstration over a public address system to the students while commenting on it. The reproduction of this was very poor due to the state of PA systems back in the 60s. GOLDEN ERA PRODUCTIONS technicians tracked down the original recording which Ron had played to the students, and cut this into the lecture to replace the faulty recording. As a result, today's students hear that auditing demonstration even more clearly than the original students did!

High Speed Duplication

Once fully restored, the recording is then duplicated onto cassette for distribution to SCIENTOLOGISTS all over the world.

The high-speed cassette copying line at GOLDEN ERA PRODUCTIONS has the highest specifications of any such line on the planet - and uses quality metal

tape. A computerized quality control system ensures standards are maintained cassette to cassette.

Transcripts and Glossaries

Each LRH lecture is accurately transcribed and the transcript checked many times against the original recording to ensure it is a totally accurate word-for-word duplication of the spoken lecture.

Any charts Ron drew during the lecture are reproduced exactly and included at the back of the transcript volume.

Each lecture is then reviewed for any hard-to-find words and complete glossaries are prepared. The glossary saves hours of student time that would otherwise be consumed searching through ref-

erence materials for this data. You can listen to the lectures anywhere and look up any word.

The Final Product

Many hundreds of man hours and painstaking application of exact technical principles go into every product produced by GOLDEN ERA PRODUCTIONS.

The final product of GOLDEN ERA PRODUCTIONS tape production lines is you, the listener, clearly hearing every word that Ron said in the lecture, as if he was right there in the room with you. Our ultimate product is your full duplication and use of LRH's technology to move up THE BRIDGE to Clear and OT!

The final product is **you**, the student, duplicating and using the priceless technology contained in Ron's lectures.

The high speed copying line at GOLDEN ERA PRODUCTIONS has the highest specifications of any such line on the planet. **Left:** Copies are given a quality control check to ensure that they exactly duplicate the original. **Above:** Technicians supervise the copying of LRH lectures to high quality metal cassette tape

Care is taken in the preparation of exact word-for-word transcripts and full glossaries containing all hard-to-find words

The Philadelphia Doctorate Course Lectures

Learn how to operate as an OT

The Philadelphia Doctorate Course is a series of Ron's lectures about the subject of OT. One is as OT as one can cause things, and the first action in becoming OT is to learn something about the subject. This series, therefore, is the start of the greatest adventure in this universe – the adventure of OT.

History of the Lectures

After finishing a series of talks in London on new techniques in SCIENTOLOGY, Ron prepared his new book *Scientology 8-8008* for release during the *Philadelphia Doctorate Course*. Earlier in 1952, he had released *Scientology: A History of Man, Self Analysis in Scientology* and *Scientology 8-80*.

By the time Ron arrived in Philadelphia to deliver these lectures in November, he had already given more than one hundred lectures since the beginning of the year.

Subjects covered

Exteriorization

Lecture 33 gives the exact anatomy and placement of ridges on the body and explains how to get a thetan out of his head. In Lecture 45, you learn a drill for getting a thetan to lift parts of his body while exterior and the formula for rehabilitating the thetan.

Ron audits a pc out of his head in Lecture 55 and has him use beams to lift his fingers, etc. In Lecture 57, Ron shows you how to drill a thetan until he no longer needs even beams or force: he can make things lift with just postulates.

Postulates

This vital subject is covered in detail in Lecture 19.

In Lecture 38 you will find out how Postulate Processing shifts postulates to extreme ranges and

boosts the pc straight out of *Fac One* and immediately makes a Mest Clear.

Lecture 41 includes Postulate Processing as well as Creative Processing and exercising thetan perceptics. This process makes a Theta Clear. You can also get a Theta Exterior who will wonder if he was ever in that body.

The Mechanics of Theta

Lecture 8 addresses the question of what holds and traps a thetan in a body.

Lecture 9 tells you why you, the thetan, become attracted and trapped by bodies, and about sensations superior to sex.

Supplementary Lecture 0-B tells how thetans were controlled and how people control you. It describes the "planet builder" incident. Lecture 0-C tells you about the birth of a thetan.

Types of Thetans

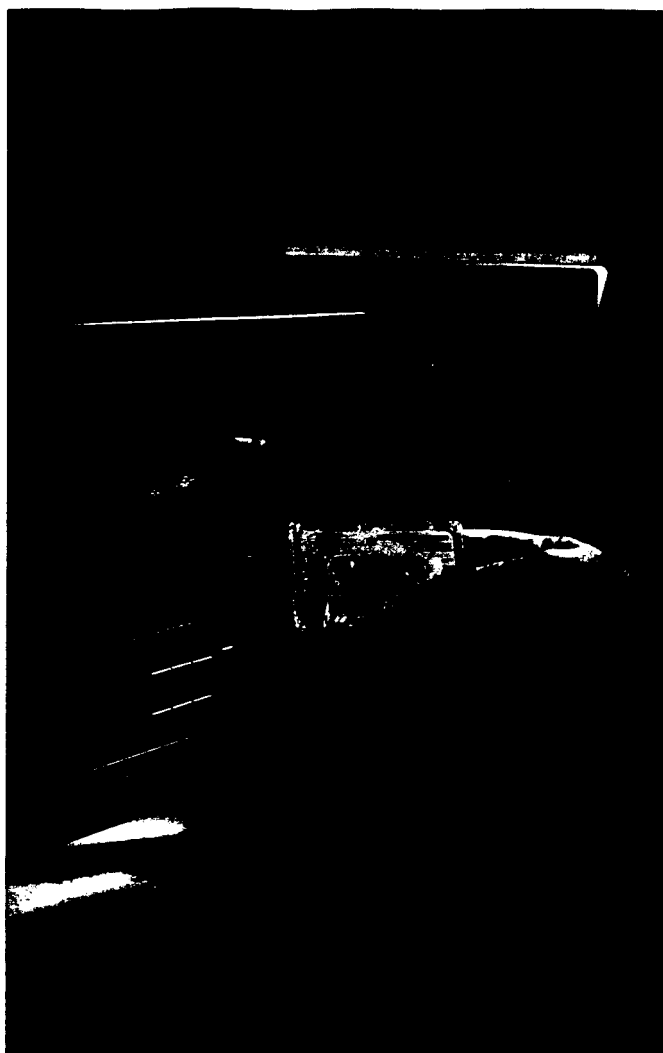

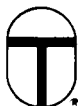

In Lecture 43, Ron describes twelve to fifteen races of thetans on earth, plus five races of GEs. It doesn't matter which of the GE races you as a thetan pick up – what is important is which one of the thetan races you the pc belong to. It shows how to process the different thetan races.

Freedom

Lecture 37 investigates why freedom is needed in a civilization, as well as the relationship between science fiction and space opera.

Between Lives

Lecture 24 *What's Wrong with this Universe: A Working Package for the Auditor* describes what happens in the between-lives area and how it affects a person in the next life.

"The thetan is not a finite quantity. There's enough of him to be stuck in every engram and incident on the whole track, liberally and awarely stuck, and have enough of him in present time to be more of him than you will ever see in present time, and aware of only present time and not even vaguely affected by past times."

Lectures on Basic Scientology Principles

"So my own philosophy is that one should share what wisdom he has, one should help others to help themselves, and one should keep going despite heavy weather for there is always a calm ahead. One should also ignore catcalls from the selfish intellectual who cries: 'Don't expose the mystery. Keep it all for ourselves. The people cannot understand.'

"But as I have never seen wisdom do any good kept to oneself, and as I like to see others happy, and as I find the vast majority of the people can and do understand, I will keep on writing and working and teaching so long as I exist.

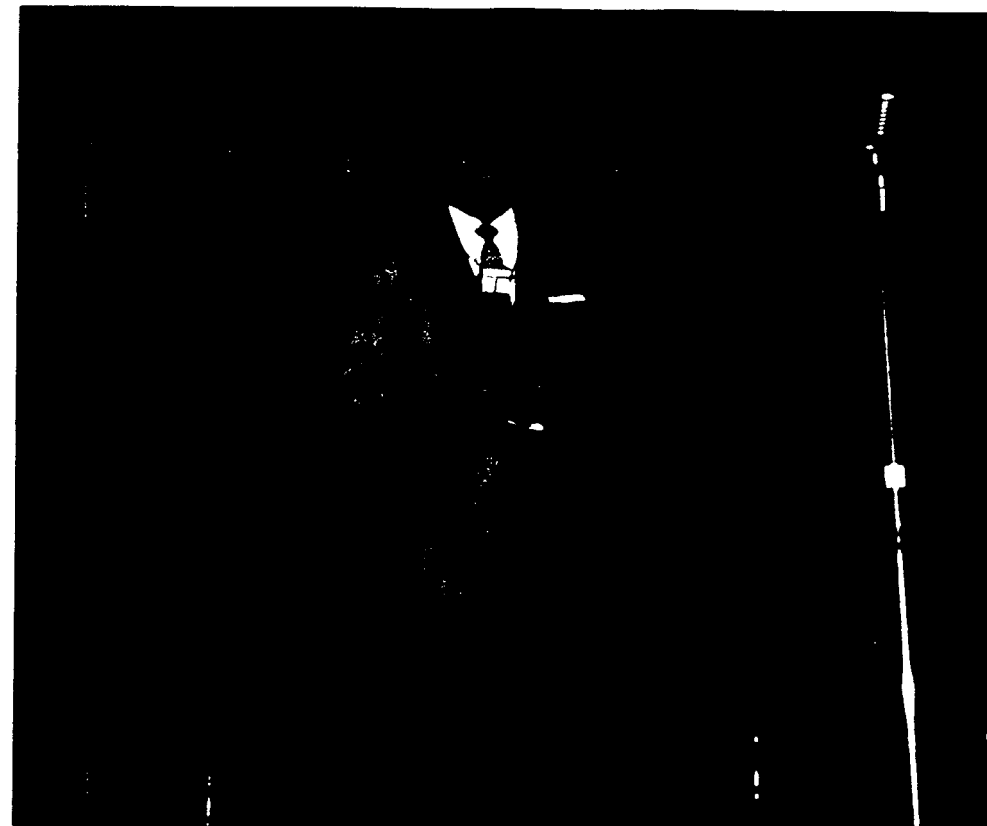

"For I know no man who has any monopoly upon the wisdom of this universe. It belongs to those who can use it to help themselves and others."

L. Ron Hubbard
"My Philosophy"

A wealth of LRH audiovisual materials cover the basic principles of DIANETICS and SCIENTOLOGY. These are the basics of life itself and a study of these materials alone can often resolve major problems in a person's life.

The materials in this section are arranged on a gradient, from the most fundamental principles and subjects, often given by Ron in public lectures, to more advanced principles given in lectures or congresses to SCIENTOLOGISTS.

But even the basic materials listed here are not just for people new to the subject. In fact, old-timers and OTs often have life-changing cognitions listening to Ron's most basic lectures. Even SCIENTOLOGISTS who have heard these lectures many times say that

they get something new each time they listen to them.

Following are some of the subjects covered:

Dianetics: The basic principles of BOOK ONE™ are now easily explained in both a new video and an introductory audio cassette, shown on the following pages. Ron's famous Oakland public lectures on DIANETICS are also shown on page 12. In addition, the lecture, *The Story of Dianetics and Scientology*, on page 16, provides an excellent introduction to DIANETICS.

Scientology: In *An Introduction to Scientology*, the filmed interview with L. Ron Hubbard, shown on page 14, Ron provides a comprehensive definition and description of SCIENTOLOGY. Also, the *Personal Achievement Series* lectures, on pages 16 and 17, include excellent lectures on the basics of SCIENTOLOGY. *The*

Phoenix Lectures (page 25) give a thorough rundown on the spiritual history of SCIENTOLOGY and some of the most basic and powerful principles of the subject.

Human Evaluation: In the Human Evaluation Series, page 15, Ron gives methods of using the principles of human evaluation in life.

The Second Dynamic: The series, *Creating the Second Dynamic* contains invaluable data on marriage and children. Page 18.

Handling suppression: Anyone who knows the tech on suppression and potential trouble sources will never be the effect of these things. This is contained in the *PTS/SP Course Lectures*. And an additional tool to use is the cassette *Can We Ever be Friends?* Page 19.

Money: Money does not have to be a problem to those who understand it. See the series on page 20.

Radiation: What is radiation and how do we guard against its dangers? Page 21.

Dissemination: Here are two tape series about how to disseminate SCIENTOLOGY and create an effect in your area: *How to Present Scientology to the World* and *Creating a New Civilization*. Also, in the *Anatomy of the Human Mind Congress*, (page 26) Ron not only gives you this data, but shows you how to run the course yourself.

How to have a game instead of a problem: See the series *Games and the Spirit of Play*, on page 24.

Dianetics: An Education In Yourself

This Dianetics audio cassette is the top-selling audio tape in the world!

Over 130,000 copies of this one-hour DIANETICS® audio tape have been sold in public bookstores, more than any other audio tape on the market. The public demand for LRH tech has never been higher.

Listen to this tape yourself. Use it to introduce your friends and family to DIANETICS. Tell them to listen to it in their car or at home. Once they've heard it, they'll want to know more!

This tape thoroughly covers the basic principles of BOOK ONE DIANETICS in a fast-paced, entertaining way. It covers the Dynamic Principle of Existence, the Dynamics, the parts of the mind and mental image pictures. It gives clear examples of exactly how a person uses his analytical mind to solve problems. It describes engrams and restimulation, with dramatic examples showing how the reactive mind commands the individual, causing him to fail in life. And it describes what a Clear is and how a person regains his full potential through DIANETICS.

The quality of this production is excellent. Using the full audio facilities at GOLDEN ERA PRODUCTIONS, it combines narration, music, dramatizations and sound effects into a high-impact presentation exceeding the best radio theater.

Get a dozen copies. Pass them out liberally to your friends, family – even people you meet casually. Why not give them something that will change their life?

Here's an example of what you'll hear on *Dianetics: An Education in Yourself*:

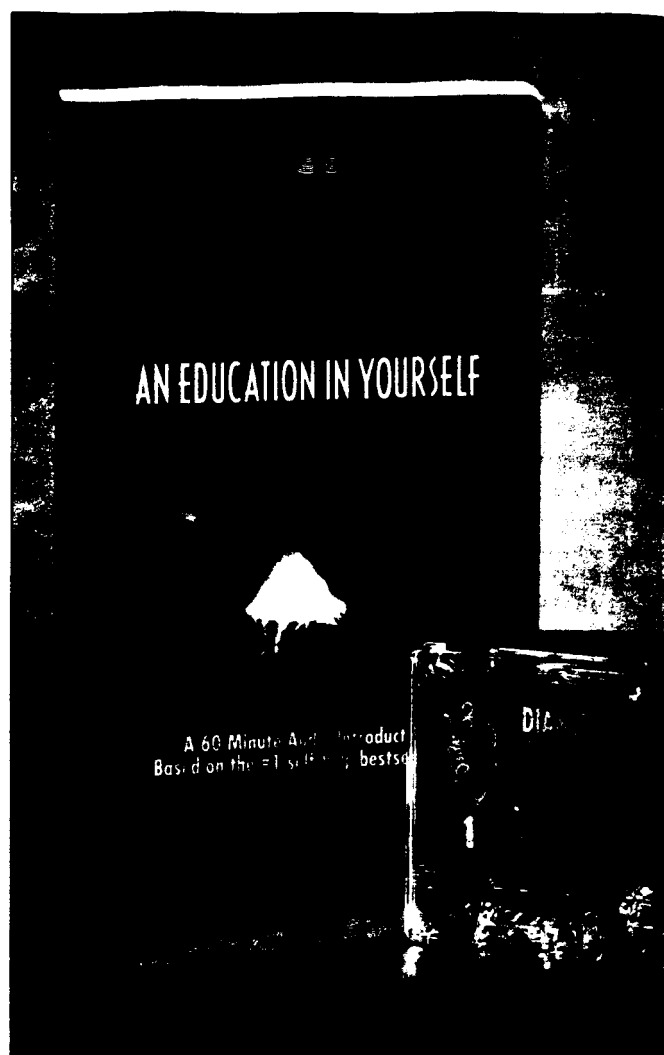

NARRATOR: "Let me explain how the words in engrams are harmful with an example of the idiocy of the reactive mind."

(MUSIC, SOUND OF RAIN AND TRAFFIC)

"It's night. And raining. A man is driving his car in heavy traffic. The headlights glare into his windshield. They cause him to have difficulty seeing. He notices that the car in front of him has stopped. He puts on his brakes too late. The car skids, smashing into the rear of the car ahead. He hits his head on the steering wheel and goes into partial unconsciousness. At this point his reactive mind begins to record everything: the sound of the traffic, the rain beating on his windshield, the sound of his windshield wipers, music coming from his radio, honking horns. The next thing he hears are the angry shouts from the other driver. 'You crazy idiot! What do you think you're doing?'"

"Later, after recovering from the accident, the incident is a hazy blur in his memory. Some time later, he is driving once again, on his way home from work. It's night. He's listening to music, thinking about an attractive woman he met that day. He decides to call her up as soon as he gets home to ask her out for dinner. Suddenly he enters into traffic – heavy traffic. He begins to get a little anxious. His engram is beginning to restimulate. It starts to rain. Headlights glare through his windshield. He turns on his windshield wipers. Circumstances in his present environment are similar to the content of his engram. The sensations from his engram become more intense. He gets a headache. Next he hears a distant skid and a crash, then honking horns. He begins to feel

confused and stupid, with the words from his earlier engram – 'You crazy idiot! What do you think you're doing?' – going around and around in his head. But because these thoughts come from his reactive mind, which lies beneath his level of awareness, they are mistakenly identified, not

"You are beginning an adventure. Treat it as an adventure. And may you never be the same again."

with his previous accident, but with the woman he likes. He has second thoughts about asking her out and loses confidence in himself. And even though in reality she was interested in him, he never calls. This is typical of how words in your past engrams can destroy your positive attitude."

Learning BOOK ONE™

*DIANETICS auditing is easier
and faster than ever before!*

Here's the video that's starting a whole new BOOK ONE boom! It's now available in video stores and bookstores all over the United States, and people who have never heard of DIANETICS before are picking it up, watching it and starting to audit! Then they phone their wins in to the DIANETICS toll-free hotline at GOLDEN ERA PRODUCTIONS.

A woman in Alaska got rid of a migraine headache that had crippled her for years. A homeless man in Atlanta regained his self-respect and started writing and producing songs. A Denver couple close to divorce are now renewing their marriage vows! And the miracles keep pouring in.

Now, you can own this miracle-producing tape and use it yourself.

This video was produced by GOLDEN ERA PRODUCTIONS as the result of a broad public survey on the subject of DIANETICS. Over 80% of the public have heard of DIANETICS. Almost 20% even said they had the book! What they wanted was a video to show them what to do. And now it's available.

The video walks them through the basic principles and procedure of BOOK ONE. It's all here, clearly presented in pictures, graphics and dramatizations: the dynamic principle of existence, the dynamics, the analytical mind, mental image pictures, the standard memory banks, the time track, the reactive mind, engrams, restimulation, painful emotion engrams, locks, returning, the file clerk and the State of Clear.

It also defines auditing, demonstrates what an auditing session looks like, and then shows, step by step, the procedure of BOOK ONE auditing, exactly as it

is done straight from the book. The technical procedure shown is exact, standard BOOK ONE DIANETICS.

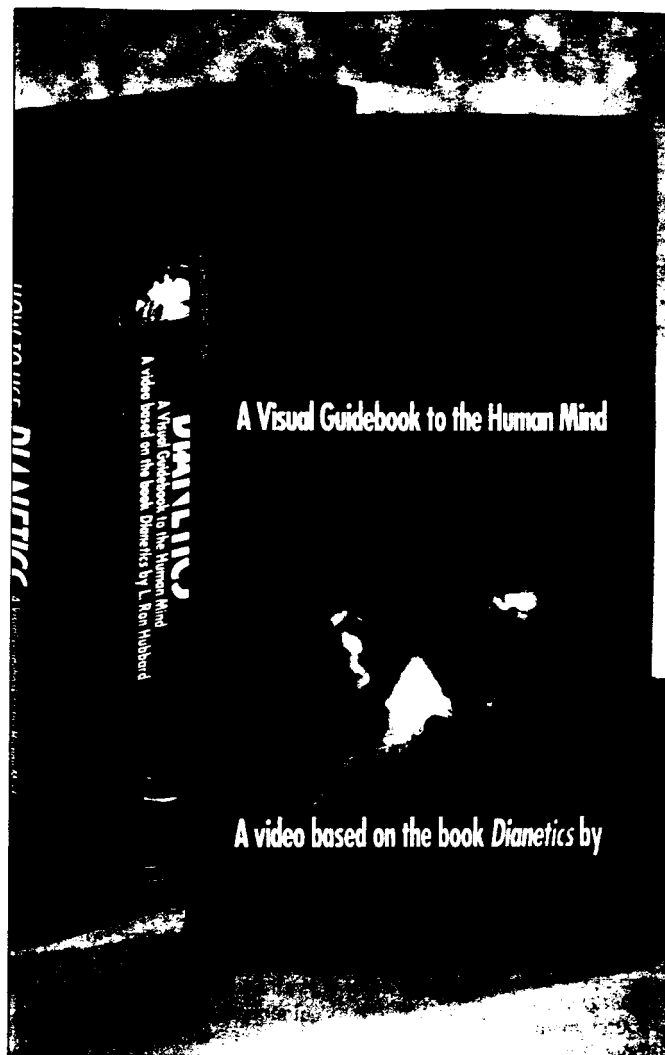

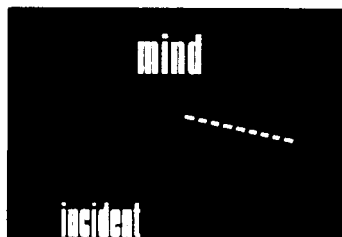

How well do you know your BOOK ONE? Watch this video and get certainty that you could sit down, anywhere, anytime and audit BOOK ONE.

It is a vital tool for every SCIENTOLOGIST. Watch it yourself and see how simply and clearly BOOK ONE is presented. Send copies to your friends and relatives. They want to know what DIANETICS is all about? Tell them to watch it. And don't be surprised if the next time you call them - they've already been in session!

Miracle Wins from the New DIANETICS Video!

"I watched the video and gave my sister a forty-five minute session during which time she handled a past incident - even her eyes went bloodshot while she was handling it. I was so amazed that I am going to start a group with my friends from college who also want to know more about DIANETICS." P.G.

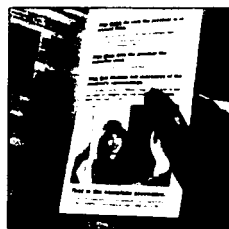

"I was literally 'dead'. Then I ordered the DIANETICS video and discovered how to change. I used the procedure in the video... many hours and my life has totally changed. I am now not only helping myself but others. Thanks." T.R.

Dianetics Lectures and Demonstrations

The famous 1950 Oakland Lectures where Ron personally explained and demonstrated BOOK ONE procedures!

It was a Saturday evening in late September, 1950, in Oakland, California. Thousands of people packed the Municipal Auditorium on Tenth Street to hear about a new breakthrough, a discovery which, as columnist Walter Winchell had said earlier that year, "will prove to be as revolutionary for humanity as the first caveman's discovery and utilization of fire."

BOOK ONE had only been out for four months. Already, it was a runaway bestseller. Now, the author was here, in Oakland.

The audience sat, spellbound, as the man with the flaming red hair began to speak:

"I have a few things to tell you about Dianetics..."

After giving a public lecture about DIANETICS, Ron spent the next few evenings giving a special course in DIANETICS at the Little Theater of the Oakland Municipal Auditorium. This course included talks on engram and grief running, opening cases, handling stalled cases, and new developments in DIANETICS auditing. Each evening lecture was followed by a demonstration session conducted by Ron in the orchestra pit where the students could clearly see both Ron and the preclear.

Now you can hear these original lectures and demonstrations, which have been preserved and re-mixed in stereo. And, through the magic of CLEARSOUND™ state-of-the-art sound technology, you can hear every word, just as if you were right in the auditorium.

Introduction to Dianetics

In this lecture, Ron talks about his early breakthrough research which led to the discoveries of DIANETICS. He clearly explains the analytical and reactive minds, and exactly how engrams affect a person.

"In such a way the engram bank can move in on this beautiful calculator, the analytical mind, and can thoroughly ruin it as far as its computations are concerned. But the analytical mind is so good that although enormous numbers of people have enormous numbers of engrams, it can still turn out solutions and this world somehow goes on, even though every once in a while somebody comes up with some gruesome solution such as the thing to do about the political and ideological situation of the world, of course, is to wipe out everyone in Russia..."

What Dianetics Can Do

Ron discusses how to get results with DIANETICS and goes over a number of case histories. This is the lecture where Ron first talks about a startling new development in DIANETICS — past lives.

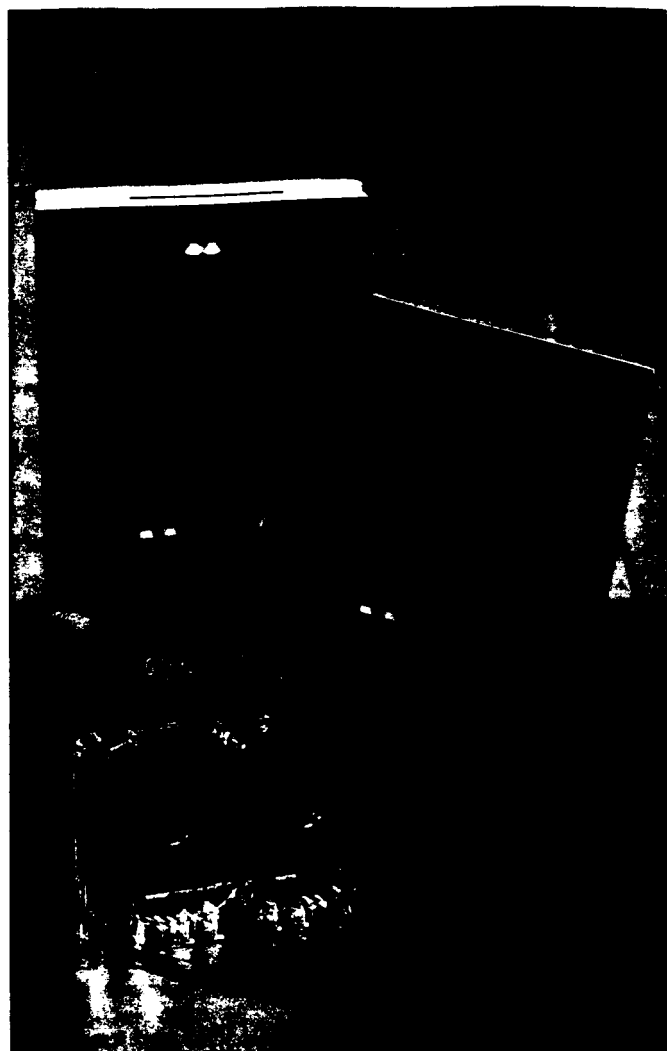

"I decided to see if I could go back and find a time when he had lived before, using straight reverie. So I sent him back to a time when he died, by saying, 'the file clerk will give us the last time you died,' wondering what I would get. And I got a death. There he was, lying on a field of battle..."

Running an Engram

Ron demonstrates BOOK ONE DIANETICS, taking a preclear through an engram, using repeater technique, flash answers, and dealing with bouncers and deniers. A brilliant demonstration of technique from the master himself.

How to Resolve Stalled Cases

What to do if "you have hit an engram that will not reduce... you can't find the basic that lies under it, you can't find an earlier engram, it is full of bouncers and you get yourself into what looks like a lot of trouble." There are lots of examples and tech on handling stalled cases in BOOK ONE DIANETICS.

"People ask me this question, 'How did you ever think of Dianetics?' It doesn't seem to me that it required much more than the cultural question itself which has been with man for perhaps fifty thousand years: 'What makes man tick?' 'Why does man act as he does?'"

The complete DIANETICS package – everything you need to start using BOOK ONE right away. This package includes:

- A library-quality hardback edition of *Dianetics: The Modern Science of Mental Health*. Made for years of hard use, with durable sewn binding and long-lasting acid-free paper. Large readable type, complete index and glossary.

- The new video, *How to Use Dianetics*. A complete description of the basics of DIANETICS, with pictures, graphics and dramatic sequences. The procedure of BOOK ONE DIANETICS shown and demonstrated.

- *Dianetics Lectures and Demonstrations*, four lectures given by Ron in Oakland, California in September, 1950. Ron describes DIANETICS auditing and shows how to open a case, how to run it, and how to get a stalled case moving. Includes a demonstration of BOOK ONE technique by Ron himself.

- A DIANETICS Workbook, for use with the DIANETICS Video, giving the basic principles and procedure in text and pictures.

- A DIANETICS Pocket Guide: This wallet-sized card contains all the commands of BOOK ONE, so you can be ready for a session at any time.

More Book One Wins!

Operators at the DIANETICS 1-800 Hotline hear every day from people who have ordered the DIANETICS Package, used it and had spectacular wins.

A husband bought the kit after seeing "The Story of Book One" on TV and started auditing his wife. She grew immediately interested and audited him. Then both went to their local org and got professional DIANETICS auditing. Now they've started on the DIANETICS seminar and are moving up THE BRIDGE!

Another user of the DIANETICS Package watched the video and then started to read *Dianetics*. He realized that a long history of illness in his family stemmed from the reactive mind and wanted to start auditing right away to get rid of a possible engram he had!

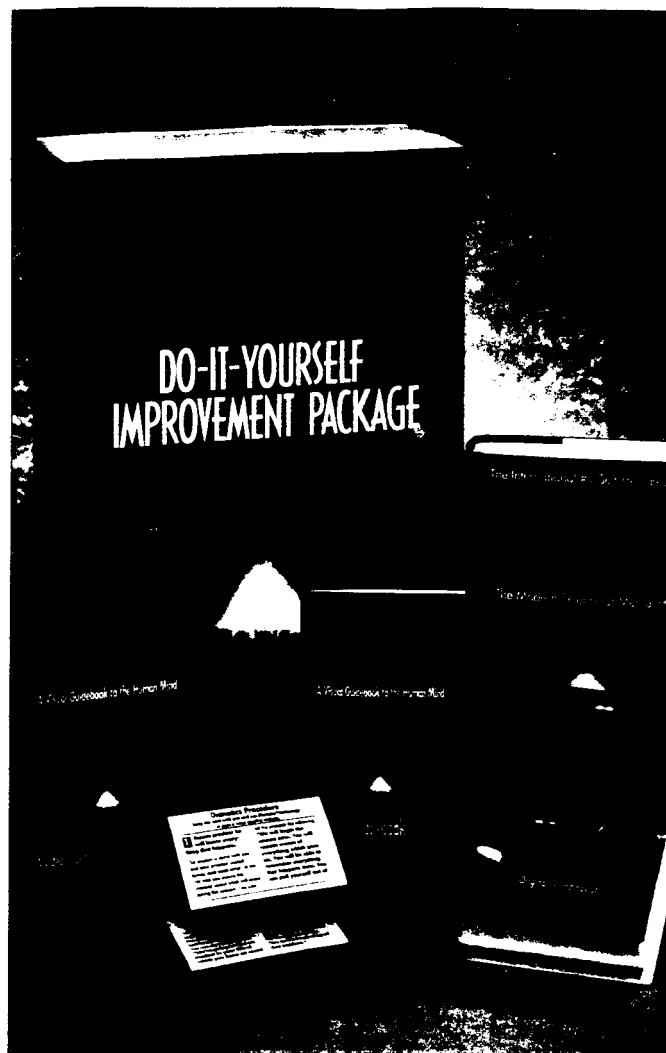

Another owner of the DIANETICS Package is now using the video and book to start a group in his town, made up of friends who are also interested in DIANETICS.

Here's one success story from a man who changed his life with the DIANETICS Package:

"I had a lot of problems in controlling myself. I was taking heavy drugs, doing poorly at work and my marriage was failing. I had the book *Dianetics* but decided to order the package. I immediately started auditing with my wife.

"Things have changed to such an extent that I am off drugs. I have a new job and my wife and I are happy and are now looking for a new home. We are also going to start a group as DIANETICS is too good for anyone to miss."

The *Dianetics Do-It-Yourself Improvement Package* provides the perfect program to begin a friend, family member or yourself on the road to Clear.

"This is the instruction book, the machine in question is ready to hand wherever there are men. Contrary to superstition about the mind, it is almost impossible to permanently injure the mechanism. It can be done with an electric shock or a scalpel or an ice pick, but it is almost impossible to do it with Dianetic therapy."

An Introduction to Scientology

The only filmed interview with L. Ron Hubbard in existence. Now in color in twenty-four different languages on video

This film has introduced well over one hundred thousand people to SCIENTOLOGY philosophy and gotten them onto THE BRIDGE. What is it that makes it so popular?

The answer is simple. *An Introduction to Scientology* gives you the chance to spend an uninterrupted sixty minutes with L. Ron Hubbard, the best friend man ever had. Now available in color on video, it enables you to sit down and watch Ron talk about DIANETICS and SCIENTOLOGY and what they can do for you. It is packed with diamonds of wisdom which you can put to use in your life right away.

For example, have you ever given advice to a friend and found him resentful towards you for giving it? Or have you felt resentful towards others when they were giving you "well-intentioned" advice?

Have you ever experienced a situation where you tried desperately to help someone - to push him along - only to find out he didn't get better at all in spite of all the hard work you put into it. Why is this? In this video Ron explains this phenomena and how to handle it.

This video is the perfect gradient for someone completely new to SCIENTOLOGY. At one point in the video Ron demonstrates the exact relationship between body, mind and spirit - and how the mind works, including the reactive mind.

"Well it's very interesting that the more you try to help man physically, why apparently the less progress you make. It was only when we began to treat man and

when I began to treat man as a spiritual being who was not really dependent upon the body or the flesh that I made any progress at all. Man is a spiritual being, he is not a piece of flesh..."

L. Ron Hubbard
An Introduction to Scientology Video

Ron shows you exactly how to explain different aspects of SCIENTOLOGY to someone completely new to the subject - for example - what is the religious nature of SCIENTOLOGY and how does it compare to other religions?

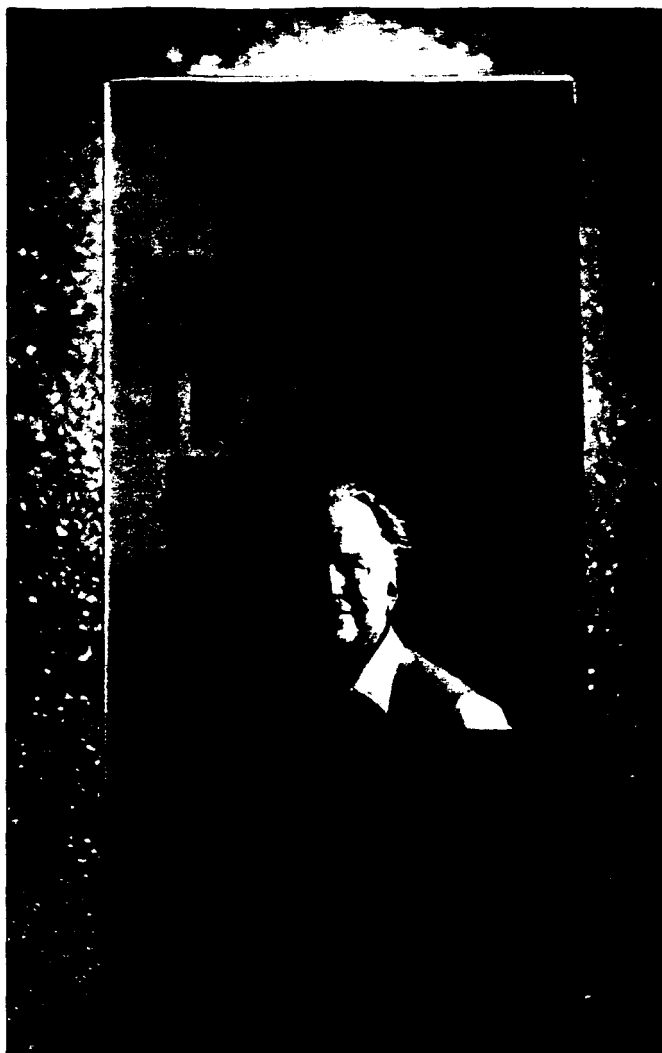

How do you discuss life after death with someone who has questions about it? Watch the video and you will see exactly how to do it and maintain high reality.

The perfect dissemination tool

The *Introduction to Scientology* video opens the door to disseminating to your friends and family. By watching this video they can see for themselves what SCIENTOLOGY can do for them. Let it do the talking for you. It not only gets the ball rolling, it provides them with an introduction to the one subject which has the power to change their lives - SCIENTOLOGY.

Available in twenty-four languages: [In NTSC or PAL format]

English, German, French, Spanish, Italian, Swedish, Dutch, Danish, Finnish, Norwegian, Portuguese, Czechoslovakian, Polish, Urdu, Japanese, Korean, Chinese, Hebrew, Serbo-Croatian, Russian, Greek, Hungarian, Afrikaans and Arabic.

"There is hope for Man. He is not just an evil beast who will get worse and worse and worse and worse. With Scientology he can get better and he can get kinder and more decent and more tolerant of his fellow man..."

Special Course in Human Evaluation

The lecture series that gives you the verified map on predicting human behavior

Ron delivered this series of nine lectures to local businessmen detailing the subject of human evaluation. They describe how people can be expected to react under specific circumstances, how to detect those who can be trusted and those who can't and the methods by which one can ensure success in his choices.

Just subsequent to these lectures in August, the first hardcover edition of *Science of Survival* was published and copies of the limited manuscript were presented at the First Annual Conference of DIANETICS Auditors in Wichita, Kansas, in June, 1951.

The *Special Course in Human Evaluation* was given at the HUBBARD DIANETICS Foundation in Wichita, Kansas from the 13th to the 17th of August, 1951. Representatives from several businesses in the Wichita area attended each evening.

When this lecture series was given, Ron had also just published *Self Analysis* and his story of the publishing of this book is contained in the Course lectures.

The true value of human evaluation is that you can predict a person's honesty, ethics level, persistence and responsibility level. Ron reads a famous letter from his uncle Elbert Hubbard who was a well-known American writer.

The Lectures *Dynamics of Existence*

In this lecture, Ron describes how the dynamics support each other and covers the importance of postulates, goals and ideals in relation to survival on the dynamics.

The Conquest of the Physical Universe

Ron talks about how the ability to conquer the physical universe is

what determines a person's tone.

Personality

Then there are some people with a higher persistence level — those with higher theta endowment who are able to persist and get things done in their environment, despite aberrations. Beings have different theta endowments and Ron gives examples of how this is so.

Self Analysis

People involved in the compilation and publication of the book went out of PT just working on the cycle — the processes are that powerful.

Ron also gives a complete dissemination pattern which can be used for disseminating with the Tone Scale.

The Tone Scale

Ron uses many many examples of a person who is starting at the top of the Tone Scale and what life situations bring him down scale. He describes various points on the Tone Scale in detail and their manifestations, especially the handling of truth.

Motion and Emotion

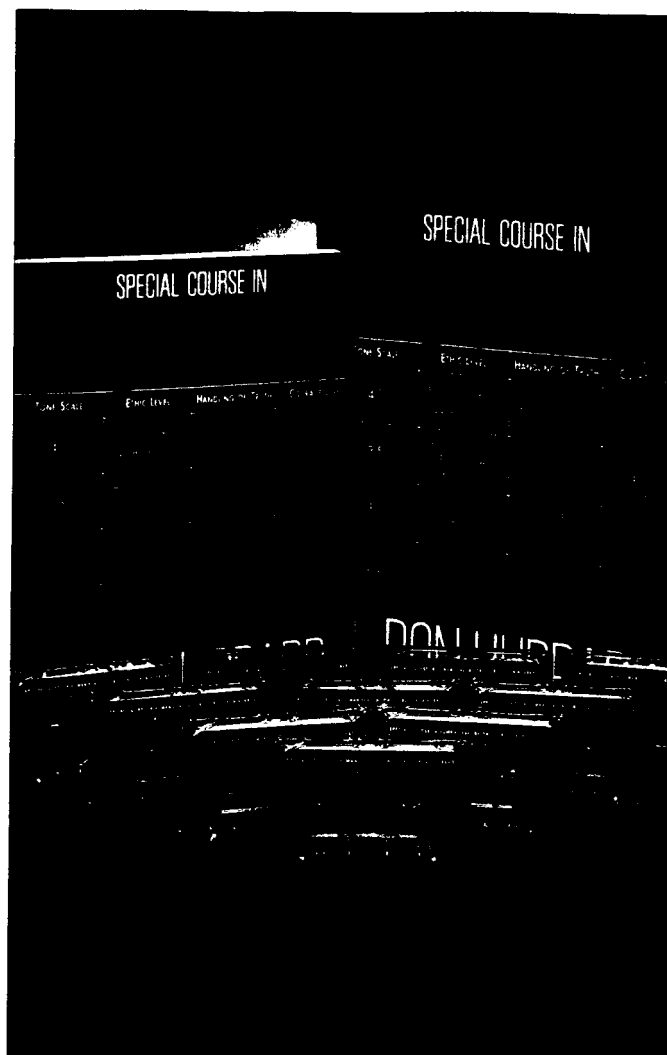

In this lecture Ron describes what motion is in the physical universe and what the physical universe is made up of. His description includes the fascinating details of what energy actually is.

Motion and the Tone Scale

Ron explains that the decline of an individual on the Tone Scale is in direct proportion to his inability to move his body in the environment.

The ARC Triangle

Ron gives a number of tests that an employer can make to check a person's tone level, using the principles of ARC and the Tone Scale.

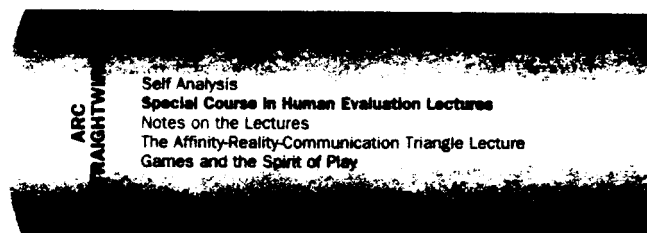

"Any time you meet a human being and become associated with him socially, it would be of some benefit to know, by looking at him and talking to him for a couple of minutes, what this individual had in store for you in his friendship with you."

The Personal Achievement Series Lectures

Twenty-one of Ron's classic lectures to gain insight into Scientology philosophy

To relate his discoveries firsthand, L. Ron Hubbard delivered thousands of lectures to eager audiences all over the world. He lectured extensively throughout the United States, then moved on to London, Melbourne and Johannesburg, to name but a few cities he visited. He lectured to both those only recently acquainted with SCIENTOLOGY and to seasoned practitioners.

The selected lectures listed below are particularly apt as introductions to the SCIENTOLOGY philosophy. The lectures are roughly an hour in length. Each lecture imparts some of the fundamental wisdom of DIANETICS and SCIENTOLOGY and provides an insight into L. Ron Hubbard himself. Listening to Ron lecture reveals his vitality, humor and enthusiasm as no written work can.

The lectures deal with a wide variety of topics, but all communicate something of the flavor of the SCIENTOLOGY religion and its positive view of man's potentials. One can gain real insight into SCIENTOLOGY from hearing Ron explain the subject. The titles in the series give some idea of this:

Scientology & Ability

In this lecture, Ron shatters the misconception that ability can't be changed and points the way to unlimited personal ability. Find out why the universe is here and what happens when you disagree with it.

The Hope of Man

After so much betrayal in the name of help, man has all but abandoned hope of ever going free. How can his hope be restored? What are the barriers we still must overcome?

Money

This lecture rips away the veil of mystery that a few suppressive individuals have maintained for their own profit – and reveals what money really is and how an individual can control it.

The Story of Dianetics and Scientology

How did Ron discover the common denominator of all existence? How did he conduct his research into the mind? Why did he succeed where all other investigators had failed? His uncompromising quest for the truth made it possible for man to be free. This tape tells the story of that quest and what it means to each individual on earth.

Health and Certainty

You need health and certainty in yourself to achieve the success you want in life. But if you don't have certainty how do you go about getting it? This is an important subject, but it doesn't have to be a difficult one. In *Health and Certainty*, learn how you can achieve certainty and really be free to think for yourself.

Man's Relentless Search

For countless centuries, man has been trying to find himself. What is he really looking for – and why can't he find it? You'll find out what you are looking for and how to find it in this lecture.

The Machinery of the Mind

Have you ever forgotten what you learned right after the exam? To succeed, you must be able to evaluate and apply information. Listen to *The Machinery of the Mind* and find out how you can become in control over the learning process.

Operation Manual for the Mind

The mind is a precision instrument. Yet man tries to "improve" its functioning the way a child would "repair" an alarm clock that needs winding; he beats it to pieces.

Find out how optimum functioning of the mind is really attained.

The Dynamic Principle of Existence

Find out how the psychiatrist and psychologist have promoted the false idea that the individual is as well off as he adjusts to his environment. What is the real and true datum that leads to survival?

Miracles

Why is it that man often loses to forces he resists or opposes? Why can't an individual simply take charge and win? In *Miracles*, you get the surprising answers.

The Dynamics

A unique and useful insight into the parts of life and how they affect one another. You can use this information to make a better existence and to enhance your own life as well as the lives of others and the world around you.

Scientology and Effective Knowledge

This tape clarifies what knowledge is – and the secret of effective communication and how this can be achieved through SCIENTOLOGY.

The Road to Truth

Those seeking truth too often end up with beliefs which get in the way of actual knowledge. *The Road to Truth* can lead them to new discoveries and a new way of life. Ron tells you how the seekers of truth condemned billions to slavery; why partial truths are so

dangerous. Ron gives you a route to discover what is true for you – and to ensure your freedom.

Formulas for Success: The Five Conditions

In this lecture, Ron illustrates the solution to the dwindling spiral. He actually gives you the operating conditions of existence and 100% workable formulas anyone can follow that can lead to success:

"We're not talking now about something that's just dreamed up or that's a good idea. This was what lay in back of the operation of the machine called the physical universe." – LRH from *Formulas for Success: The Five Conditions*

Power of Choice and Self-Determinism

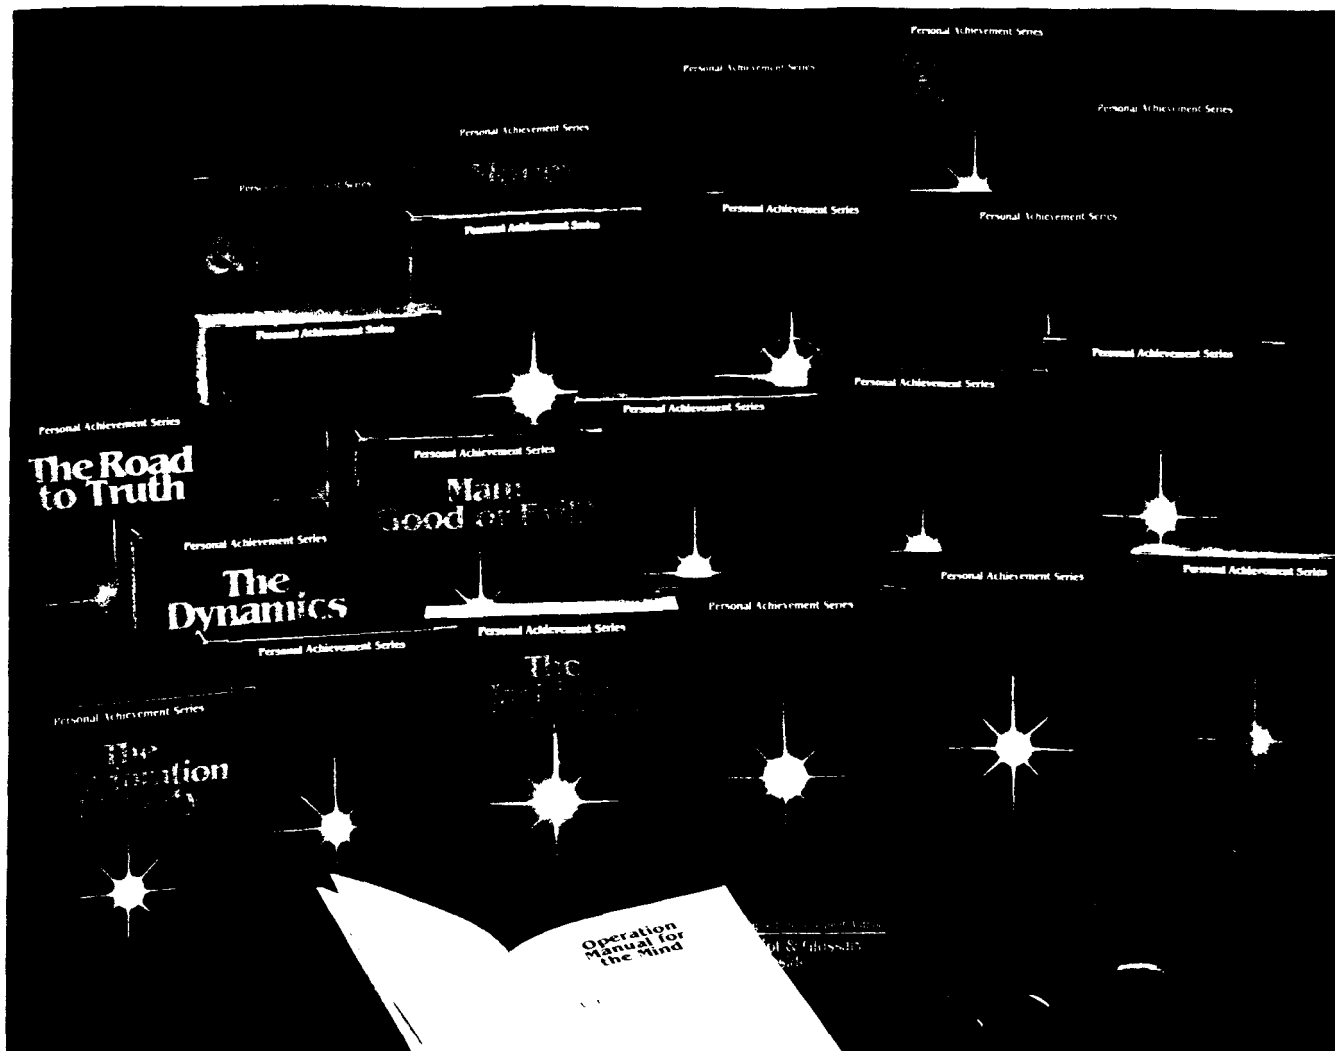

Find out how power of choice is attained and learn a technique a person can use whenever a situation is giving him a lot of trouble. You can recover self-determinism when a situation has you at effect. Ron explains how power of choice is attained and gives you a technique that works in making this possible.

The Deterioration of Liberty

Find out about the things that have destroyed liberty and initiative in our society – and what rekindles the purpose of a society where individuals are truly free!

Differences Between Scientology & Other Studies

The most important questions in life are the ones you started asking as a child: What are the intentions of the world toward me? What is love? Find out how SCIENTOLOGY philosophy enables you to answer these questions for yourself!

Man: Good or Evil?

Explore the greatest mystery that has confronted modern science and philosophy – the true nature of man's livingness and beingness. Is man simply a sort of wind-up doll – or worse, an evil beast with no control of his cravings? Or is he capable of reaching higher levels of ability, awareness and happiness?

The Affinity-Reality-Communication Triangle

What is the secret behind real understanding and happy personal relationships? Learn how you can use the ARC Triangle to greatly improve your life.

Increasing Efficiency

What could you achieve and do if you raised your efficiency? How do you increase efficiency? Is your diet or working environment responsible? Unlikely. Find out what is. L. Ron Hubbard discovered what it takes to increase efficiency and reveals it in this timely lecture.

The Road to Perfection: The Goodness of Man

Unlike earlier practices that sought to "improve" man because he was "bad", SCIENTOLOGY assumes you have good qualities that simply need to be increased. This tape shows how workable this assumption really is – and how you can begin to use your mind, talents and abilities to the fullest.

"This work does not represent a revolt... All it represents is the hope that man again can find his own feet, can find himself in a very confused, mechanistic society, and can recover to himself some of the happiness, some of the sincerity and some of the love and kindness with which he was created. And if man can do this, and if we can help in any way to accomplish this, then all the years of my life and all the years of yours will have been well paid for, and none of us will have lived in vain."

Creating the Second Dynamic

Source data for happier, winning relationships

With these informative and entertaining lectures, you can learn how to achieve excellent communication with, and gain a greater understanding of, the second dynamic.

In these lectures, Ron reveals how to straighten out second dynamic problems, including: how to select a marriage partner in the first place, how to keep a failing marriage together and how to live with and raise children. He describes children in great detail – what they are, why they behave as they do and what you can do to raise them more effectively.

History of the Series

This series is a compilation of four lectures given by Ron on the subject of the second dynamic. Delivered to various audiences between April 1955 and June 1960, these revealing lectures contain the previously unknown technology necessary to create a sane, successful second dynamic.

Subjects Covered

- Eight Dynamics
- How to Audit Children
- Marriage counseling

The Lectures

On the Second Dynamic

In this lecture, Ron talks about the first four dynamics, paying special attention to what the second dynamic consists of and describing what the dwindling spirals on these dynamics are. He goes on to reveal which of the dynamics most people's awareness is limited to – and the reasons why this is. Ron also discusses how cut communication lines are a primary source of aberration and

gives real life second dynamic examples of this.

The Dynamic Principles of Existence

Here Ron describes what the eight dynamics are, what they consist of and how they interrelate. He describes the mechanism of the "only one" and goes on to say that a man is not happy unless he can belong to some small group. Ron also reveals how the dynamics are "a total assembly of possible communications" and how communication works to handle an individual's aberrations and difficulties on the dynamics.

Child Scientology

In this incredible lecture, Ron tells us exactly what children are and precisely how to handle them. He also describes how to process children, what processes will work on them and what one is trying to achieve by processing them. Ron performs the SCIENTOLOGY naming ceremony on two new babies, right on stage.

Marriage

Ron describes what marriage really is and reveals how to create a successful one. He explains what makes a marriage go wrong – and exactly how to repair one that has.

"What is the secret of love? What is the way to a happy marriage? These are questions which have been asked and answered many times...."

"Some of the answers have been wise, many stupid... Few of them have shown the way to being happy in love and in marriage..."

"There are ways, however, not only to select a marriage partner, but also to guarantee the continuation of that marriage; and these ways are simple...."

The PTS/SP Course Lectures and Can We Ever Be Friends?

The tech to handle SPs and their effect on your life

In the *PTS/SP Course Lectures* Ron thoroughly covers the subject of potential trouble sources and suppressive persons and how to confront and shatter the suppression which one cannot help but encounter in today's world.

History of the Series

These five lectures were delivered by Ron between December 1963 and August 1966 to students of the *SAINT HILL Special Briefing Course* in Sussex, England.

The Lectures

Scientology Zero

Ron discusses the problems encountered by a SCIENTOLOGIST in communicating the many truths of SCIENTOLOGY to a new person – and how to effectively communicate at that level. He reveals those who create the “dangerous environment” for their own profit and explains the mechanisms that “Chaos Merchants” use to keep others under control. And he tells the true story of SCIENTOLOGY – and why newspapers would never publish it!

Suppressives and GAEs

In this lecture, Ron teaches exactly what an SP is and how to spot one. He also describes how an SP became one and what the *only* process is that works on an SP. Here are the exact differences between a PTS person and a suppressive person and the real reason a PTS person cannot receive auditing.

The Antisocial Personality

Ron gives a detailed look at the twelve specific characteristics of a suppressive person, with lots of examples. He talks about the purpose of Ethics and how to ensure that people have an environment where case gain can occur.

Handling the PTS

The mechanics of how suppressives operate and how to handle them. The only two sources of difficulties with cases and how to handle each. What *really* happens if you try to process a PTS person.

Organization and Ethics

Ron discusses how to straighten out an enturbulated area. He describes why the subject of Ethics was developed and why it is used. Here is data on the “roller-coaster” case – that gets better, then worse and the importance of labelling a suppressive person. Ron also gives surprising data on the anatomy of psychosis and what insanity really is.

Can We Ever Be Friends? Cassette

Handle false data, antagonism and misconceptions about SCIENTOLOGY with the cassette.

If you're a Field Staff Member, it can help you handle misconceptions your prospects may have about SCIENTOLOGY and give them true data.

From its opening minutes of beautiful, soothing music, to its closing message of goodwill and hope, this cassette handles antagonisms by giving the listener the true data regarding SCIENTOLOGY.

This data can be backed up with documented evidence in the companion booklet to the cassette, available separately.

You have a staunch advocate in this cassette. Use it!

Successes

"My father was getting a little antagonistic about me not going to college and doing SCIENTOLOGY instead. After listening to *Can We Ever Be Friends?*, he said that

whatever I wanted to do was OK with him and he was impressed with the tape. Everything turned out really well."

B.M.

"What a handling *Can We Ever Be Friends?* was for my mother. I sent her the tape and what results I got! The tape seemed to handle a whole chain of antagonisms and confusion. Now she wants me to send her books and asked me to take my eighteen-year-old brother to California with me to get him 'squared away'." W.K.

Money & Success How to Achieve Them

*A comprehensive look at a
sometimes elusive subject*

These six tapes, selected from the vast archives of Ron's lectures, give a comprehensive look at the subjects of money and the keys to success. From handling one's personal finances to successfully operating with and in a global organization, the data in these talks can be immediately applied, opening the door to higher achievement and prosperity.

Subjects Covered

- What money really is and what makes it valuable
- Money management
- How production relates to income and how to increase both
- The essential ingredient for success in any activity
- How to increase management efficiency
- Workable and proven formulas for handling specific conditions of any personal or business activity
- How to organize and manage any activity for optimum efficiency

The Lectures

Money

Ron strips away the mystery connected with money and gives invaluable insight into its basic nature. Explaining what money is and how economic systems operate, he provides an understanding of how one can gain control over his own income and finances.

The Five Conditions

Ron presents five distinct operating conditions applicable to any individual or activity – and the invariable formulas one must follow to improve any condition. Here are the specific steps needed to achieve success in whatever you do.

Today's Battle of Britain

Originally given to those attending a series of lectures in London, this lecture isolates the key to success in any activity – business, social or otherwise.

Definition of Organization

Success often depends on one's ability to run, or work as part of, an organization. In this lecture, Ron examines some of the different forms and types of organization and gives the basics of establishing and running a successful organization, no matter what its size or purpose.

Organization

The sometimes complex and confusing subject of organization is clarified with precise definitions and practical examples of organizational structure and operation.

Organizing Board and Livingness

Past systems of organization and their failures are examined, along with the theory and application of Ron's spectacular breakthrough in the field: the organizing board.

*"We have a subject on
which there is no basic
agreement... a subject
which makes or breaks
men with the greatest of
ease; a subject which is
really the root of a great
many love affairs.... That
subject is money."*

Radiation and Your Survival Lectures

London Congress on Nuclear Radiation and Health

There are sources of radiation everywhere – the sun, televisions, motors, electrical lines – but few of us may realize that radiation has a long history of abuse on the whole track and is so restimulative to many beings that they are incapable of even feeling any emotion about it.

History of the Series

In 1957, while researching the subject of radiation, Ron made several of the most significant discoveries ever in this field. His findings were presented to SCIENTOLOGISTS at the London Congress on Nuclear Radiation and Health from Friday, April 12th through Monday, April 15th, 1957 at the Royal Empire Society Hall. Based on these lectures, one month later Ron published the book, *All About Radiation*.

Subjects Covered

- Radiation and the Time Track
- Control Processing
- Effect of vitamins on radiation
- CCHs
- Reality and Effect Scales

The Lectures

March of the Atom

In this first lecture, Ron defines radiation, explaining why it is such a little known subject and why it is the one thing which poses an end to the time track. Ron relates interesting details about the development of nuclear fission and Einstein's discovery of the principle of making atomics.

Control, Communication and Havingness, Part 1

Ron goes into the subject of illness and radiation, including what X-rays do to a person's ability to move on the time track and how X-rays affect the mind.

Control, Communication and Havingness, Part 2

Ron discusses the relationship of force and control. Tone +0 control.

Control Processes

More data on control: Ron covers slavery and slave societies. He analyzes the US Civil War in detail and tells what really happened.

Radiation and the Scientologist

The topic of this talk is atomic bombs, including what the various elements inside the bomb do when it explodes. He explains gamma rays and the adverse ways they affect the body.

Radiation in War

The subject in this lecture is weapons including the development of brainwashing. Ron covers many wars throughout history.

Radiation and Scientology

Here, Ron discusses vitamins and the different ways these must be combined in order to work.

The Reality Scale and the Effect Scale

In this lecture, Ron explains the Reality Scale and the Effect Scale and the Chart of Human Evaluation in detail.

Scientology and Children

Here Ron discusses radiation and its effect on the genetic line of a civilization. He covers the idea of having a future and what happens when one has become "crowded into the present" with no concept of a future.

The Control of Hysteria

A profound lecture in which Ron delves into man's inhumanity to man and how the true danger to man is his uncivilized state. He discusses various conquerors such as Genghis Khan, Timur-i-lang and Bayzid the Thunderer. He concludes this lecture series with an indication of what the correct barrier is that man has to surmount in order to survive.

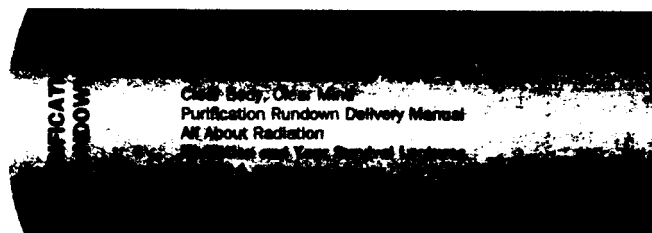

"There is actually such a point where a person's beingness can be sufficiently great that he becomes practically indestructible."

How to Present Scientology to the World

The Organizational Series Lectures

In this series of lectures, Ron lays out the technology by which SCIENTOLOGISTS can make SCIENTOLOGY better known and help to accomplish the goal of a cleared planet. The subjects include the basic tenets of organization, setting up and teaching introductory and advanced courses about SCIENTOLOGY, overcoming stage fright in addressing small or large groups and the step-by-step actions to truly bring others to an understanding of SCIENTOLOGY philosophy.

History of the Series

These lectures were delivered by L. Ron Hubbard between the 18th of October and the 13th of December, 1956, to the combined student bodies of the Washington, D.C. Academy and the 15th Advanced Clinical Course, along with the staffs of the Washington organization and Silver Spring Distribution Center.

Ron had an extremely vital subject to address: how to present SCIENTOLOGY to the world.

"Scientology," Ron said then, "is doing very well across the world. If it were doing just a little bit better, there would be things not happening which are happening at this moment on the major scene of nations." He further stated that "internationally the goal is to bring about a superior civilization in which peace can exist on earth."

Subjects Covered

In *How to Create and Instruct a PE Course*, Parts I and II, Ron tells exactly how to set up, promote and run a *Personnel Efficiency Course*, and how to get SCIENTOLOGY broadly known and well thought of in an area.

In the lectures *Education and Methods of Education*, Ron goes over how to teach people about

SCIENTOLOGY while retaining the student's power of choice over the data. He also demonstrates a simple but highly effective learning drill.

In *How to Handle Audiences*, Ron reveals exactly what "stage fright" is, and how to handle it.

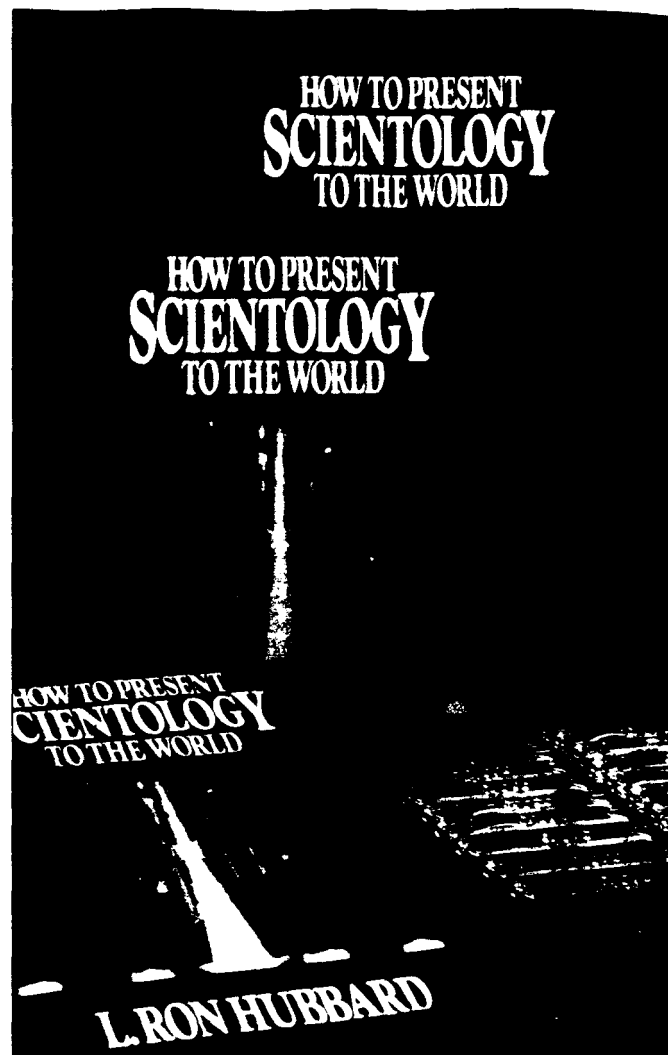

In *Definition of Organization, Parts I and II*, Ron talks about how to put together an organization, using the basics of SCIENTOLOGY philosophy, that is simple, understandable and works.

The Consequences of Organization and *The Deterioration of Liberty* give further insight into organization and governments.

Other subjects covered in this series include: Radiation, The Tone Scale, Testing, Money, and Confusion and the Stable Datum.

Creating a New Civilization

The role of Scientology organizations

Having traced the rise and fall of civilizations on the whole track, Ron developed, for the first time in the history of the universe, an organizational pattern capable of handling the present declining society and creating on earth at last a safe, sane environment ... a new civilization.

History of the Series

These seven lectures have been selected from various lecture series given to a variety of audiences between November 1956 and September 1962. In them, Ron gives a broad look at the subject of organizations on the whole track and the role SCIENTOLOGY Organizations play in the creation of a new civilization here on Earth. He also relates the importance of public and staff working *together*, in and through SCIENTOLOGY organizations to clear the planet.

The Lectures

Postulate Out of a Golden Age

Ron begins this lecture by discussing the subject of "future", how it gets postulated and how one can look back and spot any given era's or political entity's source. He reveals the source of the modern free culture of the West - who postulated it, what the postulate was and how its continuation is now being enhanced and ensured by DIANETICS and SCIENTOLOGY.

The Genus of Dianetics and Scientology

In this lecture, Ron discusses the initial discoveries of DIANETICS and SCIENTOLOGY and his realization that man knew nothing of the mind or life. He describes how DIANETICS and SCIENTOLOGY are politically free - probably the only free organization on the face of the earth.

Scientology Organizations

This lecture describes the structure of Central Orgs and the need to have functional servicing organizations to be able to clear people.

Scientology Orgs and What They Do For You

Ron reveals that his mission is to get others to take responsibility for getting the show on the road - not having to make all the decisions himself.

The Consequences of Organization

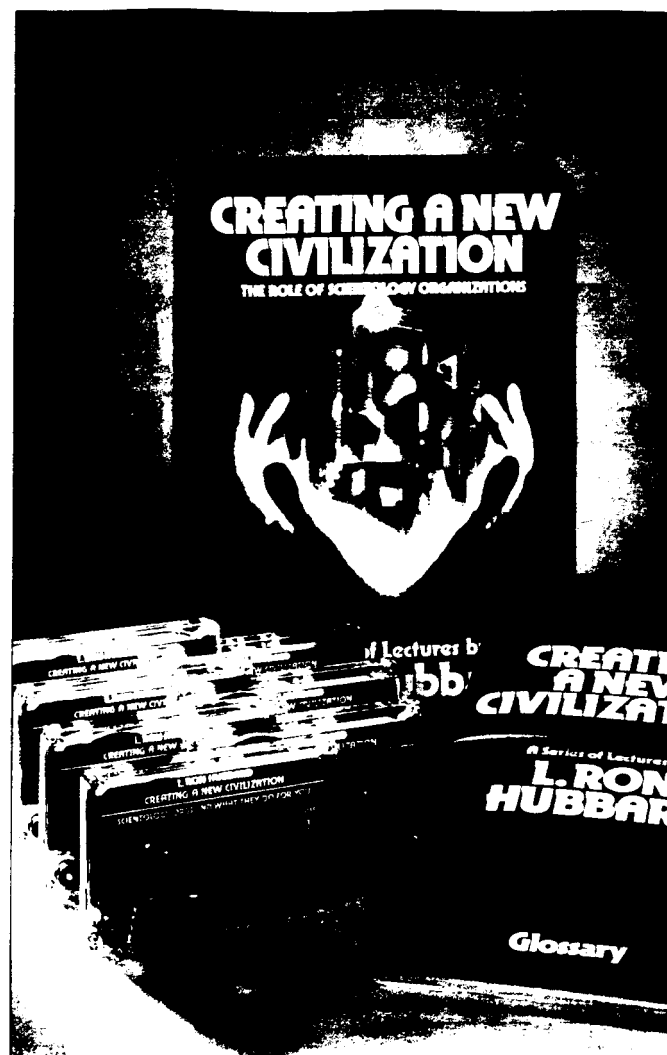

Ron gives examples of the many groups on earth who have only pushed people's faces deeper into the mud and how man, not used to seeing a group that doesn't do this, is suspicious of us. He also describes how organizations do not accomplish things - individuals do. He provides examples of organizations that have failed and why and discloses the exact factors necessary for any organization to succeed.

Individuation

Ron covers the factors that cause executives to leave high altitude positions and how a staff failing to take responsibility for their executives can result in blow-offs. He gives examples of this in large corporations, describes how this phenomenon can snowball and how to handle this.

Future Org Trends

What would happen if we all attempted to go off and deliver SCIENTOLOGY on our own, with no organization? This lecture describes SCIENTOLOGY as theta, and theta as a force where every one wins.

"... man has the right to his own opinions, has a right to study them, has a right to know his government and his duties as a citizen and to exercise himself in performing those duties... And this we've known for twenty-three hundred years, and so today call ourselves a civilized race."

Games and the Spirit of Play

Games Congress Lectures

This lecture series is all about games, problems and postulates. Ron gives an overview of life and of games and playing them from a thetan viewpoint. He explains why one has to address the games a man is playing and has played in the past in order to restore his ability to play games at will.

History of the Series

In July 1956, L. Ron Hubbard announced that he had the best news since 1950: *"I have whipped the problems of the whole track and memory of the past and can resolve the worst cases we have ever had."*

These intriguing and often humorous lectures reveal how the games that man has been playing for the last two or three thousand years have been insignificant in comparison to the major nature of the games found on the whole track.

Subjects Covered

This series contains three Group Processing sessions which you can experience: *Crave to Know*, *Keep it from Going Away* and *Hold it Still*, as well as a model auditing demonstration, by Ron, of Start-Change-Stop.

Ron covers the anatomy of human problems, third dynamic application of games principles and havingness, what the common denominator of illness is and the basic rule of auditing!

History of the Series Spiritual and Material Requirements of Man

Ron talks about what clearing was like in 1947 vs. 1950 and how SCIENTOLOGY was and is doing more for man than anyone else.

Group Processing: Crave to Know

In this lecture you will experience Ron running Group Processing.

The Anatomy of Human Problems

Covers what problems are, how a thetan's curiosity can get him into trouble and how the *Know to Mystery Scale* applies to problems. Ron also covers what jealousy is.

Games Conditions vs. No-Games Conditions

Ron explains the full definition of a game, what a games condition is and how to better play the game of life.

Third Dynamic Application of Games Principles

With many real life examples, this lecture covers how the tech of games and solutions applies to the work place, schools, nurseries for children and civic groups.

Group Processing: Keep it from Going Away

Ron runs Group Processing with spectacular results!

Auditing Procedure 1956

Here Ron answers the question why one person gets results on a preclear and another doesn't.

Universe

This lecture includes data about who built the universe and what happens when you become the effect of it.

Havingness

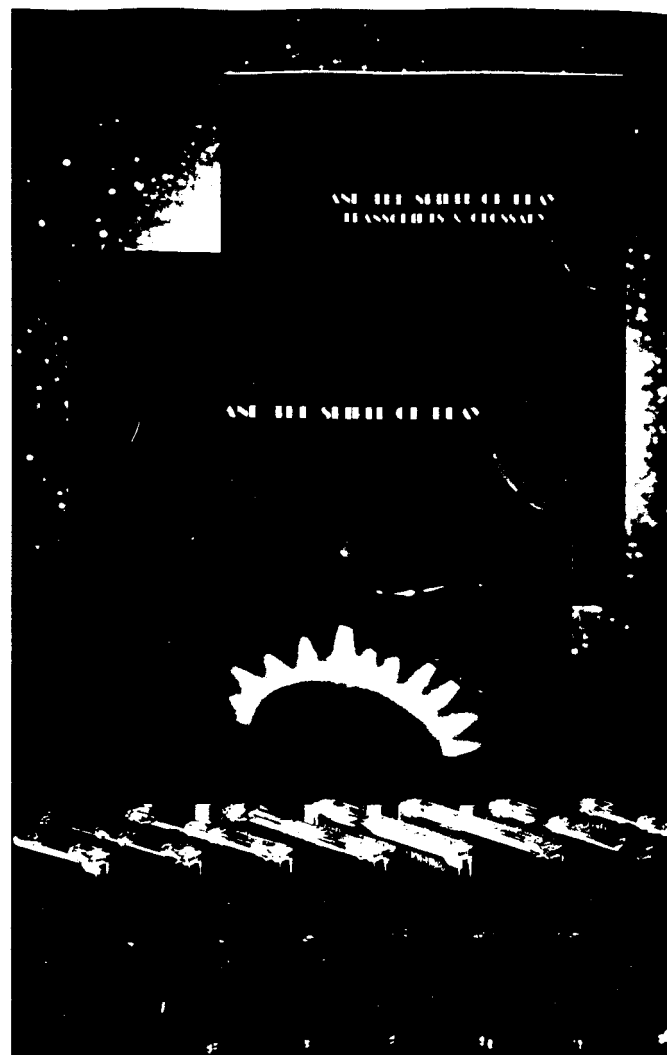

Ron explains what havingness is and what happens when a thetan experiences a lack of havingness.

Effectiveness of Brainwashing

Ron tells why brainwashing doesn't work and why it is impossible to make anyone worse with auditing.

Demonstration of Start-Change-Stop

Ron demonstrates how to run Start-Change-Stop. He also runs a process called "*curiosity*" to handle a somatic on the preclear.

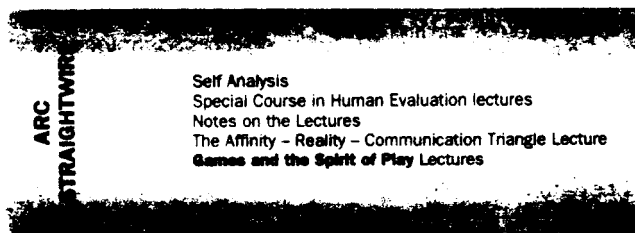

"Have you ever tried to play a game of blackjack with your last dollar? That's not a game. That's desperation!"

The Phoenix Lectures

How to put the spiritual wisdom of the Scientology religion to work in your life

In this series of twenty-eight lectures, Ron brings to life, with colorful examples and anecdotes, the spiritual heritage of man and the fundamentals of the SCIENTOLOGY religion. Topics include each SCIENTOLOGY Axiom, the Conditions of Existence, the subject of communication and the anatomy of problems. These are the profound truths of SCIENTOLOGY, explained in depth and detail so that you can apply them in life.

History of the Series

By 1954, the knowledge of SCIENTOLOGY had advanced so far that several levels of training were necessary. First was the introductory course and then beginning auditor training. On top of this was training for the professional SCIENTOLOGIST, the professional auditor.

The professional was the person who had the duty, the ability and the initiative to spread his knowledge and bring others to understanding. Ron chose vital lectures to form *The Professional Course* and then specially recorded four additional talks in his office without an audience, just for this series. These four lectures cover the Axioms.

Today, *The Phoenix Lectures* are required materials on the course to become an ordained minister of the Church of Scientology. These lectures blazed the trail to make professional SCIENTOLOGISTS in 1954 and they continue to make them today.

The Anatomy of the Human Mind Congress

Practical fundamentals of the mind and life and their use in creating a saner, more harmonious environment

In addition to a complete, concise description of the mind, its makeup and function, Ron discusses the basic principles of DIANETICS and SCIENTOLOGY and their utilization in dissemination and expansion. He covers the practicality of SCIENTOLOGY and how any SCIENTOLOGIST can apply the technology to actually control and make harmonious the entirety of his environment.

History of the Series

These five lectures were given by Ron in Washington, DC on 31 December, 1960 and 1 January, 1961. Ron had been busy researching effective ways of opening up the communication lines of organizations in order to help even greater numbers of individuals accomplish their goals. One of his breakthroughs in this line was a course for people newly interested in SCIENTOLOGY – *The Anatomy of the Human Mind Course*. The course was to be used to reach millions of people, introducing them to SCIENTOLOGY technology in a way that would be immediately real and instantly applicable in their lives and environments.

Subjects Covered

- The parts of man
- The brain and nervous system
 - what they really are and what they do
- The different types of minds
- How every SCIENTOLOGIST can effectively assist in clearing the planet

The Lectures

The Genus of Dianetics and Scientology

Ron relates how DIANETICS and SCIENTOLOGY began, how they developed and the bright prospects for their future.

The Things of Scientology

The complete *Anatomy of the Human Mind Course* is outlined, touching on twenty of the most fundamental objects and entities of SCIENTOLOGY philosophy and how to effectively teach new people about them – a whole new reality for newcomers and fresh insights for the experienced SCIENTOLOGIST.

The Whole Answer to the Problems of the Mind

Ron explains the difference in approach to the problems of the mind between DIANETICS and SCIENTOLOGY, and describes how clearing is accomplished.

The Field of Scientology

In this talk, Ron shows why it is vitally important to the planet and future for every SCIENTOLOGIST to do his job as a SCIENTOLOGIST and apply what he knows.

Scientology Organizations

SCIENTOLOGY organizations, their purpose, basic structure and activities are covered – as well as why they succeed better than any other organizations on the planet.

"But the human mind, of course, is a sort of a bag of tricks. It's the bag of tricks that a thetan has developed to keep himself from getting bored to death in this universe, and has then considered too complicated to understand and has gotten himself into serious trouble with."

Training Materials

A vital part of The Bridge to Clear and OT

Whether or not one intends to be a professional auditor, DIANETICS and

SCIENTOLOGY training is a vital part of every Scientologist's progress up THE BRIDGE to OT. And materials are, of course, a vital part of every training course. Since the very first days of training in DIANETICS and SCIENTOLOGY, recordings of Ron's lectures and auditing demonstrations have been an integral part of the training scene. Less than a month after the May 1950 publication of *Dianetics: The Modern Science of Mental Health*, Ron was already recording lectures and auditing demonstrations both for students to study and restudy, and to preserve the day-to-day progress of his research and discoveries.

Recorded lectures contain invaluable data, but any student who has heard them would agree that it's not only Ron's words that carry the message – there is also the factor of how Ron says what he says. There is just no substitute for a recording to convey Ron's emphasis, the tone or mood he uses – all the various nuances that are part of spoken communication.

Here's what Ron had to say on the subject:

"... transcripts do NOT supplant the tapes, as how the words were said and how preclears in auditing demonstrations actually responded are quite important."

When it comes to achieving superb session presence and TRs there is clearly nothing that could take the place of hearing Ron in session with a pc, his stellar example preserved for all time.

Clearly, recorded lectures and demonstrations are a vital part of the materials of training, and every student must own and study the recordings that are part of his courses. But every SCIENTOLOGIST, whether currently in training or not, should own and listen to these lectures. Course graduates, for instance, need them for reference and review – one couldn't possibly hear them "too many times." In fact, Ron made this point in HCO™ B 8 May 69, *Important Study Data*:

"Number of times over the materials equals certainty and results."

A SCIENTOLOGIST planning to train in the future should be study-

ing these materials now – the data is not "reserved" for those enrolled on courses, nor is its use limited to the auditing room. Quite the reverse: The data on every course in SCIENTOLOGY is data to be understood and used in *life*, every day. Advanced study will mean faster course completion once one starts training. And the understandings to be gained from the lectures and demonstrations can mean a noticeable increase in speed and magnitude of gain from any auditing one receives. In short, if you are a SCIENTOLOGIST, these materials belong in your hands right now! They are a vital part of your life and future.

The Study Tapes

Ron's milestone breakthroughs in the field of study ability

These lectures contain information never before known by man about the technology of studying and of educating one's fellows. The basic laws of study can and have been applied in innumerable fields of endeavor with uniform success.

History of the Series

When Ron was instructing students on the *SAINT HILL Special Briefing Course* in the early 60s, he made breakthrough discoveries which have revolutionized the field of study and education.

One of the major discoveries was the reason for the student "blow" or departure from his studies - he found the reason that lies behind all such illogical behavior. Not only did Ron open the door for the millions of people who have dropped out of school (and out of life), he has made it possible for all of us to study subjects we once only dreamed of mastering.

The Lectures

Studying: Introduction

In this lecture, Ron gives the first barrier to crack in the subject of learning itself. With this door cracked open, a person can learn anything.

Studying: Data Assimilation

Find out why the idea that you cannot study is false, and the missing ingredient in studying - the misunderstood word or symbol.

A Summary of Study

Why are some of the planet's most highly "educated" people unable to produce, even after years of education? And why someone who has never seen the inside of a university does

succeed where other more "educated" people fail?

Study: Gradients and Nomenclature

In this lecture, Ron describes the vicious nature of the skipped gradient, and the importance of this in learning anything.

Study: Evaluation of Information

What is the chief difference between the successful individual and the unsuccessful individual? Why does one person make it to the top and the other fall on his face? Listen to this lecture and you will have the answer.

Study and Education

Why do people get physiological reactions from studying and what is the exact remedy to them? How can you get a proper balance of mass with significance in studying? These questions and more are answered.

A Review of Study

The importance of balancing mass and significance during study is detailed in this lecture. Study is a method of bringing someone out of the state of being withdrawn from life.

Study and Intention

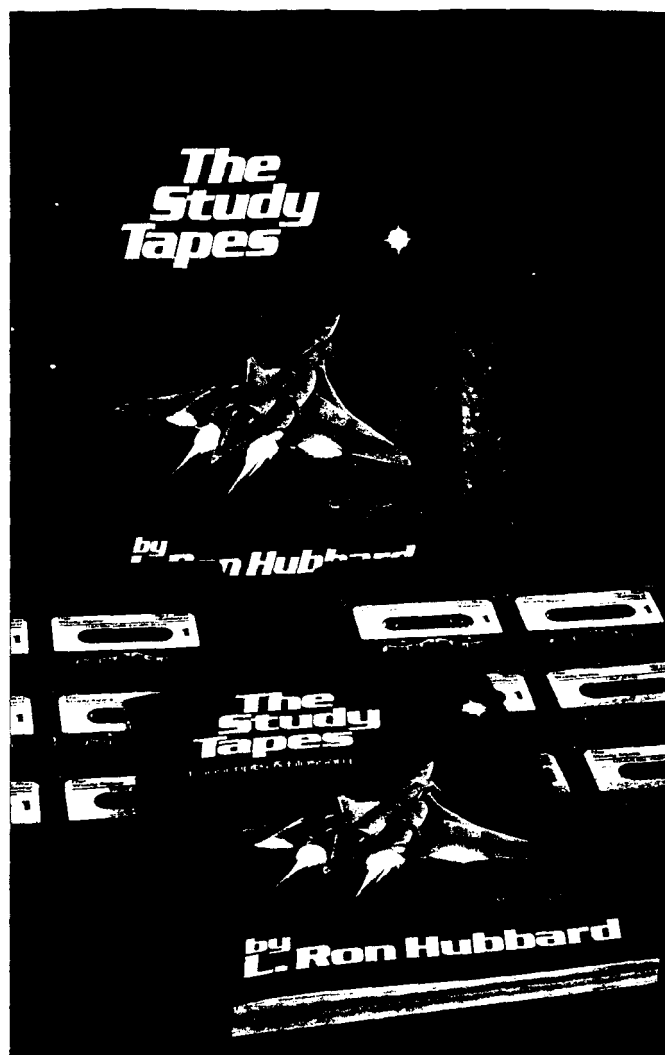

Why must you use a dictionary in studying anything? What does purpose and intention have to do with duplication in studying?

Training: Duplication

Why can't rote learning replace the duplication of data and true understanding?

Three Lectures on Education

Three special lectures given by Ron in 1956 on the subject of study and duplication - including the Learning Drills.

"Education means learning or knowing or accomplishing the knowingness of a certain subject... let's take that as a flat-out definition. If one is educated in a subject, then he knows that subject... He is able to accomplish the actions which are taught in that subject... don't you see? That's education."

The New Hubbard Professional TR Course Lectures

Get your TRs and session presence up to the standard demonstrated by Ron

What do perfect TRs sound like? This tape series, *The New Hubbard Professional TR Course Lectures*, provides you with a model of perfect TRs. "A lack of TRs in life has produced chaos throughout the entire history of man on this planet and in the stars. TRs not only form the basis of communication and auditing, they also regulate the lives and fate of individuals."

— LRH from the film *TRs in Life*

A person who has his TRs fully in will be able to handle anyone with communication alone. His communication will be able to stand up faultlessly to any session or social situation, no matter how rough.

Chosen for their exact relevance to a Professional TR course, these two lectures and five LRH auditing demonstrations together give you vital data about communication and TRs, and a model of perfect TRs and session presence — Ron himself!

The Lectures and Demonstrations ARC Breaks and the Comm Cycle

This *SAINT HILL Special Briefing Course* lecture from 24 July, 1963, contains invaluable data regarding the comm cycle basics and the causes and preventions of ARC breaks — and what these have to do with an auditor's TRs.

"Now, how do you signify a comprehension? Well, I know your telepathy is kind of busted; it's been busted for quite a while... But we're not asking for anything that is that marvelous. We're asking for pure and simple, an ordinary response to a communication."

— LRH from the lecture *ARC Breaks and the Comm Cycle*

Scientology and Effective Knowledge

In this lecture of 15 July, 1957, Ron gives the basics of SCIENTOLOGY and communication theory, with many examples.

"...your ability to know: the subject is your ability to look. No more, no less than that. Now, the only thing, actually, that anyone can do for you is to provide you with an example of having looked, and perhaps to furnish you a little road map saying 'If you travel up this way there's some scenery.' Got it? And if you look at this scenery real hard it won't bite you.' Some reassurances can be offered. Some drills can be offered that show an individual that he can observe, look and confront, exchange communication with or communicate to."

"The whole subject opens up at its inception with just this: That the simplicity of observation, the simplicity of communication... is functional and will take man from the bottom to the top."

"And the only thing I am trying to teach you is look."

Freedom Congress Lectures

All about Upper Indoctrination TRs, Tone 40, cause and control

The Freedom Congress was held at the Shoreham Hotel in Washington, D.C., 4 July through 7 July, 1957 with hundreds of SCIENTOLOGISTS in attendance.

At this Congress, Ron announced the solution to raise an auditor's ability to confront and communicate sufficiently to audit at a high level of competence, despite his own case.

This included a full array of training drills designed to boost an individual's ability to communicate and handle life.

The drills covered in these lectures form the backbone of auditor training, are life-changing for anyone and have changed the lives of millions.

The Lectures

How We Have Addressed the Problem of the Mind

Ron discusses how TRs let a person operate in present time, in life as well as in auditing.

Man's Search and Scientology's Answer

Ron covers Group Processing, Tone 40, the impact of SCIENTOLOGY on society and the simplicity and effectiveness of TRs.

Definition of Control

Hear how control cannot carry with it duress or punishment and still be control. Get a detailed look at all the factors that go into control.

Basic Theory of CCHs

Learn how assigning incorrect ownership to something will make it more solid and how a thetan becomes stuck to things.

Group Processing: Acceptable Pressure

Ron runs havingness and explains the relationship between pressure and havingness.

Group Processing: Hold it on Earth

Ron discusses gravity and pressure, and runs the group process "Hold it on Earth."

Purpose and Need of Training Drills

Ron discusses Tone 40 and the importance of acknowledgement

and covers the purpose of Training Drills and their results.

Training Drills Demonstrated

Here, Ron demonstrates each Training Routine. How a good ack can make someone's facsimiles disappear.

Third Dynamic and Communication - High School Indoc Demo

Ron discusses third dynamic communication and how it works, then gives a demonstration of "High School Indoc."

Demonstrations of High School Indoc

Ron has audience members perform High School Indoc on stage, and discusses the results of High School Indoc in training.

Tone 40 on an Object

This gives the correct sequence for getting someone through the Comm Course and High School Indoc, and how and why cleaning up problems in the preclear clears them up in the physical universe.

Levels of Skill

Gain an understanding about the different levels of auditing skill and how to increase the skill of an auditor in getting results.

Tone 40 on a Person

This is a lecture about and demonstration of Tone 40 on a person and includes the correct pressure and placement of the auditor and pc during CCHs.

Child Scientology

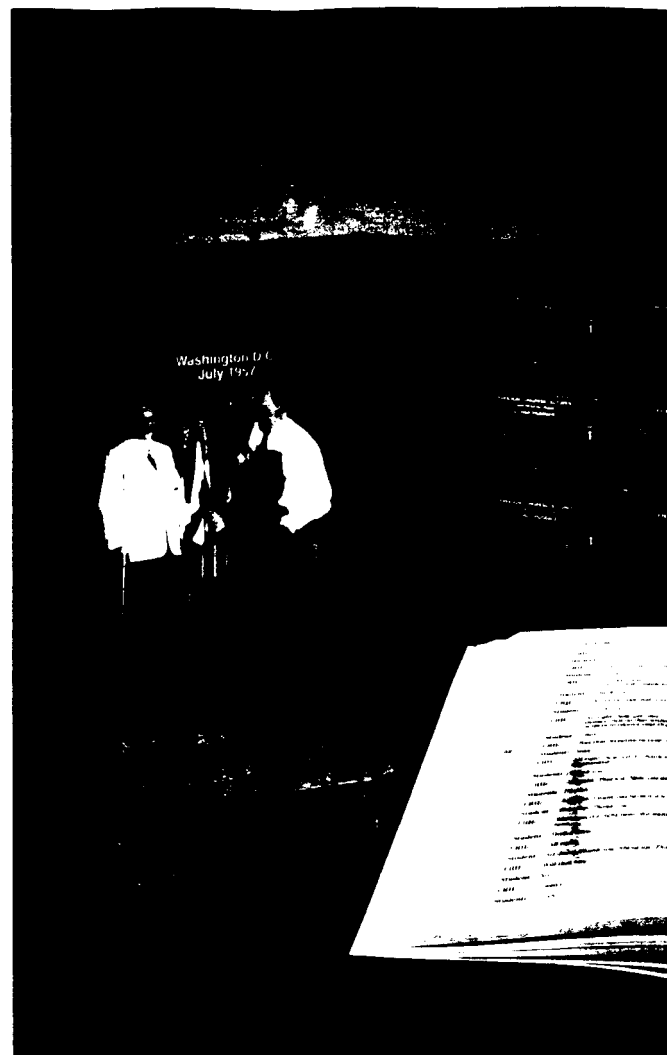

Learn how childhood is *not* a native state for man and why children have to be audited with the same formal procedure as adults.

CCH: Steps 1-4 Demo

Here, Ron demonstrates the exact commands and procedures for CCH steps 1-4.

CCH: Steps 5-7 Demo

Ron gives the process required to teach someone a stable datum, and demonstrates the exact procedures for CCH 5-7.

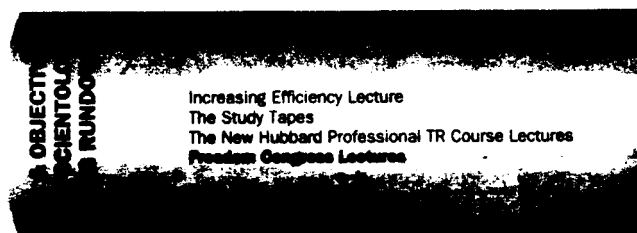

"What I've done here is take auditing apart into its various parts, which is to say take human relations apart into their various, tiny, fragmentary parts. Then you teach a person to do all the parts, and then progressively teach him to do two or three of the parts at once. And the next thing you know, there he is, see?"

The Academy Level 0 Lectures

*How to handle the barriers
to communication and
rehabilitate a person's ability
to communicate freely*

Communication is the heart of life. Ron has said that a person is as alive as he can communicate. In these lectures, he shows exactly why this is, and dissects the parts of communication in detail, showing all of the parts of communication, what makes communication work, and what blocks communication.

This data is essential to an auditor. In fact, this is the very core of auditing itself. The data is equally vital to life itself. Armed with the principles in these lectures, anyone can spot exactly what is wrong with a communication cycle and know instantly how to remedy it.

The Lectures

E-Meter Data: Instant Reads

Ron talks about instant reads and how they can make or break a session, and how anyone can improve their ability to observe.

"Here is a direction to look, here is an instrument with which to look. And if I ever will just teach you just to look and to see what you are looking at without any interference or interpretation or anything else, well, I probably would have made a greater philosophic splash than any philosopher we've had on this planet..."

The Communication Cycle in Auditing

Ron talks about the power of the communication cycle alone and how it is therapeutic in itself. He shows how the most basic entrance point to any case is the comm cycle, and goes over many different outnesses that can occur in a comm cycle and how to remedy them.

The ITSA Line

Ron goes over the communication lines between a preclear and an auditor, and the vital importance of the "itsa line" in getting tone arm motion and case gain.

The ITSA Line continued

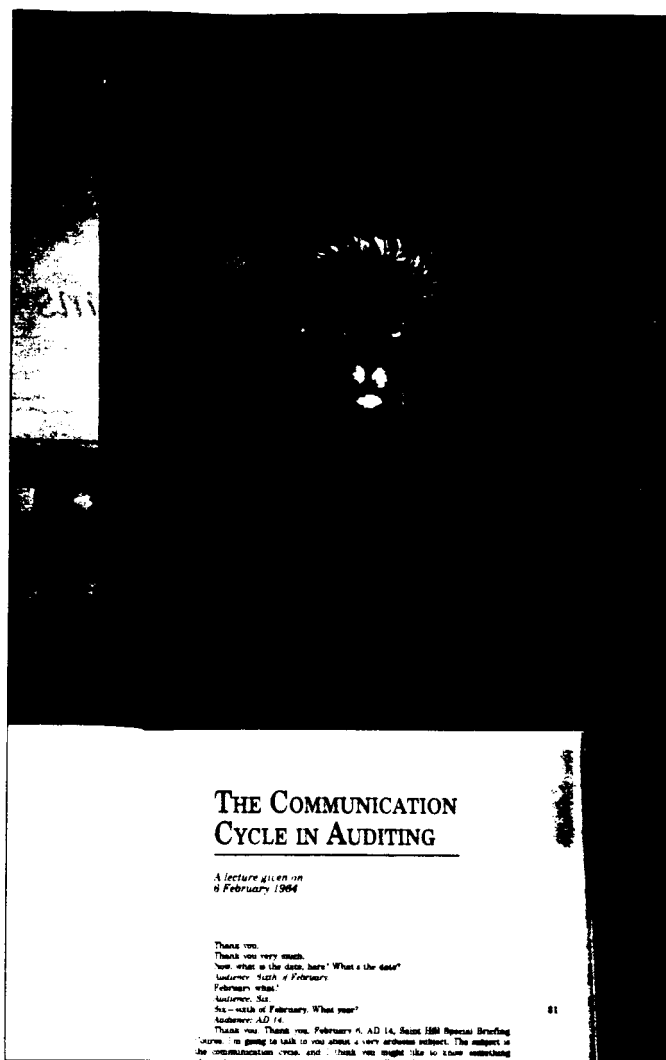

Ron expands on the importance of the itsa line, and describes this as the first step on the road to a better life. He shows how past studies have failed by cutting the itsa line. And he shows you how to put in an itsa line – and how not to.

Comm Cycles in Auditing

Learn the importance of completing communication cycles, and how to smooth this out as an auditor – or in life. Ron diagrams out the many communication cycles within the auditing cycle (and his chart is reproduced in the transcript pack).

Auditing Comm Cycles

Ron describes space opera, force and amnesia on the whole track, and what this has to do with restoring the person's awareness in present time. He shows exactly how and why the proper application of communication blows the charge from these past incidents.

"The subject is the communication cycle, and I think you might like to know something about the communication cycle as used in auditing. It's a new subject – new to many. If you look over communication, you'll find out that the magic of communication is about the only thing that makes auditing work."

The Academy Level I Lectures

The technologies of help, control and the source and handling of problems

A short talk with most anyone will reveal he or she is caught up in problems – problems with money, problems with relationships, problems with work...the list would seem endless.

The *Academy Level I Lectures* cover the anatomy of problems, how solutions become problems, what holds problems in place and how they can actually be made to vanish. They also give one a full understanding of the subject of help, and the relationship of help to aberration, including why it can sometimes be hard to help others or accept help.

The Lectures Basics of Auditing

Ron covers what fundamental auditing consists of and how to apply this in sessions. He also describes the basics of rudiments and keeping a pc in session, as well as how an auditor can Q & A, and how *not* to Q & A.

Cycles of Action

In this lecture, Ron describes in detail what a cycle of action consists of and its earliest origins. He covers what time is and how time relates to cycles of action. He ties this data into how auditing works and why auditors must get auditing questions answered.

Basic Theory of CCHs

This lecture explains what havingness, communication and control are and the basic theory behind CCH.

CCH: Steps 1-4 Demo

Here, Ron demonstrates each of the CCHs 1 – 4, including proper auditor and pc position, the exact auditing commands used, what the end phenomena is, with examples of what the auditor's attitude should be in Tone +0 sessions.

Running CCHs

Ron gives the correct sequence for running CCHs and how to tell precisely when a CCH is truly flat. He also covers what happens if the auditor allows the pc to control a session.

CCHs

In explaining why an auditor cannot audit CCHs robotically, Ron gives the final version of the commands for Tone +0 8-C, explaining how to run this and other CCH processes.

Flattening a Process

Ron explains how to evaluate when a process or section of a process is truly flat, including several examples of this in application. He also covers the subject of intention – and how this relates to auditing, case gain and restoring power and ability to a thetan.

The Prior Confusion

In this lecture, Ron defines the prior confusion and explains its relationship with problems, chronic somatics and hidden standards, giving many real life examples.

Problems Intensive

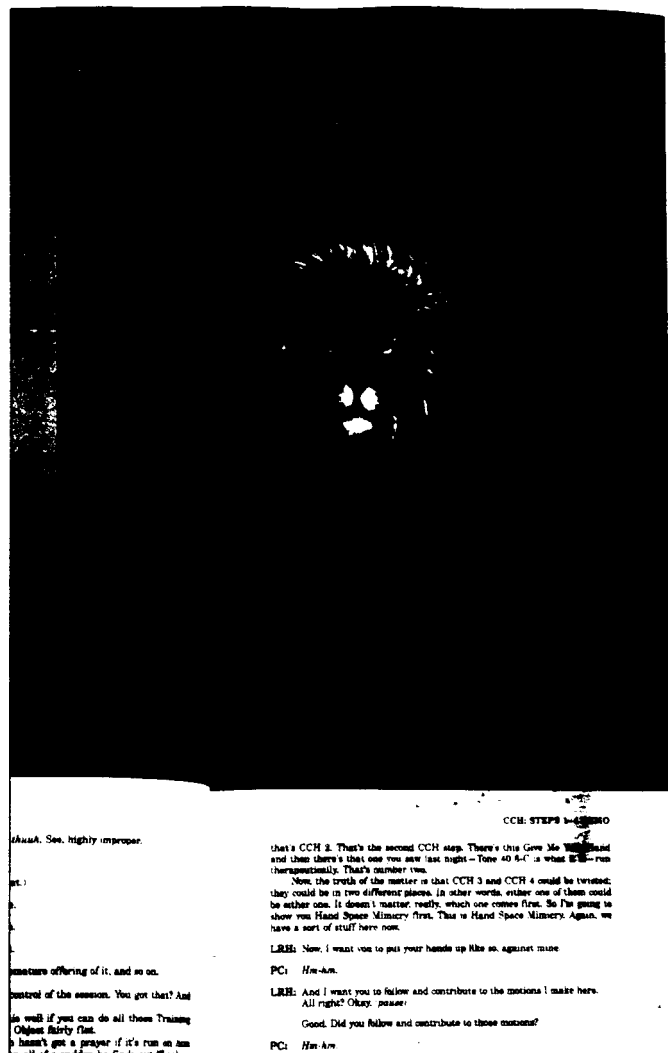

Ron explains what a problems intensive consists of, including the exact processes to be used and how to run them. He further discusses problems and hidden standards, with many examples.

Problems Intensive Assessment

Ron describes the Preclear Assessment Form, the contents of each section, the exact procedure for filling it out and its uses.

Problems and Solutions

Ron describes how one's solutions to problems become problems, which then require a more complicated solution and how this mechanism leaves a thetan less aware than before.

"So the road into this universe is successive unawarenesses. And the road out is successive awarenesses..."

"He got himself into trouble by solving himself into trouble. And when he has solved himself all the way into trouble totally, he's here..."

The Academy Level II Lectures

*Bringing relief from
the hostilities and
sufferings of life*

Why do people cut themselves off from others and live lives of sad individuation: shut off their emotions; or snap and strike at you when you try to help them; suddenly leave marriages, jobs, groups – and could their leaving have been prevented? The lectures of *Academy Level II* reveal the answers to these puzzles – and the technology of how to reverse the upset and suffering they carry with them.

Subjects Covered

Rehabilitating self-determinism
Withholds and missed withholds:
their exact nature and handling
The overt-motivator sequence
Mystery: the glue that sticks
thetans to things
Stupidity and its handling

The Lectures

Nature of Withholds

Ron covers withholds and how they are different from pc to pc due to differences in social mores.

Directing Attention

Find out what mood has to do with controlling a session and pulling withholds.

What is a Withhold

The indicators of withholds are discussed in detail – valuable data in auditing and in life.

The Overt-Motivator Sequence

In this lecture, Ron explains the mechanism of the overt-motivator sequence and how it has been used on the track to make people inactive.

Missed Missed Withholds

Here Ron covers the subject of Q and A and the importance in auditing of asking the right question. He hats the auditor on the subject of missed withholds and how to utilize this tech in life.

The Missed Missed Withhold

In this lecture Ron emphatically

reiterates the importance of differentiating between a withhold and a missed withhold in auditing.

O/W Modernized and Reviewed

The emphasis of this lecture is on the two distinct and fundamental stages of all auditing.

Moral Codes:

What is a Withhold

How could a person who murdered, embezzled money, robbed banks, etc., not read on a meter?

Sec Checking: Types of Withholds

There are several types of withholds, each with its own characteristics – and in this lecture, Ron defines each. Any auditor or SCIENTOLOGIST has to know each type of withhold to effectively deal with others.

Security Checking: Auditing Errors

Ron details the most important errors that can be made in security checking with graphic, real-life examples of the consequences.

How to Security Check

Ron tells the consequence of a missed read in sec checking and explains that a thetan is not natively a member of any culture.

Prepcchecking – Parts I & II

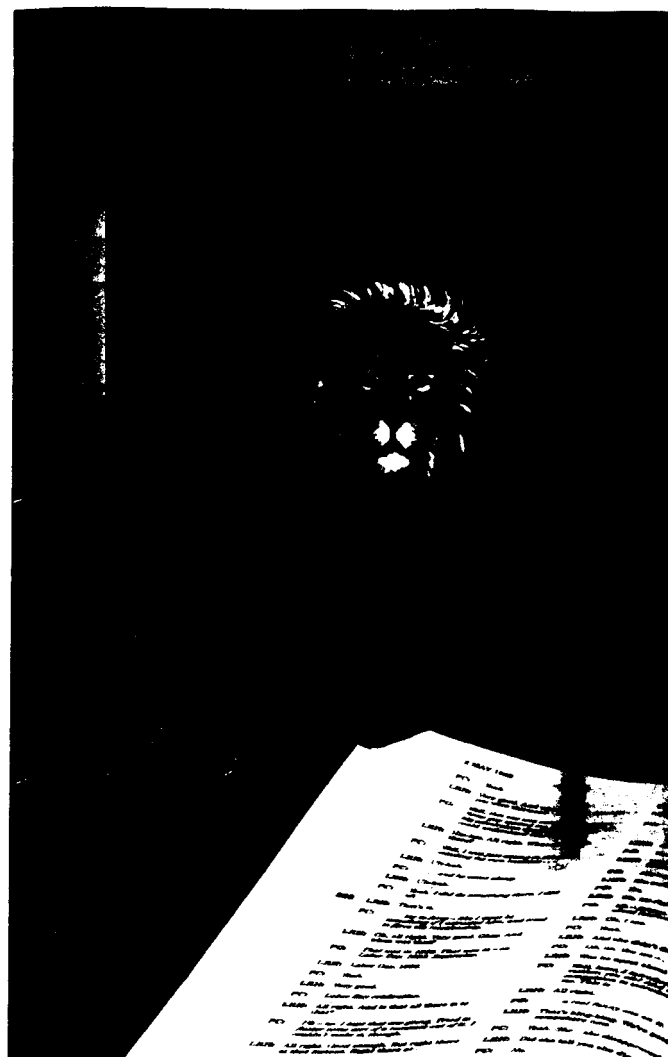

This is a unique and fascinating auditing session given by Ron – a brilliant demonstration of auditor presence, session control and skill in locating and pulling withholds.

Craftsmanship: Fundamentals

This lecture provides the listener with the fundamentals that give the ability to think on his feet as a SCIENTOLOGIST.

Fish & Fumble

Ron demonstrates 100% Standard Tech on the subject of following up dirty needles.

"The pc for sure is going to land in different places elsewhere. He's going to be in different societies than he is in now. Therefore, there is only one thing that you can rehabilitate in the pc, and that is his ability to determine his own actions and that is all you can rehabilitate."

The Academy Level III Lectures

*Freeing a being from upsets
and troubles of the past*

Have you ever been baffled when someone suddenly got upset with you – for no apparent reason? Here's data you can use to become cause over the bypassed charge of life!

The lectures of *Academy Level III* reveal the reason for upsets and how to bring new freedom from upsets of the past. Here too is the know-how to smoothly handle an upset or irate individual, whether encountered in an auditing session or in day-to-day life.

These seven vital lectures thoroughly cover the subject of ARC and ARC breaks. What exactly causes ARC breaks? How do you prevent them? How do you remedy them?

By mastering this data and learning to use it, you can be cause over the subject of ARC breaks and upsets. And that is an ability that mankind has never before possessed.

History of the Series

Six of the seven lectures on *Academy Level III* were delivered by Ron to students of the *SAINT HILL Special Briefing Course*. The first lecture on this course was given in 1954 to the 8th ACC in Phoenix, Arizona.

The Lectures

Two-Way Communication

Ron talks about affinity, reality and communication and how to use these tools in auditing and in life. He shows how complete duplication relates to as-is-ness, communication lag and how to reduce it, and how to use the principles of duplication and control to get in communication with

anyone, including children and even animals.

Handling ARC Breaks

Ron shows the destructiveness of bypassing charge on a preclear or in life and how the problems of governments come from their inability to handle bypassed charge. He goes over ARC break processes and their use.

ARC Breaks and the Comm Cycle

Ron shows how incorrect handling of originations can cause an ARC break, and dissects the anatomy of an ARC break as a "partially detected communication."

E-Meter Reads and ARC Breaks

Here, Ron talks about prime postulate, is-ness and alter-is-ness and how these relate to metering and TR-4. He shows exactly how mishandling of E-METER reads and TR-4 can result in an ARC break – and exactly how it's handled.

Goals Listing

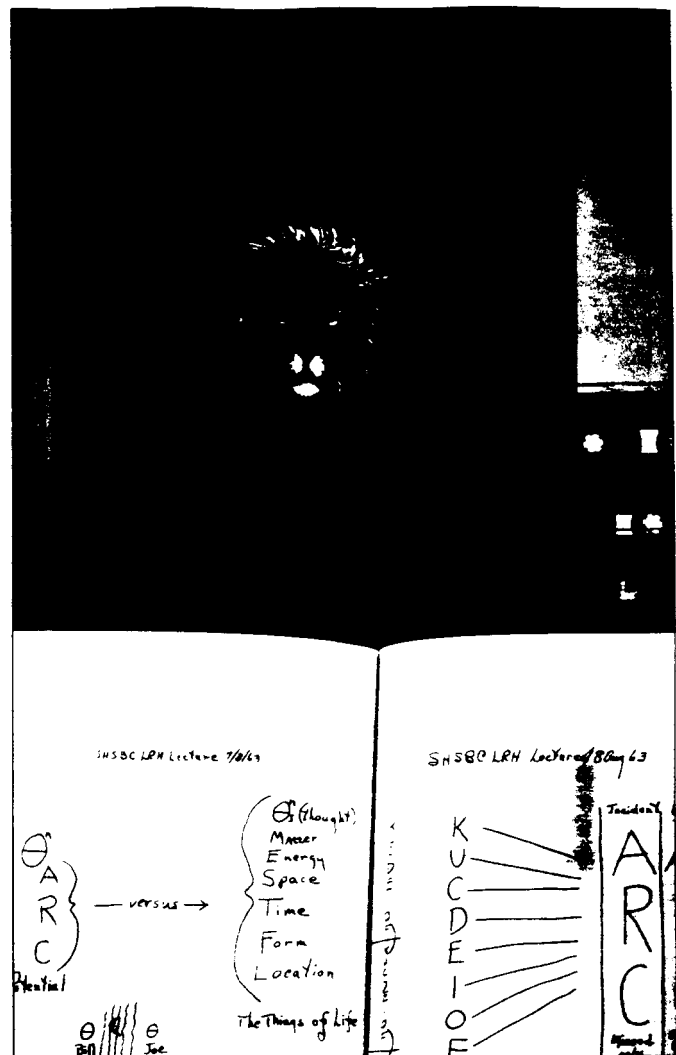

Learn key technology on the subject of goals. Ron describes many of the pitfalls of goals listing and how to resolve them.

R2H Fundamentals

Ron describes the fundamentals of running R2H. ARC breaks taken apart by assessment, which he describes as "one of the most satisfying processes that you ever cared to run."

R2H Assessment

More on R2H, ARC and the CDEI Scale.

*"... the understanding
and ARC of the individual
is a direct monitoring fac-
tor on how valuable that
individual is to the remain-
der of life. And that's the
only factor there is that's
worth measuring."*

The Academy Level IV Lectures

Freeing a being from fixed conditions and restoring the ability to do new things

One of the biggest barriers to creating a better life is the phenomenon of fixed conditions. In trying to change your life, gain new abilities or begin new activities, you can collide with considerations and stops – your own or others' – that can halt the attempt at change.

The lectures of *Academy Level IV* detail the technology of fixed conditions, their true source and how they can be unfixed, with a return of sanity and knowing self-determinism. The powerful technology regarding suppressive persons and potential trouble sources is also covered: data invaluable to any SCIENTOLOGIST.

Subjects covered

- Service facsimiles, their source, effects and handling
- Hidden standards
- Fixed attention
- Suppressives and PTSes and their handling
- Rightness and wrongness, survival and non-survival
- Implants

The Lectures

Suppressives and GAEs

In this lecture, Ron talks about some of the most basic laws of auditing such as being there and communicating. But what if an auditor commits the crime of not being there and communicating? What other gross auditing errors bar the road to freedom? This lecture also points out how to solve these problems.

Rightness and Wrongness

The communication line that can resolve the pc's aberration is that between auditor and pc. Understanding the mechanics of rightness and wrongness is key to maintaining that auditing comm cycle.

R3SC

What do service facsimiles have to do with a preclear's ability to go backtracking? In this lecture Ron demonstrates where service facsimile handling fits in the scope of clearing.

How to Find a Service Facsimile

Ron gives multiple examples of how to go about finding service facsimiles and why it's important to the pc's case to do so. *"I'm going to ask you now to be brave and even get out to the edge of the woods and take a look at this thing, because it's well worth looking at."*
– LRH from *How to Find a Service Facsimile*

Service Facsimile Assessment

Ron explains the phenomenon of the safe solution and why a safe solution is actually the most dangerous thing there is.

Service Facsimiles

This lecture includes a detailed discussion and description of the hidden standard: what it is, how a person attempts to use it, the devastating effect it has on his life and how it can be found and resolved in auditing.

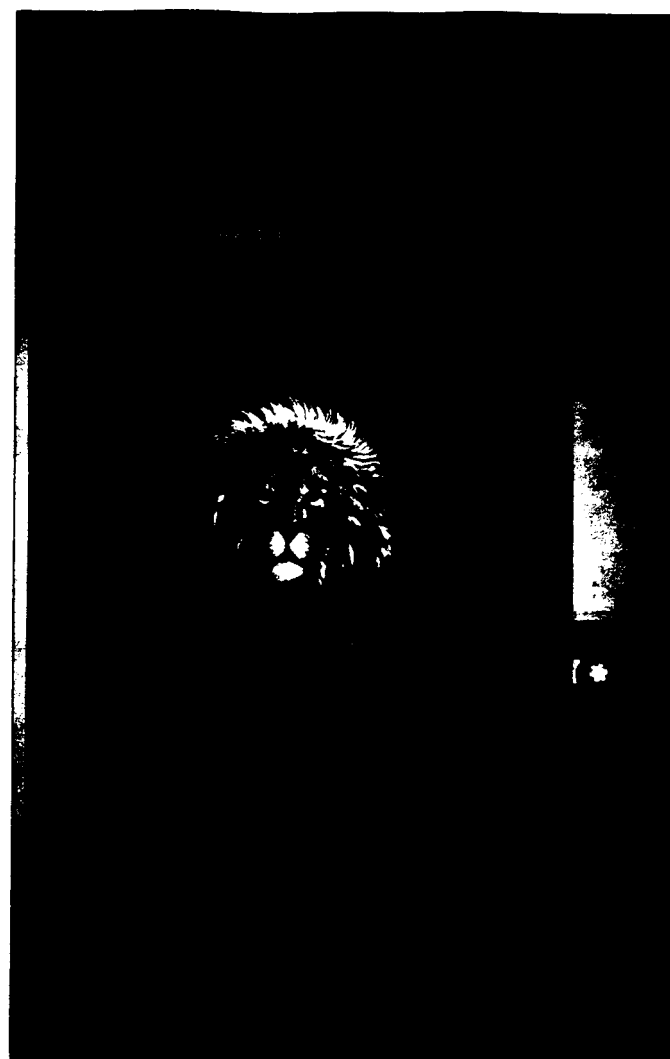

Saint Hill Service Facsimile Handling

A wonderfully thorough explanation and description of the service facsimile and how drastically it warps a thetan's perception and participation in life across the dynamics.

In this lecture, Ron relates how vital this technology is to going completely free as a being.

"The only thing that can trap a thetan is his attention. That is all that can trap a being – stone walls do not, definitely."

"You have a situation here where an individual is totally untrappable, completely and utterly untrappable by anyone except himself." – LRH from *Academy Levels Lectures*

"... as Scientologists we're always saying, 'Well, well, you know Joe, he's always in trouble, he just can't confront that,' see? That's fine, that's perfectly true, in its limited sense. But in actual fact, that doesn't lead to a resolution of that guy's case, because it isn't factual."

The Hubbard Senior Security Checker Course

How to free a being from self-restraint and regain power and ability

This series covers the subject of overts and withholds – how to free a being from self-restraint. While geared for students on the *Hubbard Senior Security Checker Course*, the data contained in these lectures is invaluable to any SCIENTOLOGIST who wants to increase his ability to handle those basic mechanisms that separate a being from life and his fellows, making him miserable and stopping his progress to higher states.

History of the Series

The ten lectures in this series were delivered by Ron between June 1961 and March 1964, to students on the *SALT HILL Special Briefing Course*. Most of the lectures in this series are from the period between the summers of 1961 and 1962, when the bulk of security checking was developed.

Subjects Covered

- Auditing fundamentals
- Security checking
- Overts and withholds

The Lectures

E-Meter Data: Instant Reads, Part I

What happens to the tone arm when a rudiment is out. Why the meter reads instantly and why only instant reads are taken up.

E-Meter Data: Instant Reads, Part II

Why one must evaluate importances in any study. How one can accurately read an E-METER and know what is happening in the pc's reactive mind while doing so. What is it that actually impinges on the reactive mind during auditing?

Basics of Auditing (29 Aug. 1961)

Ron covers security checking procedure, how an auditor can Q & A, many examples of how not to Q & A and what fundamental auditing consists of.

Principles of Auditing

Ron gives the key principles of auditing and describes how auditing is designed to gradually familiarize a preclear with his bank so he can come out of it. He also gives the anatomy of hatred.

Basics of Auditing (21 Aug. 1962)

Ron explains exactly why the auditor plus the preclear is greater than the bank and what happens if the auditor yanks the pc's attention off his case.

Individuation

A thorough rundown on responsibility and overt acts. What lies behind people leaving and how this can now be handled for the first time with SCIENTOLOGY auditing.

Sec Check Questions, Mutual Rudiments

How to correctly word a security check question so that the pc answers it. Ron goes over the mistakes an auditor could make by Q & Aing and the danger of mutual rudiments between the auditor and preclear.

Wrong Target, Sec Check

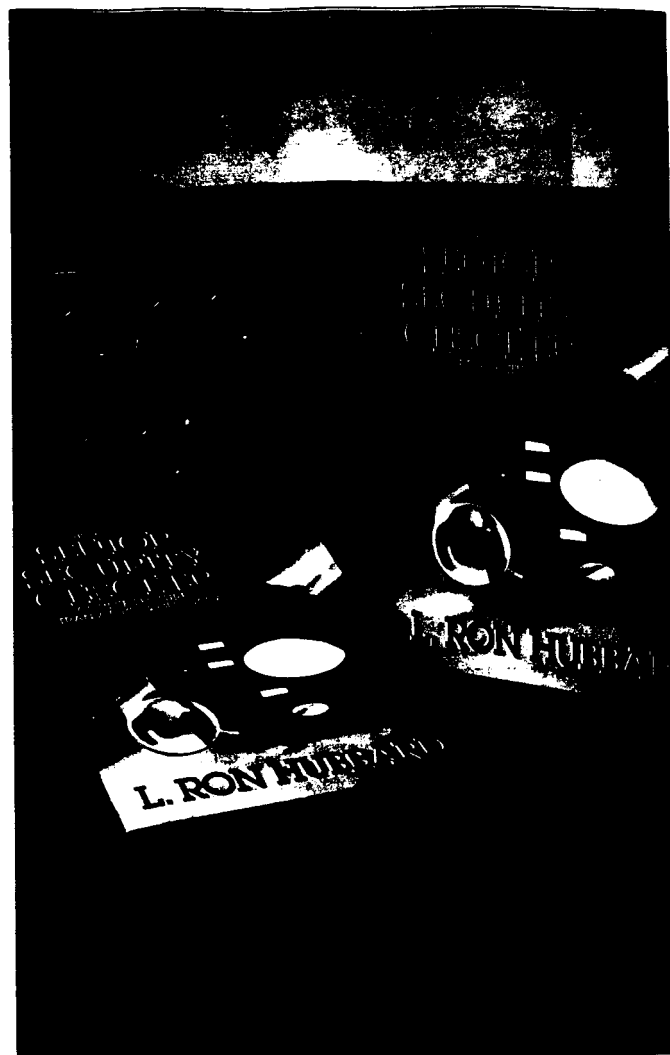

What the analytical mind really is and how an auditor can get more case gain on his preclears. The exact step-by-step procedure of doing a security check.

Sec Checks, Withholds

How to handle someone who is worried about or having trouble with ... anything! Ron goes over what the magnitude of the overt has to do with recovery of the case and gives the definition of withhold for auditors to use in session.

Flattening a Process

What has to be done before you can audit a pc. What intention has to do with power and ability and how one regains it.

"No, top figures in this particular business are not expendable. They just aren't. It's up to the staff, it's up to the auditors in the town, to see that such people are processed and to keep them from going out the bottom. Get those overt acts off them. Get that isolation off of them. Get them back in there pitching."

The False Purpose Rundown Auditor Course Lectures

An insight into the key aberrations that hold a being back from his full potential

In these five lectures, Ron covers the composition and structure of the mental masses a being accumulates. He goes over the problems Operating Thetans have had in dealing with the physical universe, and how these have led to entrapment. Ron also describes the exact mechanics that must be dealt with to unravel a being from those postulates which restrain his abilities. He reveals why a thetan adopts aberrated stable data which then cause his decline and how this is addressed in auditing.

History of the Series

These lectures, given between October 1961 and October 1964 to students on the *SAINT HILL Special Briefing Course*, have been selected specifically for students on the *FALSE PURPOSE RUNDOWN Auditor Course*. However, the data is so powerful that any SCIENTOLOGIST seeking to increase his understanding of, and ability to handle, the reactive mind and life will benefit greatly from a study of them.

Subjects Covered

- GPM Anatomy
- Pulling Overts
- Present Time Problems
- Failed Cases

The Lectures

The GPM

This lecture covers the problems and worries a thetan has with survival and describes the mechanisms a being uses to get out of trouble. Discover what the anatomy of a GPM is and how postulates and purposes relate to the GPM.

State of OT

In this lecture, Ron gives a full description of the Galaxy, how it was put together and how earth fits into the Milky Way. He describes the mechanism used throughout this universe to keep people from going places and doing things. He also discusses the single cause of all present time problems, the origin of the physical universe, the Helatrobis implants and the state of the local planets before, during and after these implants – and how this compares to earth today.

Flattening a Process

How a pc gets into trouble if the auditor doesn't complete cycles of action. What intention is and how it works. How a thetan can be weakened and his power knocked out. The only thing that holds a thetan entrapped.

The Failed Case

What a failed case is, and how to use the *Book of Case Remedies* to resolve it. The common denominator of all people who have turned against DIANETICS and SCIENTOLOGY, and why overts must be pulled with precision.

The Prior Confusion

What a chronic somatic is. What a hidden standard is, and what happens in auditing if the pc has a hidden standard. The basic anatomy of how pictures, illnesses and concepts get stuck.

"We've had, before, somebody drive a hole through an E-Meter electrode but not fuse an E-Meter. That was the end of that. Well, what did that? That was actually some involuntary reaction on the part of that thetan was triggered. Here he is sitting here in a meat body, holding himself down and being good, and somebody just suddenly triggered this, and that was the end of those leads. Melted. We were talking about power, heat; we're talking about a thetan.

The Hubbard New Era Dianetics Auditor Course Lectures

*A complete summation
of the basics of the mind*

These five lectures by L. Ron Hubbard occupy a unique place in the time track of discoveries leading up to the miracle of New Era DIANETICS. The principal early years of DIANETICS research were 1932, '38, '45, '48, '49, '50, '51 and '52. In 1962-63, Ron again embarked upon extensive research in this area, and the result, as could be expected, was nothing less spectacular than a redevelopment and re-release of the subject in its entirety!

History of the Series

The first three lectures in this series were delivered in 1963, to students of the *SAINT HILL Special Briefing Course*. They came at a time when phenomenal advancements in the subject were going forward with lightning velocity.

The closing lectures in this series were given in 1966, also to *SAINT HILL Special Briefing Course* students.

Because the data contained in these five lectures is so vital to a full understanding of New Era DIANETICS' technology, they have been made an integral part of that course.

Subjects Covered

In this series you will learn about:

- The source of present time
- The exact correlation between time, tone-arm motion, clearing and OT
- The nature of between-lives implants
- False pasts and futures
- The single source of ARC breaks – and the breakthrough of R3R (Routine 3 Revised), engram running by chains!

The Lectures

The Time Track

Ron gives a summation of engram running and extensively

covers the time track – a fifty-two perceptic 3D movie – and explains exactly what it is. He also covers the relationship of "supposing" to confronting, exteriorization from the body and exteriorization from the bank.

Engram – Chain Running

Ron gives a thorough rundown of a DIANETICS R3R session, exactly what happens and how you handle each part. He covers the relationship of flattening a process to running chains, how to know you have the earliest incident and also what charge is.

Errors in Time

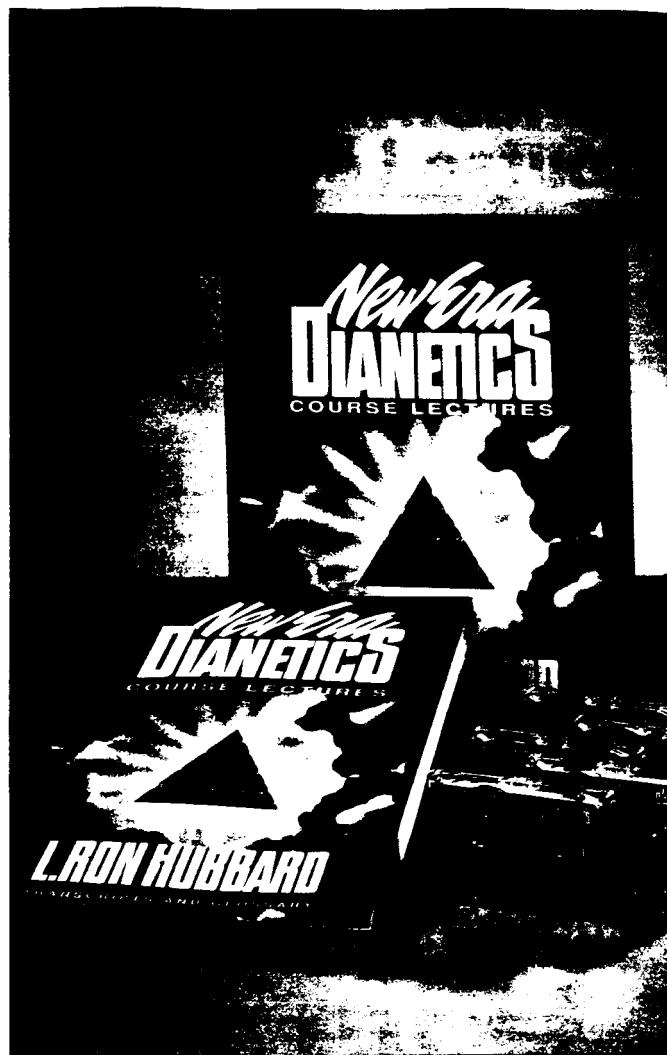

Ron explains the fact that behind all aberration there is a lie. He shows how Communism is an aberration, as it is based on a lie – and what that lie is. He takes up implants of false time tracks and what occurs with a pc as a result. Ron also explains the difference between a "process auditing cycle" and a "big auditing cycle" – what you are trying to get done with the pc.

Dianetics Auditing

In this lecture, Ron covers the difference between curing and clearing. He explains why an auditor is addressing the pc's experience rather than the pc's illusions and how psychology failed by addressing a person's illusions. The ability of the E-METER to "see" deeper into the bank than the pc is explained and how this is used in clearing.

Dianetics Auditing and the Mind

This is a very thorough rundown of the human mind, including the reactive mind and its parts. Ron also explains why a thetan has trouble making his postulates work and how postulates are interfered with by the bank. He also covers just how long it would take to erase every engram on the whole track and what the solution to this is.

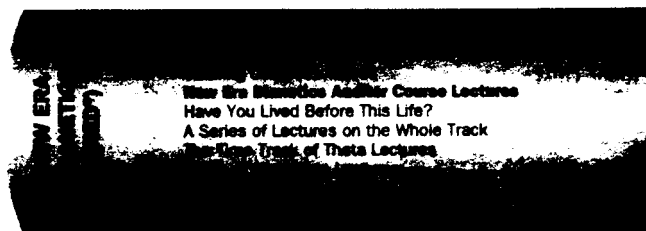

"It is not a matter of the rote command; it's a matter of understanding exactly what is this thing called a time track, exactly what are you bandling in the individual, exactly what keeps you from bandling it and permits you to bandle it. And you get that taped, why, all of this becomes very, very easy."

The Hubbard Class V Graduate Auditor Course Lectures

The exact actions necessary to ensure that any being can move up The Bridge and achieve total freedom

In these lectures, Ron takes up the major remedy and repair actions which must be known to smoothly move any preclear up the Grade Chart. The lectures cover: correct and successful assessment, use of prepared lists, how to spot and handle out-tech, what makes a case hog and the remedies.

History of the Series

These nine lectures were delivered by L. Ron Hubbard from July 1962 through to July 1966 to the students of the *Saint Hill Special Briefing Course* in Sussex, England. These years represent one of the most exhilarating periods in the history of SCIENTOLOGY philosophy.

Subjects Covered

These lectures contain data on how to see the exact E-METER read, the differences between flubless, highly successful assessment and failed assessment and invaluable data on the use of prepared lists. Hear Ron himself do an assessment with an E-METER. Find out how to instantly spot and correct out-tech and how to remedy a bogged case. These lectures give you the data you need to help someone out of the pit and onto THE BRIDGE again!

The Lectures

Meter Training

Ron covers the first barrier to correct metering – eyesight, how to test this and how to remedy it. The next barrier to correct perception of E-METER reads is the auditor's own "width of present time." Ron covers ways in which to broaden one's own perception of present time so that one could see a needle motion or no motion in 1/125th of a second.

Auditing and Assessment

In this lecture, Ron covers the primary cause of bad auditing and ARC breaks.

Auditing by Lists

Ron explains the difference between auditing by lists and assessment; why and how you keep the needle clean in a session. What does it mean when a question reads twice?

Listing Assessment for Engram Running, Session 1

This is a live demonstration of Ron doing assessment in an actual session.

Out-Tech

The difference between dissemination of SCIENTOLOGY to new public and actual auditing technology. Ron discusses exactly what out-tech is.

Briefing of Review Auditors

In this lecture, Ron covers three key powerful datums: the exact and only cause for high TA, the exact reason for roller-coaster and the exact source of an overt.

The Failed Case

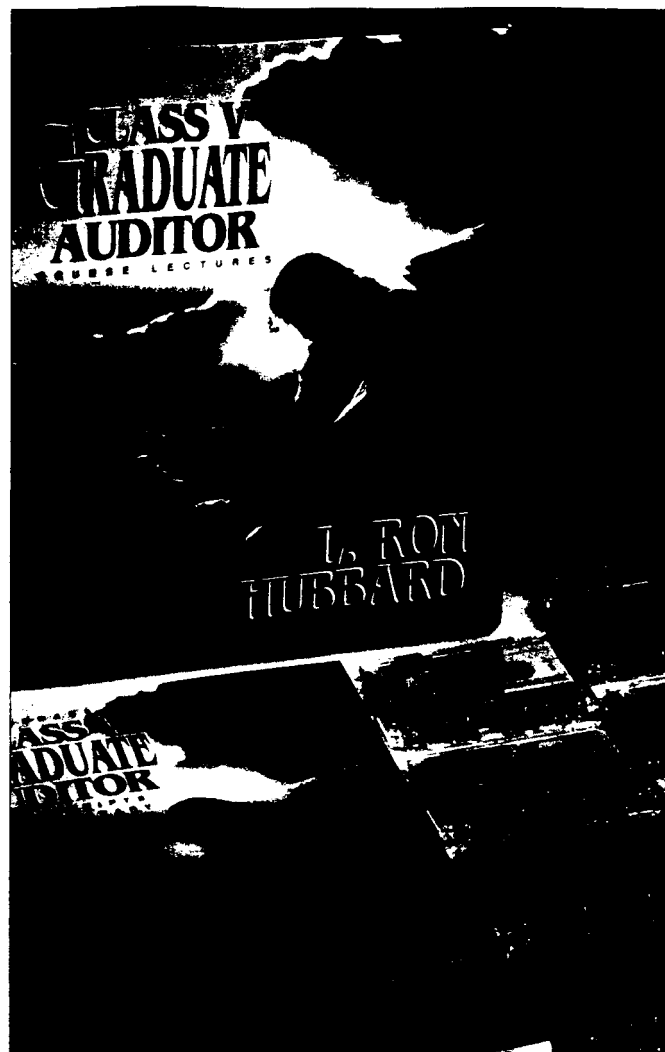

Ron fully explains what a failed case is and covers all sorts of failed cases and their remedies. He also gives the real reason for a totally failed case, what the handling is and how you do it.

Styles of Auditing

Different styles of auditing have been developed. Ron explains each style, what it is for and how it came about. He gives examples of how different situations and pc's require different auditing styles.

Classification Chart and Auditing

Ron goes over the Grade Chart and gives an explanation of each level on it. He also talks about Standard Tech and its relationship to auditing and points out that the things you cannot audit in the presence of, without handling, are the grades on the Grade Chart.

"And you'll find out, if you pay attention to this and learn how to handle these as a set of tools, that auditing—application of—becomes very, very simple indeed."

"...why, there isn't a pc in the world ever gets away with a thing as far as you're concerned. You've got it all taped, all nailed. Sessions just go bzzzoom! onward and upward, because you're not auditing a pc who is having a bad time, you're auditing a pc who is doing all right."

The Saint Hill Special Briefing Course Lectures

*Gain a full understanding
of man & life*

On March 24, 1961, Ron invited the top auditors from around the world to his home at Saint Hill to be briefed on the latest advancements in the technology and to perfect their auditing skills.

This was the beginning of the famous *SAINT HILL Special Briefing Course* – which was to become the most comprehensive training course on the philosophic and technical materials of DIANETICS and SCIENTOLOGY.

It was a time of tremendous research and discovery. Over the next five and a half years, Ron regularly lectured to the students at SAINT HILL about his latest breakthroughs. The *SAINT HILL Special Briefing Course* in fact, ran parallel to his research.

These became known as the *SAINT HILL Special Briefing Course Lectures* and form the core of the Briefing Course itself.

In HCOB *Tape Coverage of New Technology*, Ron wrote:

"Hardly any HCO Bulletins mirror this period. It is all on tapes. This has been a fantastic and dramatic period in the history and development of Scientology and I'm proud that it came off."

For many years, more than 160 of these tape lectures had been falsely deleted or labeled confidential and were omitted from the course. These are now all restored to the *SAINT HILL Special Briefing Course*.

For the first time, 437 SHSBC[®] lectures and TV auditing demonstrations are included in the exact chronological order as Ron originally gave them. The lectures start on Level D of the *SAINT HILL Special Briefing Course* and go through to Level L.

Now all lectures have complete transcripts and glossaries including *all* the hard-to-find words and phrases!

The *SAINT HILL Special Briefing Course Lectures* are now reproduced in stereo in CLEAR SOUND[™] state-of-the-art sound technology. Listening to these lectures is like being on the original *SAINT HILL Special Briefing Course* with Ron lecturing to you! You GET every word Ron says.

For the first time ever, all of these tapes are available to anyone. Even if not enrolled on the course, you can own these lectures and gain a full understanding of man and life.

Follow Ron's path of discovery and breakthroughs as he gave the lectures. Attain knowledge and wisdom of life far above that available with any university education. What you will be listening to cannot be gained from any other lecture series in SCIENTOLOGY or from any other place in this universe.

The Saint Hill Special Briefing Course Lectures Level D

7 May 1961 to 12 June 1961

The major event of 1961 was the inauguration of the *SAINT HILL Special Briefing Course*. On May 7 that year Ron gave the first of the famous *SAINT HILL Special Briefing Course* Lectures. These lectures were to be a step-by-step record of Ron's breakthroughs, each one a milestone in man's understanding of man. The first SHSBC Lectures start on Level D of the *SAINT HILL Special Briefing Course*.

In these twelve lectures Ron extensively covers the basics needed to become a competent auditor. He talks about the E-METER™ pastoral counselling device, what it measures and how it is used in auditing and assessing. He also discusses the purpose of auditing and its importance to society and the world.

In one lecture Ron talks about the game in SCIENTOLOGY: quality, ensuring people get cleared and straightening up the human race. In another lecture he explains what the rise of the E-METER needle means, gross auditing errors, professionalism, perfection of TRs and results in relation to anxiety.

Here are the solid foundations to build any auditor into an expert with a firm grasp of

the tech that he can apply right away in session and in life.

Learn about what happens to an individual who has flowed in one direction for too long. In this lecture, Ron gives a detailed description of where ridges come from and how they are handled – within seconds!

The technology of Sec Checking is the subject of a brilliant lecture wherein Ron goes over the vital do's and don'ts of Sec Checking and what to do when the pc ceases to rapidly advance in auditing.

In one very memorable and educational lecture, Ron spends the entire time clearing up questions from the audience on Sec Checking, Prehav Scale, needle reads, goals, communication, vias, inverted comm, havingness and confront. Valuable data for any SCIENTOLOGIST, it greatly increases reality on the mind and life.

Expertise in recognizing E-METER needle reactions, is the concern of every auditor. During one lecture, Ron imparts the standard technology of the recognition and differentiation of a variety of E-METER reads and needle reactions, time elements and getting past big withholds.

The following SHSBC Lectures are on Level D:

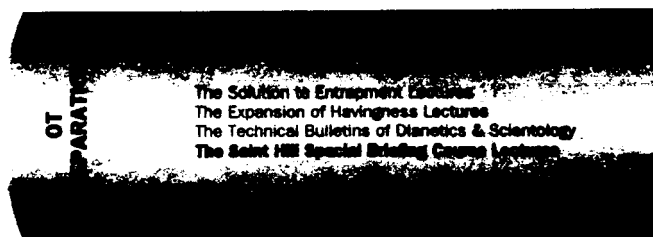

- 1 E-Meter Talk and Demo
- 2 Assessment
- 3 E-Meter
- 4 On Auditing

"You couldn't possibly kill a thetan. You could degrade him, submerge him, make him unable and do various things like this, or he could do these things to himself. But he couldn't possibly not survive."

L. Ron Hubbard
from the lecture "Reading E-Meter Reactions"

The Saint Hill Special Briefing Course Lectures Level E

13 June 1961 to 28 Sept. 1961

Discover mysteries not even the most learned men nor sages of the past could answer. In these four binders of SHSBC lectures you will learn more about life and its different aspects than all the "wisdom" this planet has offered man since time immemorial.

Why is an unknown substituted for a known? How do you run a process to cure an alcoholic? What does confront have to do with going Clear? What are the levels of not-knowing, from sane, insane to death? What ages a person?

In these lectures, Ron gives fascinating examples that apply to life and livingness, he discusses how the mind is put together, and talks about confront, Clear and TRs.

In one tape Ron tells of a cognition he had while auditing someone, and why it is vital to impart this knowledge to others so they can duplicate it, and he gives a process to handle an inability to grant beingness.

Ron talks about valences, and why a person will take on the track of the person whose valence he has.

He tells how people get upset over new ideas, and talks of Socrates, Harvey, Einstein and Freud. He covers the way things are set up to prevent new ideas, the effects of this and how you can handle it.

The Level E lectures of the Briefing Course contain a wealth of data you can use, not only in session, but in life.

The following SHSBC lectures are on Level E:

"If you want to not comprehend something, by all means don't look at it. But another condition applies: that a tremendous amount of pretended knowingness and pretended understanding can arise after one has not observed."

L. Ron Hubbard

The Saint Hill Special Briefing Course Lectures Level F

3 Oct 1961 to 21 Dec 1961

These lectures cover an exciting period of history-making developments and breakthroughs. Each lecture of this level is literally packed with data and knowledge you can use to get a perspective of life and the tech previously unobtainable in this universe.

Here Ron undercuts the riddles involved in the application of Clearing technology.

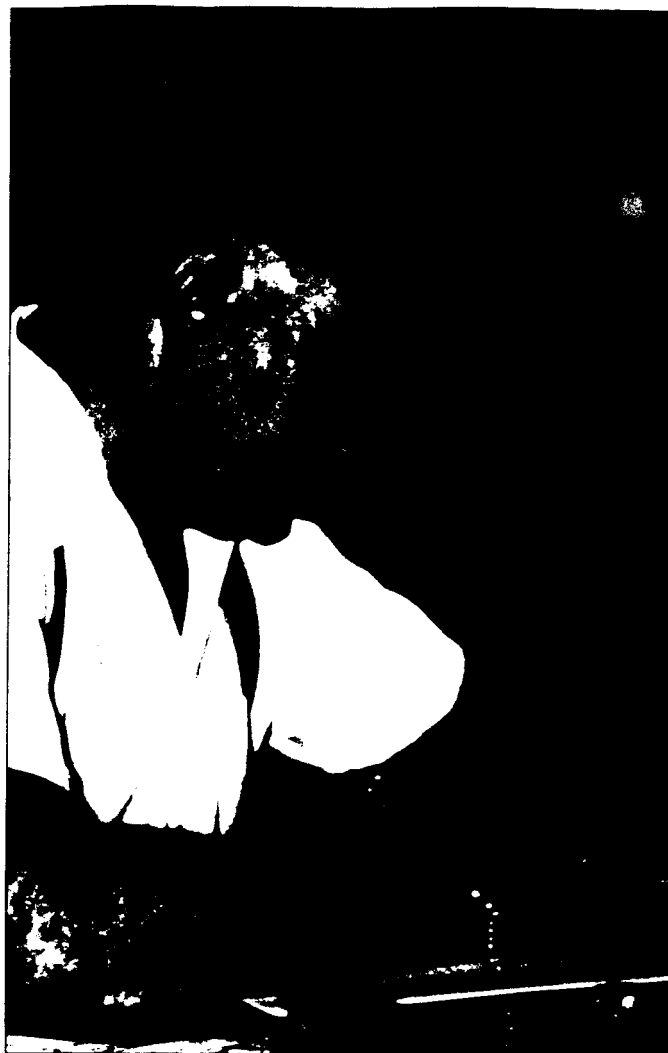

He addresses the area of problems itself. There are two major breakthroughs on this subject every auditor needs to know about: the principle of the prior confusion and the Problems Intensive.

Concurrent with the release of HCO™ Bulletin 5th of October 1961, *Clean Hands Make a Happy Life*, Ron continued to train auditors on the basic skills of security checking, giving several lectures on the technology behind the handling of overts and withholds and their relationship to failed communication and knowingness. He also covers: what it takes to speed up clearing; running clearing techniques themselves; and setting the pc up for them.

Further, he describes the auditor's tool of the trade, the E-METER, giving extensive data on its operation and key points in its use. The one frailty of the E-METER is introduced — the auditor who has no command value over the pc. These lectures are an integral part of the command of life you will only attain on the SHSBC. These tapes alone contain more truth and wisdom than can ever be summated from all the wise men that have ever existed. LRH has the answers you need. Get the SHSBC Level F Lectures!

"...nearly everybody has wound up at this stage of the track with the belief that you have to kill the body before you can get out of it. And people will just work like mad trying to kill a body so they can get out of it. And, of course, it has nothing to do with it — it is a via.

"If you didn't have that many overts against — on the body, you would float out of it anyway."

The Saint Hill Special Briefing Course Lectures Level G

9 Jan. 1962 to 21 June 1962

In these lectures you can find out from Ron how and why auditing works, why gross auditing errors come about and how an auditor handles them to get increased gains in the preclear. He covers clearing and the newest developments in goals technology, along with further data on auditing basics, the Auditor's Code and Model Session. Listen to tape recordings of Ron's "TV Demo" sessions that he personally delivered.

How can you control and direct a pc's attention and what happens if you don't?

Is there really such a thing as a bad auditor?

What happens to your pc if you insinuate that he has a permanent out-rudiment? What happens to your scientist that keeps reducing all MEST to ashes?

All the answers are in these lectures.

Ron talks about cycles of lives, the reactive mind, alter-ism of basic purpose and much more.

"You realize all fortune telling is basically based on making the person agree to a postulate... So the next time the ancient witch gazes into her boiling cauldron and says, 'I see you meeting with a dark-haired young man' You say, 'I don't like dark-haired young men."

"Make it a blond.' Or she says a blond, say, 'I don't like blondes. I like dark-haired young men.' Get her to change it around until you get an acceptable future!"

The Saint Hill Special Briefing Course Lectures Level H

26 June 1962 to 25 Oct. 1962

In the Level H lectures, Ron thoroughly grooves students in on the E-METER: what it reads on, what it can be used for and training on it. He stresses the principle that mastery of basics equals improved auditing skill and thus faster clearing, and demands that students perfect the basics of auditing. Ron describes the basic rules of listing as well as obnosis of the pc and announces the HUBBARD® Mark V E-METER!

In one tape Ron goes over auditability and how you prepare someone for auditing – even someone in a coma, with holes drilled in their head, together with a migraine headache!

He tells how surprising it can be *who* will go into session and *who* can be audited and gives an example – some police once came down with a crash on a center in Detroit and seized some tapes, fourteen of them listened to LRH lectures and then twelve of them resigned from the force!

In another lecture Ron discusses geriatrics and how SCIENTOLOGY has solved this riddle and tells how SCIENTOLOGY is the first practice in this universe where sentient beings are capable of bettering themselves without worsening somebody else. "This person was dying at the idea, you know, of planning something out for 5,000 years. Well, hell, I've seen a billion years planned out on the track, down to the smallest detail. It gets to be fantastic, you know. I mean how much – how much time is time. And it has a great deal to do with the amount

of recognition a person can experience per unit of time.

"So anyway, here is your source of aberration. Your basic source of aberration is time."

The Saint Hill Special Briefing Course Lectures Level I

30 Oct. 1962 to 15 May 1963

During the time period covered in these lectures Ron continued to brief students on the use of clearing technology. The lectures on this level contain a great deal of data on the E-METER, preclear indicators, rudiments, havingness, assists and much more. How can you handle someone unconscious or in a coma? What are implants and how do you handle them? In one lecture Ron talks about different types of implants such as "vestibule implants" and how to run them.

In these tapes you can listen to actual student auditor sessions Ron supervised over an audio hook-up. Get data on security checking, prepchecking, what a SCIENTOLOGIST is, and why becoming an excellent auditor is vital to achieving Clear and OT.

The Saint Hill Special Briefing Course Lectures Level J

16 May 1963 to 10 Dec. 1963

During this period, Ron embarked on what he called "the most intense period of research I've yet done." He wrapped up the technology to OT and developed new basic technology to form a bridge from the man in the street all the way to OT.

In the first lecture of this level, *The Time Track*, Ron gives dates of implants, and discusses how auditing makes the time track available to run. He covers the fact that nothing is in the mind but thought, and a thetan thinks by looking at pictures. In a later lecture he talks about Helatrobus Implants and exactly what they are. In *State of OT*, Ron talks about Earth and its place in this universe, and discusses how OTs handle MEST. This is a highly informative talk about the state of OT.

The Free Being reveals why OTs work best together and how to achieve a long-term win as an OT. Ron also describes the vital balance between force and intelligence in maintaining OT abilities.

"We have to continue to take our responsibility for our fellows, we have to go on with that. And we can't continue to exist on an irresponsible line of just forgetting and abandoning everybody and anybody and leave them on the theta pole, so what, you know; this kind of an attitude. Because that kind of an attitude breeds for each one of us entrapment in the long run."

L. Ron Hubbard
from *The Free Being*

During this period, Ron researched service facsimiles and their handling. In *The Service Facsimile*, he tells what lies behind a thetan's compulsion toward rightness and wrongness, and how complete destimulation of a case can be brought about

through the handling of service facs.

"What we are doing, actually, so you won't be in the dark, is we're closing out a very long cycle, of a long, losing cycle - tremendous length - of the OT."

"The Free Being"

The Saint Hill Special Briefing Course Lectures Level K

12 Dec. 1963 to 6 April 1965

This was a landmark period for SCIENTOLOGY advances. During this time, Ron developed Study Technology and completed the final research on the Clearing Course.

These lectures cover many fundamentals of auditing – how a session should run and what it looks like when it isn't going right, so the auditor can accurately spot a good indicator going out and handle before the bad indicator moves in; the relationship of overts and withholds to an individual's responsibility level and his ability to communicate; and additional technology for handling overts and withholds.

In his lecture *Summary of OT Processes*, Ron describes various implants including some that are common and new ones he came across.

In *Campaign to Handle Psychosomatic Ills*, Ron gives the definition of "acute illness" – and it's not what you might think! He looks into healing, and what predisposes or precipitates the illness. He explains misprediction by medicos and other intriguing points about illness.

How do you handle an alcoholic? Ron covers this in *Communication: A Gradient on Duplication*, and talks as well about willingness to duplicate, persistence and the importance of communication in processing.

In *Technology and Hidden Standards*, you'll find out why people assign their aberrations to that which they can't confront.

"And you say 'a world without war' and so forth; we'll have it, very soon. As long as they don't commit one before we make it and that's the rush. And that's why I consider my plate so bigly loaded, is we're operating against a schedule."

The Saint Hill Special Briefing Course Lectures Level L

13 April 1965 to 13 Dec. 1965

This was a time of intense activity, with breakthroughs occurring at an incredible pace, both administratively and technically.

The first *Classification*,

Graduation and Awareness Chart of Levels and Certificates was introduced in 1965. In one of several lectures Ron gave on the Grade Chart, *The Lowest Levels*, Ron describes how a person's awareness, considerations and abilities change as he advances from one level to the next.

These lectures contain a number of Ron's breakthroughs in organizational technology. In *The Five Conditions* Ron describes the conditions formulas, exact steps that can improve the operation and condition of any individual, group or endeavor. In *Organization*, Ron describes fundamentals any group must apply to survive and prosper.

In *About Rhodesia*, a lecture given after he returned from a period of advanced research in the Canary Islands and Rhodesia, Ron briefed students on his experiences and discoveries, including what happens when an OT tries to operate in society alone, without other OTs and an organization.

During this period Ron

made further discoveries into the nature of suppressive persons. In *Suppressives and GAEs* (Gross Auditing Errors), you'll learn about the two crimes in this universe and why suppressive persons are the way they are.

In another lecture covering the subject of DIANETICS, Ron says, "I have never seen anything really more interesting in the realm of human endeavor and activities than Dianetic auditing. It is the champion of all time: a tremendous amount of fun." from LRH lecture 433

Dianetic Auditing

Ron defines the human mind and its handling. He tells how an auditor addresses the reality of the pc, pictures, the thetan's accuracy on the time track, how to handle the bank and valences. He speaks about the phenomenon encountered when erasing engrams.

With DIANETICS auditing, one learns the fundamental truths about the mind and its composition.

In another lecture, Ron describes the exact things that can prevent an auditor from achieving success and the symptoms by which he can recognize these and handle them effectively.

Ron covers effective dissemination and the role of the

SCIENTOLOGIST in society.

Concluding the *SAINT HILL Special Briefing Course Lectures*, Ron gave three lectures covering in depth basic

SCIENTOLOGY definitions, including thorough and fascinating definitions of Clear and OT and their differences.

The Route to OT Lectures

LRH's Legacy of OT

Thus there is a gradient scale of OT. It's not an absolute. One is as OT as he can CAUSE things."
L. Ron Hubbard
HCO PL OT Orgs

Operating Thetan – the dream of the ages. L. Ron Hubbard has made the attainment of this dream a reality.

The Route to OT Lectures are the most incredible (and *only*) collection of knowledge on the abilities and potentials of an OT that has ever existed.

No matter where you currently are on the Grade Chart, OT or not, these materials will reveal the innermost secrets and details about the state of OT and the abilities of a thetan – *your* abilities. This knowledge will put you more at CAUSE and as a result, more able to operate as an OT.

The first such series ever released broadly to the public was the Philadelphia Doctorate Course, which you will find at the beginning of this brochure, on page 6.

As you look over the series of lectures on the following pages, you will notice each one has a location on the Grade Chart, some below the level of Clear, some above. But, you do not need to be Clear or OT to understand and apply the data in these more advanced lectures: quite the reverse is true: you need to understand and apply the data in these lectures to *be* OT. The more you study and apply the data, the more OT you become. These early tape series contain the most complete description of OT ever given by Ron. In HCOB *Scientology: Current State of the Subject and Materials*, he said: "The subject of Scientology is to some degree developed in reverse

order. The task was to undercut the current level of man and this was the general target. Therefore one finds the higher levels publicly spoken of most frequently in the earlier books and tapes."

Throughout his over half-a-century of research into the subject of OT, Ron delivered thousands of lectures – sometimes as many as four per day.

The lectures themselves are fascinating, astounding and exciting. But more importantly, they contain priceless data that you can use right now to increase

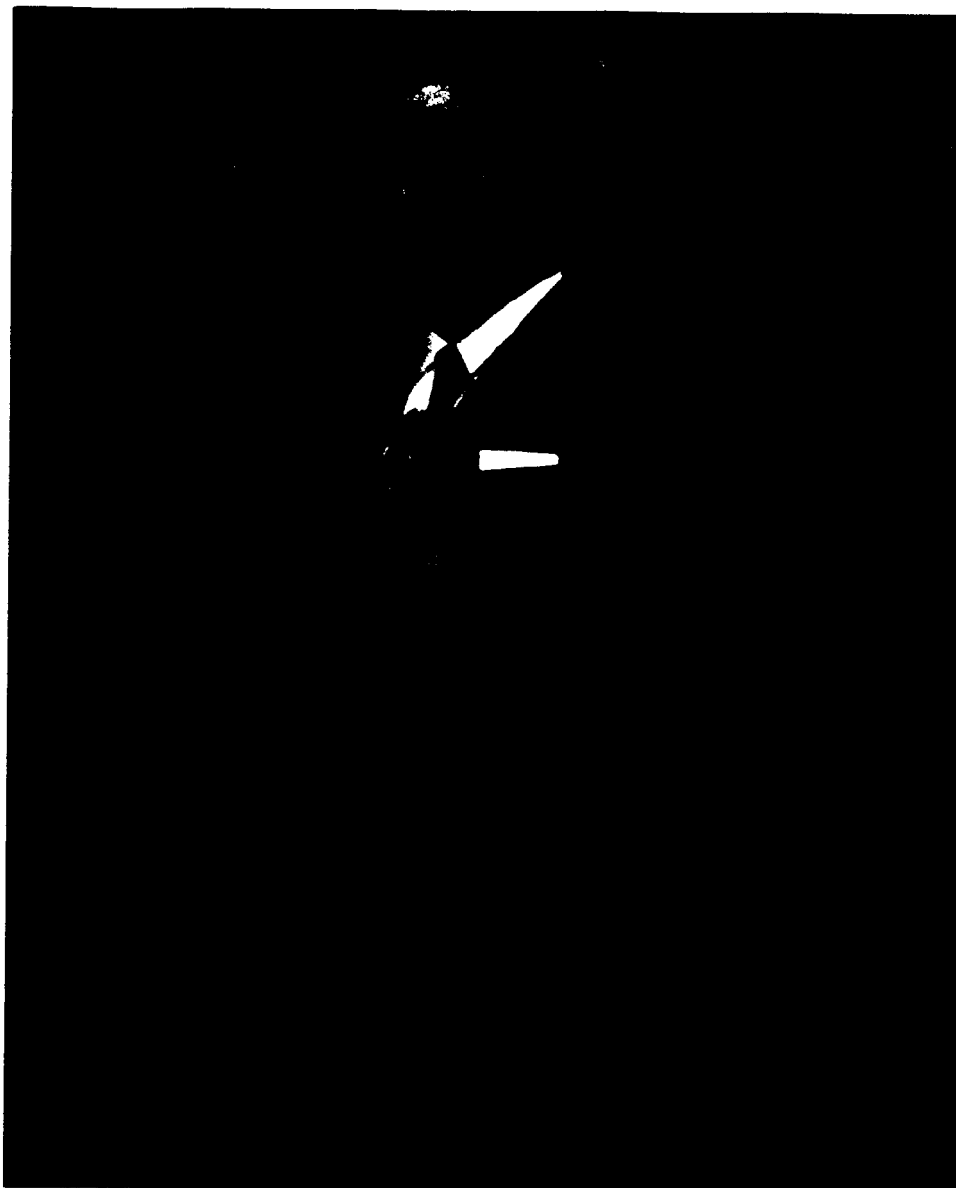

your inherent OT power.

In these lectures, Ron identifies exact cause, exact source, and the exact phenomenon a spiritual being must deal with in order to *become more causative in life* and make things go right in this universe.

This universe has had OTs, but it has never had beings who were hatted on exactly how to operate as an OT. That's a big difference. An educated thetan knows the traps and pitfalls of existence and is fully at cause over them. These lectures pro-

vide a complete education in beingness for any thetan who wants to become more OT – and get out of the whole track rut he's been treading in since the beginning of time.

Such OT hating is vital. It blasts through ages of earlier false data and wrong why's. It is an education in truth – the truth you need to operate as an OT right now – and for eternity.

The Anatomy of Cause

16th Advanced Clinical Course Lectures

The key to a strong and certain control of life is an understanding of the complexities that can trap a being – and how to be free of them. In *The Anatomy of Cause* lectures you will learn the simple basics of being cause – basics you can immediately put to use to confidently direct your own life and future.

History of the Series

During 1956, Ron maintained an intensive schedule of research, writing and lecturing. He wrote the books *Scientology: The Fundamentals of Thought*, *The Problems of Work* and delivered eight major lecture series, courses and congresses on both sides of the Atlantic. During the brief period between the conclusion of the 15th *American Advanced Clinical Course* in November, 1956 and the beginning of *The Anatomy of Cause* lecture series, Ron made momentous discoveries in the area of havingness, reaffirming his earlier findings on the subject and moving forward to codify the Havingness Scale in full. In these lectures he details his discoveries to students in Washington, DC at the 16th *American Advanced Clinical Course*, beginning on January 2, 1957.

State of Man Congress Lectures

How to clear away whole-track debris to uncover and restore a being's most creative abilities

Previously, these lectures were only available to Sea Org auditors training to audit the L10.

Rundown on the FLAG: Class X Auditor course. This series covers the subject of overts and withholds on the whole track, as they relate to the Dynamic Principle of Existence in SCIENTOLOGY: CREATE! Ron explains how and why a being loses his most creative abilities and how these abilities can be restored.

History of the Series

This series of nine lectures was given by Ron at the Shoreham Hotel in Washington, DC from New Year's Day 1960, to the 3rd of January 1960.

As 1959 drew to a close, the world situation was precarious. The relationship between the United States and the USSR was tense, the potential outbreak of war a constant, if veiled, threat.

In December 1959, Ron traveled to Washington, DC, to deliver the *State of Man Congress Lectures*. This series of lectures included his latest technical developments in SCIENTOLOGY auditing procedures and the subject of responsibility, data on how to create a successful marriage, how different types of governments function and the application of SCIENTOLOGY to society.

Subjects Covered

- Responsibility
- Overts and Withholds
- Dynamic Principle of Existence in SCIENTOLOGY
- Past Life Creativeness

The Lectures

Opening Lecture

In his opening lecture, Ron unveils a major breakthrough: the discovery of how to clear people on the second, third, fourth, fifth, sixth, seventh and eighth dynamics.

Responsibility

Ron introduces the subject of overts and withholds and explains how true recovery of one's being-

ness goes along with one's realization that he has been the cause of any difficulty he has ever had.

Overts and Withholds

Ron covers the goodness of man, why moral codes don't work and how the loss of abilities and memory relates to overts and withholds.

Why People Don't Like You

In this lecture, Ron gives the true data on why people don't like you.

Marriage

This lecture covers what a marriage really is, what laws it operates by, how to repair a marriage on the rocks, how to take a normal marriage and boost it into a far higher level of ARC.

Group Auditing Session

Ron delivers group processing designed to take some of the kick out of the dynamite of one's overts and withholds. He also explains how the greatest overt act is making others guilty of overt acts.

Zones of Control and Responsibility of Governments

Here, Ron utilizes the example of the various governments of earth to illustrate the effect of overts and withholds on one's ability to reach and control areas of life. He tells how you can get control of any area you are protesting.

Create and Confront

In this lecture, Ron explains the factors involved in the recovery of creativity from past lives. He tells how a creative person unknowingly competes with his own past identities and in the end loses his finest abilities.

Your Case

In this, the final lecture of the series, Ron covers why a person can get the same sickness over and over, the anatomy of being a victim and how to be cause.

"What you're looking for when you try to solve a case is the points of greatest creativeness which haven't been confronted, because that lifetime will be in total restimulation, with total irresponsibility for it."

"The one person you're not willing to be is the person you were."

The Creation of Human Ability

8th Advanced Clinical Course

In the thirty-eight remarkable lectures in this series, Ron outlines the principles and exact processes which make it possible to restore to the individual the power of his own postulates over the mechanics of the physical universe. Here is the theory behind the processes in Ron's brilliant book, *The Creation of Human Ability*, as well as details of their application both in life and in the auditing room.†

History of the Series

These thirty-eight lectures were given by Ron in Phoenix, Arizona, between 4 October and 12 November, 1954, to students of the 8th Advanced Clinical Course. They were recorded in an intimate and informal setting on the premises of the Church of Scientology in Phoenix, Arizona.

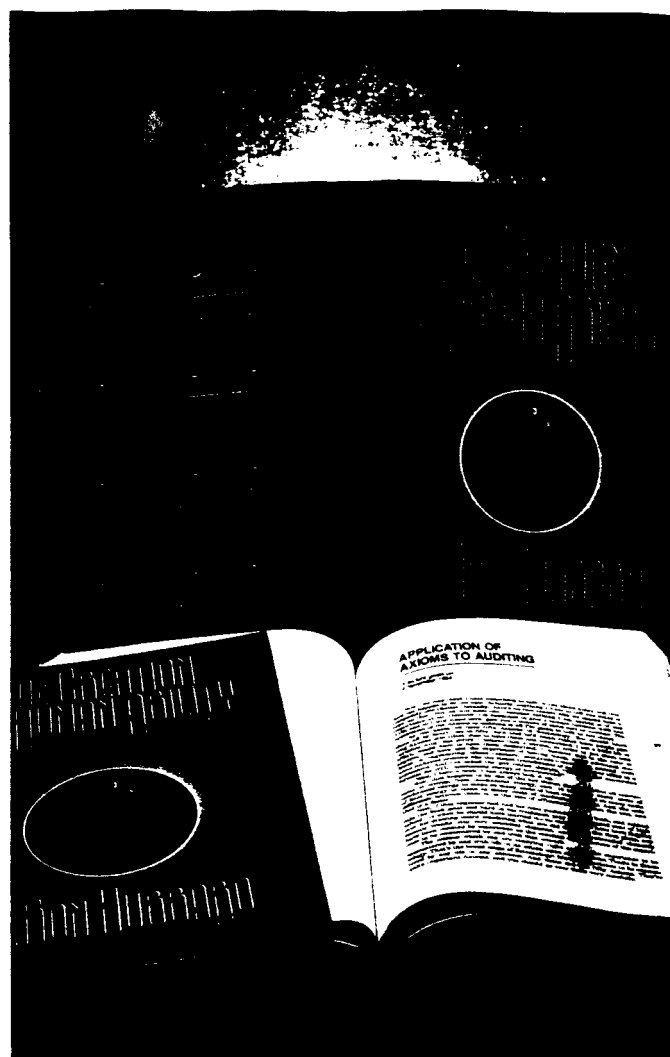

Ron had a very heavy lecture schedule, in addition to the 8th ACC. During that same period, he also gave a series of twelve lectures on Route 1, which are included in this series.

The Ability Congress Lectures

Learn how to rehabilitate and exercise your own ability

L Ron Hubbard presented *The Ability Congress* at the Shoreham Hotel in Washington, DC, from 29 December to 31 December 1957. It was attended by hundreds of Scientologists and according to an article in *Ability* magazine, it was a smash hit.

In this lecture series, Ron covers the Scientist's participation in clearing himself and others. He explains how you see life differently as a Clear, and why. Then, from the eyes of this new world you live in, how you can create a third dynamic that will handle society and raise the IQ of those you deal with, thus providing a bridge to get them on the SCIENTOLOGY route to Clear and OT.

The Lectures

Experience - Randomity and Change of Pace

"But the individual - the individual who is in communication with others of course has tremendous quantities of experience, and gradually his tolerance of experience rises and rises and rises, and eventually he can tolerate almost any kind of an experience." - LRH

The Clear Defined

Ron lays out the difference between a Mest Clear and a Theta Clear.

Clear Procedure

"Everyone is as able as he was billions of years ago, his ability never diminishes, but his willingness diminishes and his knowingness can be monitored." - LRH

Cause and Effect

"The definition of an Operating Thetan is as follows: A thetan who can be willing and knowing cause over life, matter, energy, space and time. Knowing and willing cause. That tells you that an aberrated person is somebody who is

unwilling or unknowing effect of life, matter, energy, space and time." - LRH

Creating a Third Dynamic

Two of the lectures in this series outline a grass roots program for creating a SCIENTOLOGY third dynamic in society: this is the first. This is the program LRH outlines covering Survival Clubs.

Upper Route to Operating Thetan

"An individual who has an absolute certainty, is only all right, if he himself contributed to the certainty, being certain. There has to be some self-determinism in this certainty; in other words, he had to determine its certainty; it can't be another self-determined certainty, totally." - LRH

Responsibility - How to Create a Third Dynamic

"A living thing has to make up its mind that it can be harmed by something before it can be harmed by it. You have to carry with you the seeds of your own destruction before you can be hurt by anything. You have to make up your mind that you can be hurt by an automobile before you can be hurt by an automobile. You have to give your consent to be destroyed, even to get a cut finger." - LRH

The National Academy of American Psychology

Ron delineates an ethical code that such a group would follow.

Creative Processing Steps

"I just peel off the dynamics right on down, no matter what the guise of the question is. And I find those things where the preclear conceives himself to be a total effect on these dynamics... and when I find one of these I clean it up." - LRH

"It's an awful hard job to hold thetans down; they are pretty powerful critters. You have to give them lots of barriers. You have to keep convincing them they are tiny and frail. You have to keep putting your heel on their necks and to do that you have to give them necks, in order to hold them down."

A Series of Lectures on the Whole Track

The unvarnished history of your experiences on the whole track

Each lecture in this series, covers a particular aspect or characteristic of the whole track, "the moment to moment record of a person's existence in this universe in picture and impression form." And here, Ron reveals how a being came to have a time track and how it remains with him as he moves from one life to another.

Ron describes what the whole track is, how it got there, what you need to know about it so as to deal with it and recover the ability, freedom and power that is native to a thetan. He also talks about the cycle of loss of the OT, the fact that the ruin of OTs in the past was not their power but their stupidity.

"You will never be - never be the same as you were; you can't be the same as you were because you are now an experienced you. Oh, yes, you can be as strong as you ever were, but I don't think you could ever be that stupid again." - LRH

History of the Series

This cassette series is unique. It is a selection of lectures Ron gave from two different series of lectures: the 1st Melbourne ACC of 1959, and the Saint Hill Special Briefing Course.

Subjects Covered

- Time track
- Whole track
- Implant GPM
- Running engrams
- Track Map

The Lectures

The Whole Track

Ron tells us why he started to research the whole track and goes into the inherent dangers of researching into the mind. He speaks of taking full responsibility for this universe and about catching the guys who messed it up.

Principal Incidents on the Track

In this lecture, Ron delves into "Frontier Areas", the 4th and 5th Invader Forces, the Martian Command, Egypt and the Brotherhood of the Snake, magicians and the Magic Track, Atlantis and many other early civilizations and black areas of the track.

The Free Being

Ron covers the subjects of civilizations and the state of OT. He describes how force versus intelligence relates to civilizations, battles and wars. He discusses Darwin's theory of evolution, the age of Earth, teleportation and the Galactic Federation - as well as whole track overts and sec checking.

Auditing Comm Cycles

In this lecture, Ron describes the Marcabian civilization in detail. He also talks about auditing and force, and the effect of force on a thetan and a thetan's awareness. Ron also relates a story about being in a space mishap and what occurred with him as a being when a space ship he was travelling on blew up around him.

The Time Track

Here, Ron discusses the composition of the time track, and the time track's relationship to sanity. He also explains exteriorization and how a thetan reacts to it, and describes dying and picking up a new body.

The State of OT

On this tape, Ron reveals the state of planets and civilizations prior to the Helatrobus implant. He also explains what several other planets are like in relation to Earth. Ron discloses the origins of the physical universe, the Milky Way, various life forms, and body types.

"This planet was part of an earlier federation and passed out of its control due to losses in war and other such things. Now, this larger confederacy - this isn't its right name, but we have often called it and referred to it in the past as the Marcab Confederacy. And it has been wrongly or rightly pointed to as one of the tail stars of the Big Dipper, which is the capital planet of which this planet is."

The Time Track of Theta

Summary of Course Lectures

Where do we come from? How did we become human? How did we arrive on earth? In this series of lectures Ron documents his discoveries about the whole track and the often savage history of the theta line, leading to earth and the race known today as "man."

As Ron points out in these lectures, the more knowledge you have of your time track, the more you can be cause over it. Knowledge of the data in these lectures is necessary for a full understanding of your case and past.

History of the Series

Ron delivered these lectures in early March 1952, just a few months after his publication of the books, *Advanced Procedure and Axioms* and *Handbook for Preclears*, and only a month after his founding of the Hubbard College in Wichita, Kansas. These lectures were delivered to students of the Hubbard College Professional Course.

Detailing results of his extensive research into the whole track and the history of the theta line, the four talks in this series present of the nature of theta, the history of the human race, and types of incidents one encounters as he advances up the Bridge to OT.

Subjects Covered

- Theta lines
- The genetic line
- Main body of theta
- Theta body
- The nature of knowledge and data
- History of human race on Earth

The Lectures

History of the Theta Line

Ron describes true knowledge and compares it to agreed-upon knowledge. He tells how Scientology is the route to discovery of the truth. The theta line is defined exactly and its nature and history explored.

Theta Lines

The "main body of theta" is described, as well as the individual thetan's relationship to it. Ron also discusses a being's entry into the physical universe and how the thetan goes downtone as he accumulates more and more mental image pictures.

The Theta and Genetic Lines of Earth

This lecture details how the theta line uses the genetic line to make bodies that continue through time. It also describes the theta body and how a person can be in more than one place at one time.

Principal Incidents of the Theta Line

The race of thetans now inhabiting Earth is discussed, as well as how and why they came to be on this planet. Fascinating descriptions are given of the principal whole track incidents common to thetans on Earth.

"...the theta line to which we are native was actually highly mystic. It was capable of a lot of things: telepathy, teleportation, odds and ends, stuff - and concentrated rather heavily in that." - LRH

"...you sit here on earth today, not as a race of people who go back down an evolutionary track on Earth, but as an evolutionary race, or a race which goes back into the depths of this galaxy."

The Conquest of Chaos

Academy Lecture Series

In this series, Ron shows how Axiom 53, "A stable datum is necessary to the alignment of data," applies to the existence of a thetan in the chaos of the physical universe. Here is "confusion and the stable datum" from an OT viewpoint. He also thoroughly covers the four postulates – not know, know, forget and remember, and gives an in-depth look at Axiom 36: "A lie is a second postulate, statement or condition designed to mask a primary postulate which is permitted to remain."

History of the Series

1955 was a year of chaos. In May of that year, an unbelievably destructive nuclear bomb – more than twice as powerful as the one dropped on Hiroshima – was exploded in the United States as a test. The philosophy of materialism had brought the world to the brink of war. In August, Ron wrote in *Certainty* magazine, "Man has sought to solve his confusion by applying it to the chaos and confusion of force on the level of the material universe. Yet no progress or advancement ever has been made by mankind which did not have as its vanguard an idea."

Later that month, Ron delivered this phenomenal series of six lectures at the Academy of Religious Arts and Sciences in Washington, DC. In these lectures, he revealed powerful principles based on the SCIENTOLOGY Axioms which a being could use to handle the confusion and chaos of the MEST universe and regain the power of his own postulates.

The Lectures

The Auditor's Public

Ron opens the lecture series with a look at the state of planet Earth, mid-20th Century. With biting insight, he shows how materialism has brought the world to the brink

of chaos. And he shows how every SCIENTOLOGIST has the power to be "three feet behind society's head."

Axiom 53: The Axiom of the Stable Datum

In the second lecture, Ron gives an OT look at the control of chaos, based on Axiom 53. He reveals two basic stable data on which the human race operates, and shows how these have the power to drive men into the depths of insanity or the heights of freedom.

Rugged Individualism

Ron talks about the trap that drives individuals and societies toward stupidity, defeat and disaster. He shows why modern science, studying only matter, is becoming stupider not smarter. And he reveals the real starting point of all knowledge.

Union Station – R2-46

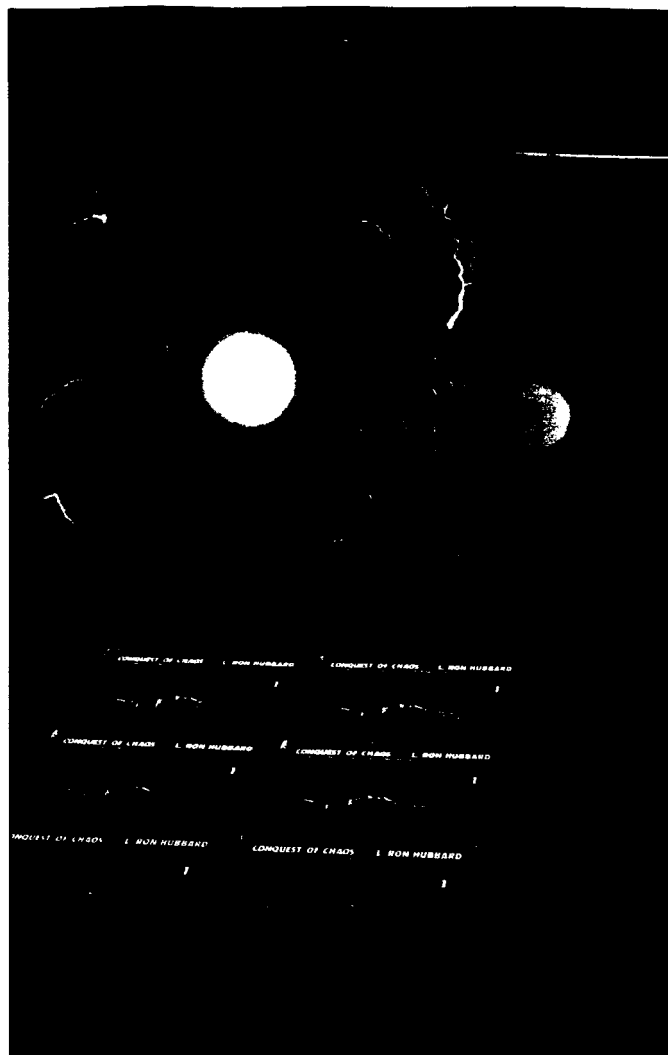

Ron describes Union Station (process R2-46 from *Creation of Human Ability*) as "first and foremost a process which takes the individual out of obsessed oneness and puts him into the swim again." He shows how individuals on this planet are enslaved and prevented from playing a game, and exactly how this is remedied.

The Unknown Datum – A MEST-Shaking Lecture

In this lecture, Ron reveals the "idiotic secret...that held this universe together." He discusses knowingness and not-knowingness in detail, and how to use these principles to handle the confusion and chaos of the MEST universe.

Postulates 1,2,3,4 in Processing – New Understanding of Axiom 36

In this final lecture, Ron covers the "four postulates": not know, know, forget and remember; and what these have to do with exteriorization, cause and control.

"It is not necessary then to pull up all the stable data or to erase all of the chaos. It is only necessary to put the case into a condition where he does not consider himself to be part and parcel of all the energy in space and that he himself is not energy in space."

The Solution to Entrapment

9th Advanced Clinical Course

These lectures and demonstrations outline the fundamental principles of communication and how a person, by mastering these, can understand the basic mechanism that keeps a being stuck in this universe and learn how to become free of that entrapment.

Ron answers in detail such questions as how a thetan gets trapped and how to undo the traps he has created. He also talks about how a thetan generates power and the anatomy of a game. He discusses the extensive technology of communication and its effects on ability in all aspects of life, giving the precise data every individual needs to understand his full abilities as a spiritual being. And he shows how an individual can rehabilitate those abilities and operate at cause over the agreements and considerations which formed this universe.

Ron describes in detail why a thetan pulls in mass and problems. He describes the mechanics of communication and how communication relates to beingness, space, terminals, scarcities, games and the "universal solvent" in all of it – the thetan.

History of the Series

This series of thirty-five lectures was given by Ron between 6 of December 1954 and 21 January 1955, in Phoenix, Arizona, to the students of the 9th Advanced Clinical Course.

The Route to Infinity

Technique 80 Lectures

What are the capabilities of a theta being? Just how powerful is a being who cannot die, who natively is not even a part of the physical universe? What forces, in the span of the whole track, could be responsible for bringing that vital being down to such a state that he would think he was a body? The answers to these questions and breakthroughs in restoring a thetan's ability to be, are revealed by Ron in the lectures of this series.

History of the Series

In May 1952, having recently moved to Phoenix, Arizona from Wichita, Kansas, Ron began establishing a SCIENTOLOGY community on a plot of land at the edge of the desert. This community would be the center of SCIENTOLOGY activities for many years. He was looking to the future and building the nucleus of what would soon become the HUBBARD ASSOCIATION OF SCIENTOLOGISTS, the first international SCIENTOLOGY organization. In early May, Ron invited auditors to Phoenix for a special course on the first of a pair of techniques which were in the final stages of research and codification. In the seven lectures in this series, Ron taught these auditors the theory and practice of Technique 80: a highly advanced procedure for freeing a being from his time track.

Subjects Covered

- Technique 80 procedure
- Use of ARC to expand one's beingness and be each of the dynamics
- Indecision and "maybes," including the most fundamental of all maybes: "to be or not to be"
- Decision, its relation to sanity, cause and effect, and how to raise oneself on the Tone

Scale by exercising one's native power of decision

- Motion, counter-effort and how to use counter-efforts to one's own advantage
- Illusion and the causative creation of one's own future

The Lectures

Beingness

Ron begins this series with the introduction of the gradient scale of beingness and the establishment of the thetan as an individual and reveals what happens to him and his position on the Tone Scale when he makes a decision to "be".

Outline of Technique 80

In this lecture, Ron talks about the rehabilitation of affinity, reality and communication. How does a being use different wave lengths to get others to experience emotions?

Wavelengths of ARC

Ron describes the difference between past, present and future and how a thetan actually creates facsimiles to mock up MEST and keeps it there.

Decision

In this powerful lecture, Ron explains how decision relates to the resolution of sanity.

Decision: Cause and Effect

Ron discusses the "body" as effect. Learn how a thetan travels the route from zero to infinity.

Therapy Section of Technique 80: Part I

Ron shows the actual mechanics of running Technique 80: what an overt act against MEST is and how a being becomes "careful" in this universe.

Therapy Section of Technique 80: Part II

In the last lecture of the series, Ron tells how a "thought body" became susceptible to implantation on the track.

"You, your beingness, is so tremendous, actually, that the force and power of this small 'you' can actually burn down mountains. If it couldn't, why do they go to so much trouble to fix you so you can't? 'Put the ball and chain on him quick, because in the center of his beingness, he is. And don't let him ever find it out, because then he will be.'"

The Perception of Truth

Logics and the Axioms Lectures

These four lectures by L. Ron Hubbard introduce the forms of thought behavior used in the creation of the MEST universe.

The falsehoods and deceptions of the MEST universe can block awareness and dim your viewpoint of life. In this series of lectures on the Logics – methods of thinking applicable to any universe – Ron gives you knowledge to break through complexities to a clear and brilliant perception of TRUTH.

These lectures will change forever the way you view the subjects of thought, knowledge and consequently life.

History of the Series

Ron arrived in England in September of 1952 – intent on establishing a firm base for SCIENTOLOGY there and setting up a major central headquarters from which it could be run. He planned to train up scores of new SCIENTOLOGY auditors and to introduce all of the tremendous technical advancements he had recently made in the subject.

Within a month of his arrival in Great Britain, SCIENTOLOGY was booming. During that short space of time, the headquarters of the HUBBARD Association of SCIENTOLOGISTS (HAS) was firmly established at 163 Holland Park Avenue in London. Twenty-six of twenty-eight persons were processed to completion of Theta Clearing with Ron's new techniques and eighteen professional auditors were trained, with many others still in training.

Against such a background, Ron delivered these talks on knowledge and the Logics to those fortunate students in attendance on the 10th and 12th of November 1952.

Subjects Covered

- The Qs
- The Logics
- Gradient scales
- The importance of language and nomenclature
- The value of knowing the basic laws of a subject
- The method of research that led to the discoveries of SCIENTOLOGY

The Lectures

Introduction: The Q List and Beginning of Logics

Ron discusses the Qs in detail, including their potential to evaluate all data in any universe. He also describes the common denominator of all life impulses, the composition of the MEST universe, defines and describes Theta Clear, tells how to change a government and talks about the unpublished work "Excalibur" and the reactions of some of those who read it.

Logics 1-7

The first seven Logics are covered, as well as semantics, disassociation, "bull pen" data and the relationship between sanity and communication ability.

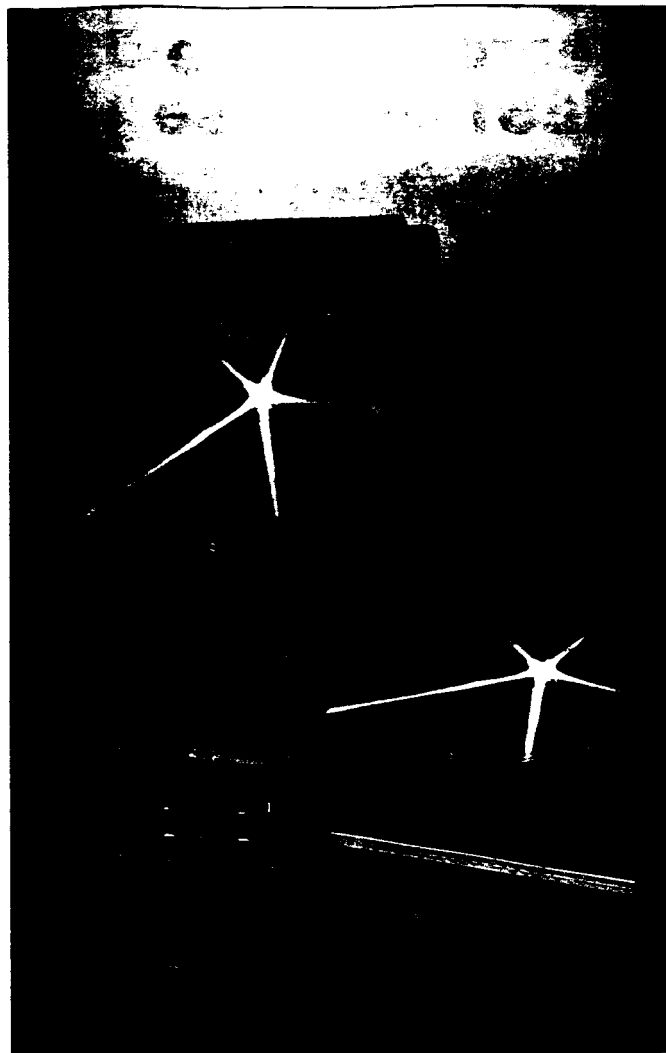

Precision Knowledge: Necessity to Know

Terminology and Law

Ron covers the Tone Scale and people's responses at various points on the scale, the vital importance of knowing the terminology, basic laws of SCIENTOLOGY, the essence of aesthetics and the necessity for speed of progress in processing.

Logics 7-9 and 10-23

Ron discusses the principle of the gradient scale as it relates to truth and accuracy. Evaluation of data is covered, along with the effect of arbitrariness in a subject or area and the analysis of cases by examining a person's knowingness.

"Here you have an educated thetan, a thetan who knows enough to handle the problems of the MEST universe, knows enough about universes to handle his own, and knows enough to protect and handle his own universe when he has one. And knows enough of the track and what happens in the MEST universe so that it can't happen to him again."

Secrets of the MEST Universe

London Lectures

For millennia, man has endeavored to unlock the secrets of the MEST universe. From the stone age to the bronze age to the industrial age and into the computer age, man has probed the corners of this universe in a desperate attempt to unravel his booby-trapped existence. In this series Ron uncovers these riddles and cuts through the seemingly endless complexities and falsehoods, laying bare the MEST universe's most hidden secrets. With startling insight, these lectures deliver an in-depth look at force and how a thetan's perceptions and his willingness to perceive are affected by force. Learn the most basic secrets of the MEST universe – it is the most surprising secret of all.

History of the Series

In 1952, while researching exteriorization, Ron discovered and proved beyond any question the existence of the thetan, that the individual was not a body, but a spiritual being – timeless and deathless. Following this discovery, he embarked upon the development of auditing procedures to free man from his predicament of being pinned down in a "body." Ron also published a series of articles, and the books *Scientology: 8-80* and *Scientology: A History of Man*, exposing barbaric falsehoods such as "man is an animal."

In November of 1952, he flew to London and delivered an astounding series of five lectures. In this series he gives the principles upon which a being can recover control of his existence in the MEST universe and his use of energy and force, and how he can regain his perceptions and know his potentialities.

The Lectures

Methods of Research

The Thetan as an Energy Unit

Ron begins this lecture series with brilliant insight into how a thetan sets up a universe. He elaborates on the path of his research and the data which lead him to the discoveries of a thetan's relationship to the MEST universe. He covers the common denominator of all fears and how delusions and illusions can trap a being.

Force as Homo Sapiens and as a Thetan – Responsibility

In the second lecture, Ron describes poltergeist ability, and the booby-traps of mysticism. He discusses what energy, space and time have to do with force and how a thetan learns to use the correct estimation of effort to accomplish what he wants.

Be, Have and Do, Part I

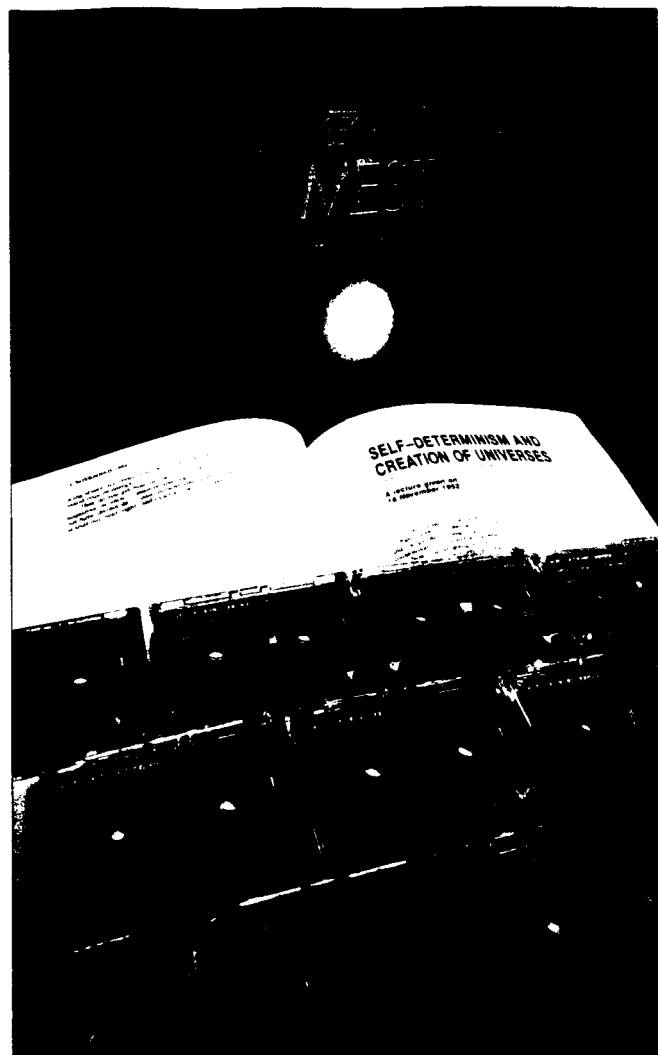

In the next lecture in this series, Ron takes up the anatomy of universes and how it is that things become complex.

Be, Have and Do Part II

In this lecture, Ron delineates the biggest foe of a universe and the moral code of the MEST universe. You will learn how to uncover the reality of the past track and through Ron's use of graphic descriptions.

Self Determinism and Creation of Universes

In the last lecture of this series, Ron covers the Tone Scale in relationship to Be, Do, Have, with enlightening examples. He talks about a whole track incident, known as the "Abyss" and solves the mechanism of how a thetan, "becomes a body." Finally, one learns what connects thetans to the MEST universe and the resolution to this.

"It (the thetan) can locate, invent, change, convert, conserve and upset time and space itself, and then locate matter and energy in it. Oh boy! Sky's the limit. If this confounded thing can do that, it isn't even vaguely limited by the MEST universe – not even vaguely limited by the MEST universe nor by its own universes nor by the concept of universes."

The Power of Simplicity Lectures

15th American Advanced Clinical Course

A thetan in his native state is utterly simple – and powerful. But colliding with the seemingly endless and intricate complexities of living in the MEST universe, a being can find himself unable to hold a position, unable to perceive, unable to duplicate or act as well as he knows he truly can.

In this spectacular series Ron covers in detail the factors of simplicity and complexity, relating them to such SCIENTOLOGY fundamentals as creation, confront, communication, the ARC triangle, the Tone Scale, games, duplication, confusion and the stable datum and the basics of education and learning.

History of the Series

In October 1956, Ron delivered the twenty-six lectures in this series to students attending the 15th American Advanced Clinical Course in Washington, D.C. In the preceding months Ron had kept a very heavy schedule of lecturing, delivering twenty-one lectures – the *Professional Course Lectures* in London, followed by the famous *Games Congress* in Washington, DC and the *London Congress on Human Problems*, finally returning to Washington for the lectures of this series. He had also been busy writing, having completed the books *Scientology: The Fundamentals of Thought* and *The Problems of Work* only months before.

Universes and the War Between Theta and MEST

5th American Advanced Clinical Course

In this series of lectures, Ron covers the whole panorama of universes as a subject in relation to the thetan: the creation, mechanics and components of universes, how they evolve into traps, and how to take a universe apart. These lectures explore all aspects of universes as created and experienced by thetans.

History of the Series

The *Fifth American Advanced Clinical Course* convened in Phoenix, Arizona on Monday, 29 March 1954 and continued through Friday, 7 May 1954.

During this course Ron lectured extensively on the subject of universes. He defined the mechanics of universes and the ongoing struggle between theta and MEST, then described how the thetan can be freed from entrapments and restored to cause.

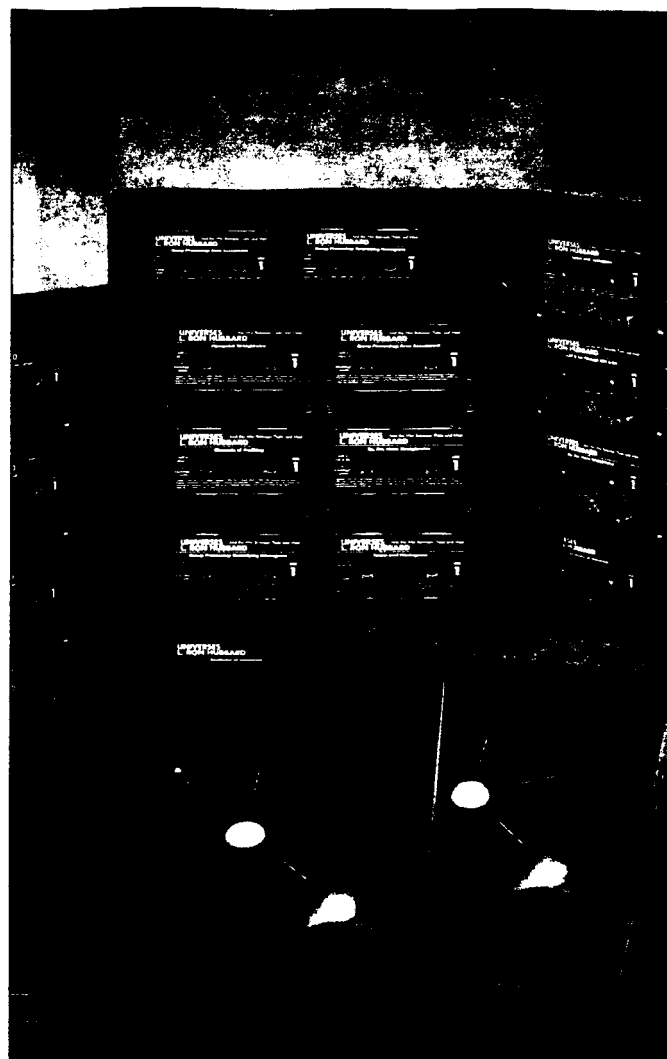

The series is comprised of twenty-six upper level lectures, and seven Group Processing sessions.

Ron's Journals, Videos and Music

GOLDEN ERA PRODUCTIONS also makes available many special LRH audio messages, video productions and music cassettes performed by the Golden Era Musicians.

In the 1950s and '60s, Ron himself gave a number of congresses for SCIENTOLOGISTS. One of these, the *Clearing Congress*, was filmed in color. This is now available on video, as shown on page 67.

Ron later recorded a number of *Ron's Journals* for play to SCIENTOLOGISTS at international events. This is his personal comm line to SCIENTOLOGISTS, and hearing direct from Ron is an unforgettable experience. Four of these are available to you on cassette, page 66.

Ron's inspirational essay *My Philosophy* has for many years been a favorite of SCIENTOLOGISTS. By popular demand, a recording was made of a reading of this classic essay, and a video was also produced, featuring many photographs of Ron's life. These are shown on page 68.

Special Video

Today, GOLDEN ERA PRODUCTIONS produces the international events of SCIENTOLOGY, which are televised all over the world. Special music and video productions are often done for these events and several of these have been made available broadly to SCIENTOLOGISTS: *One Man*, a tribute to Ron, *We are the Auditors* and *We Stand Tall*. See page 68 and 69.

Music

Music is vitally important in dissemination, Ron said, in the

Philadelphia Doctorate Course that "a song can rocket down the ages. It doesn't corrode. It doesn't have to be polished, maintained, oiled, shelved or put in a vault. It happens that a song is far more powerful than any blaster ever invented."

Ron himself wrote many songs about SCIENTOLOGY, and these were released in an album, *The Road to Freedom*, shown on page 71.

In addition, all of the public and technical films produced by GOLDEN ERA PRODUCTIONS have a

musical score by the Golden Era Musicians. These are all available on cassette. The Golden Era Musicians also provide the music for all SCIENTOLOGY events, and three albums of SCIENTOLOGY event music have been released. See page 70.

Ron's Journals

Ron's exclusive comm line directly to you

Over the years, Ron issued many *Ron's Journals* - his personal comm line to staff and public around the world. Often he briefed us on the major events in the world of SCIENTOLOGY. Every *Ron's Journal* is memorable, and an integral part of the legacy of Ron's tech.

While the majority of the *Ron's Journals* were issued in written form only, four were recorded. These *Ron's Journals* have been made available to you on cassette, and are a vital part of every Scientologist's library.

New OT VIII TRUTH REVEALED™

The Lectures

Ron's Journal 67

In this 1967 lecture, Ron reveals the truth about attacks on SCIENTOLOGY, and gives a thorough briefing on the founding and purpose of the Sea Organization. Next Ron gives a full briefing of his breakthroughs into the levels of *Operating Thetan Section III* - the first successful mapping of the route through the Wall of Fire.

This lecture contains some of the most advanced OT material of any non-confidential lecture. Ron talks about the great catastrophe

which happened on this planet millions of years ago, which has since made Earth a desert.

"The mystery of this universe and this particular area of the universe has been, as far as its track is concerned, completely occluded. No one has ever been able to make any breakthrough and come off with it and know what happened."

"Without telling anyone about this or what I intended to do, I went out and took my life in my hands, you might say, and brought the matter off." - LRH

Ron's Journal 36

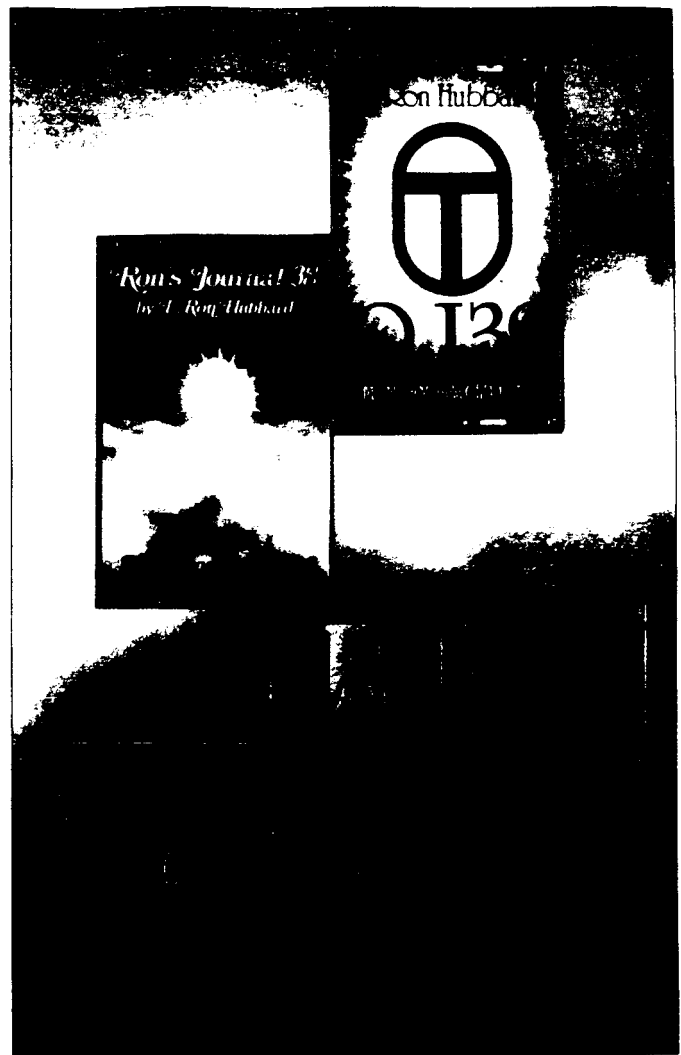

In *Ron's Journal 36*, Ron urges all SCIENTOLOGISTS to take control of their lives by moving up THE BRIDGE. Listen to *Ron's Journal 36* yourself and play it for your friends to get them moving up THE BRIDGE.

Ron's Journal 38

In this hour-long cassette, Ron gives insight into a 1982 victory against the enemies of SCIENTOLOGY. This story illustrates how hard fought and hard won the freedom of the group is.

Ron's Journal 39

In this talk, Ron tells of his research and discoveries in the upper bands of OT, and announces the gift of New OT VIII TRUTH REVEALED. Find out what Ron considered to be his real job, and hear him discuss his adventures into the highest realms of OT research in this unforgettable classic, *Ron's Journal 39*.

"It is you who choose or not to achieve a higher state."

"Standard ethics will keep you and your friends on the straight road."

"Standard policy will give you a powerful organization, expanding and prosperous."

"Standard tech will take you into states of beingness where nothing can strike

you down.

"In this minute particle of time we have the opportunity to reverse the downward spiral of life."

"It is you who will avail yourself of it or not."

The Clearing Congress Videos

See the only LRH lectures ever filmed in color

The Clearing Congress made history on two counts. First, a complete and demonstrable road to freedom was being offered to mankind for the first time. The Clearing Congress Lectures show you exactly what a Clear is and the full technology that makes clearing people possible. Secondly, this is the only LRH lecture series ever filmed in color in its entirety.

History of the Series

The Clearing Congress was held at the Shoreham Hotel in Washington D.C. July 4th, 5th and 6th, 1958. In addition to recording the lectures on tape, the congress was filmed in color.

Shortly before this congress Ron wrote in an ABILITY Magazine the following:

"But how about getting clear and staying clear forever? The auditor alone with data well learned could manage that

"Remember, you were clear once - trillions of years ago. Why didn't you stay that way? Because the traps were well designed and you had no anatomy of traps.

"Well, Scientology does have the anatomy of traps, the Axioms, the discipline and know-how necessary to handle and control the laws of the universe. Scientology is data necessary to live."

These lectures give the full data of the anatomy of the traps and how to get out of them and stay out!

Subjects Covered

In these lectures Ron covers the mechanism of thetans making pictures, responsibility, the dynamics and inverted dynamics, the state of Clear and basic personality.

The Lectures

The Fact of Clearing

In this first lecture, Ron dives right into Clearing and discusses

the "synthetic personality" that a person creates. He explains that people recognize truth when they see it.

The Factors of Clearing

Ron covers in detail the four parts that make up an individual: Thetan, Mind, Body and Universes. He explains how a thetan identifies himself with things and how mental image pictures are created to get experience.

The Freedoms of Clear

This lecture covers the four freedoms of a Clear. He also explains that after a person becomes Clear, his body also starts clearing by itself. He covers "Zone of Influence" and how the environment around a person either gets better or worse by his presence alone.

Prerequisites to Auditing

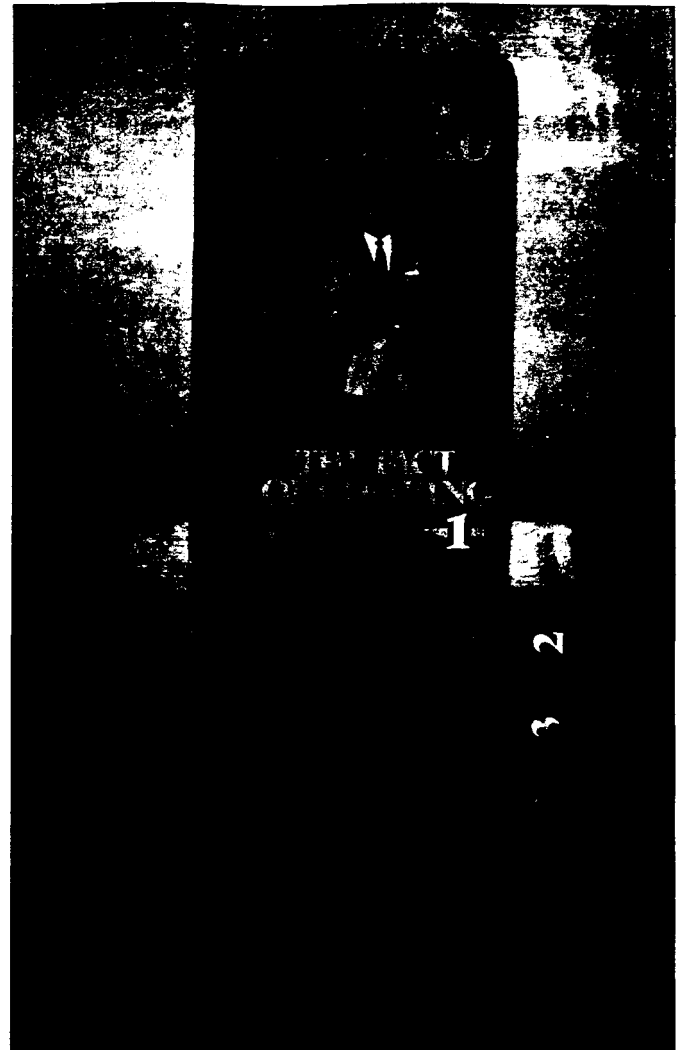

Ron explains how a person gradually gains reality on SCIENTOLOGY, and how a new person studying SCIENTOLOGY should get personal reality on it. He shows that SCIENTOLOGY is the only subject that can undo itself. No matter what happens to a case it can be repaired through SCIENTOLOGY itself.

Clear Procedure (CCH-O, HELP)

In this lecture, Ron covers the Clearing techniques, CCH-O and handling Present Time Problems. He also covers HELP processing and explains the effects of HELP.

Clear Procedure (Creativeness)

This lecture covers the balance of Clear procedure - HELP and STEP 6 processing. Ron gives the definition of Operating Thetan and details how the bank was created and how long it takes to aberrate an individual.

"The funny part of it is, a thetan has already a basic personality, and this is what we are trying to uncover in Scientology in order to make a Clear."

My Philosophy Video and Cassette

Written in the early days of SCIENTOLOGY expansion, Ron's brilliant essay, *My Philosophy* is a continuing source of inspiration for SCIENTOLOGISTS and an excellent way to introduce people both to Ron and some of the basic tenets of the SCIENTOLOGY religion.

Accompanied by a moving musical score and rare photographs of Ron, this is a must for one's own library and a potent dissemination tool.

The cassette includes readings of two additional essays, *The Aims of Scientology* and *A Description of Scientology*.

One Man Video

A moving tribute to the man who had the matchless wisdom, strength and courage to bring mankind the truths and technologies of DIANETICS and SCIENTOLOGY and open the route to total freedom: L. Ron Hubbard. Containing rarely seen photographs and film footage of Ron, this inspirational and aesthetic work was first presented at his birthday celebration in 1992. Performed by the Golden Era Musicians and produced by GOLDEN ERA PRODUCTIONS.

"... as I have never seen wisdom do any good kept to oneself, and as I like to see others happy, and as I find the vast majority of the people can and do understand, I will keep on writing and working and teaching so long as I exist.

"For I know no man who has any monopoly upon the wisdom of this universe. It belongs to those who can use it to help themselves and others.

"If things were a little better known and understood, we would all lead happier lives.

"And there is a way to know them and there is a way to freedom.

"The old must give way to the new, falsehood must become exposed by truth, and truth, though fought, always in the end prevails."

Scientology Music

The Golden Era Musicians are a Sea Org band, originally put together in 1978 by L. Ron Hubbard to create the music for his technical and dissemination films produced at GOLDEN ERA PRODUCTIONS.

Ron wrote much of the music for these films and with his personal attention and hatting, the group began producing music scores that enhance the message and the mood of the films. These film scores are also written to stand alone, providing a music album that anyone can enjoy.

The Golden Era Musicians not only produce music for LRH films, but also for SCIENTOLOGY videos, and provide live performances at international events such as March 13th, Ron's Birthday; May 9th, the Anniversary of DIANETICS and the International Association of SCIENTOLOGISTS events.

Using the Tone Scale, the Communication Formula and other SCIENTOLOGY basics, the Golden Era Musicians deliver Ron's message of hope and freedom in an uptone, upbeat way, reaching audiences from the United States to Europe and as far as Russia and China!

Scientology Expansion Themes Flourish and Prosper (Expansion Themes Vol. I)

Hear the Golden Era Musicians play their own music, written to celebrate SCIENTOLOGY expansion. This first cassette contains: *Dianetics Explodes*, *Hope for Africa*, *Spirit of Canada*, *Calypso New Year*, *Gateway to China*, *Dianetics in Action*, *A New Civilization* and *Auld Lang Syne à la Dixie*.

Winning (Expansion Themes Vol. II)

The second album of SCIENTOLOGY Expansion Themes

contains: *The Rising Sun* (Japan Expansion Theme), *Get the Show on the Road*, *Le Livre Un* (Book One), *Freewinds*, *Maiden Voyage Theme*, *Expansion*, *Psych Buster* and *China Dawn*.

Purpose (Expansion Themes Vol. III)

The third album of SCIENTOLOGY Expansion Themes celebrates the notable accomplishments of SCIENTOLOGY and its organizations across the world: *The Winners*, *Playing the Birthday Game*, *Spirit of the Freewinds*, *Auld Lang Syne à la Funk*, *Success*, *Hamburg Wins*, and *A Tribute to Saint Hill*.

The Standard Tech™ Cassette Deck

*Bringing Source to You
with Total Clarity*

Years ago I found that student comprehension and tape playing quality went hand in hand. I made some experiments with this and I found that on bad quality equipment most of the students went to sleep, but as the quality of the equipment improved, their comprehension also improved. And that students got the best grades on high-quality equipment.

"The better the equipment, the better the comprehension.

"The vast majority of the technology of Dianetics and Scientology is recorded on tape. Use good equipment and use it properly so that you can hear these materials in their utmost clarity."

L. Ron Hubbard
from HCOB "Setting up and
Using a Reel-to-Reel Tape
Player"

The STANDARD TECH Cassette Deck

In keeping with Ron's intention to provide SCIENTOLOGISTS with the highest quality sound reproduction possible, GOLDEN ERA PRODUCTIONS has developed the STANDARD TECH Cassette Deck.

This recording industry standard Nakamichi cassette deck, upgraded by technicians at GOLDEN ERA PRODUCTIONS to Ron's exact specifications, is your assurance of hearing every word with total clarity.

The deck is modified to be totally compatible with Ron's state-of-the-art CLEARSOUND sound technology.

The STANDARD TECH Cassette Deck is the only authorized cassette deck for SCIENTOLOGY classrooms and academies around the world. It includes a unique foot pedal that enables you to stop, rewind or fast-forward whenever you like - leaving your hands free to demonstrate principles, look up

words or take notes.

Now this audio equipment is available to *all* SCIENTOLOGISTS for use in their homes and offices. The system brings you closer to source and speeds your progress up THE BRIDGE by ensuring that you can duplicate and then apply all of Ron's spoken materials.

"The new cassette decks are incredible! I remember the first time I listened to one of LRH's lectures on the STANDARD TECH Cassette Deck. It was like Ron was right there in the room speaking to me. The clarity of the sound was incredible and enabled me to duplicate every word he spoke. I understood afterwards why they call this the STANDARD TECH Cassette Deck as I was able to duplicate and then apply standardly the technology that I had just listened to. It was a big win then and I have since had wins listening to LRH lectures on this deck." W.D.

E-Meter

Counseling devices

*The precision guide
to Clear and OT*

This instrument is not just an aid to Dianetics. It gives Man his first keen look into the heads and hearts of his fellows."

L. Ron Hubbard

from the "Electropsychometric
Auditing Operator's Manual"

The only instrument capable of guiding an auditor in handling the bank of an individual is the E-METER.

Precision metering is vital to an auditing session. No auditor can afford to miss a single read. Immediate identification of reads and E-METER phenomena is so critical that Ron pushed electronic technology to a new level of refinement in order to give auditors every possible advantage in session.

To maintain the exact technical

standards laid down by Ron, every E-METER manufactured on the planet is manufactured at GOLDEN ERA PRODUCTIONS Department of HUBBARD Electrometer Manufacturing (HEM), under the strictest standards of quality control.

The final quality check on each and every E-METER is performed by the HEM Quality Control Officer, using a computer that generates the same read on three E-METER dials simultaneously – the E-METER being tested, a

verified standard E-METER, and an E-METER simulated with computer graphics on a color monitor.

On the following pages, you will learn about the history of the E-METER and see the different E-Meters and accessories that are available from GOLDEN ERA PRODUCTIONS. Read this section and learn about the instrument that will guide you on your way to Clear and OT.

The History of the **E-Meter**

Counseling device

In May 1950, Ron released the book *Dianetics: The Modern Science of Mental Health*. Almost overnight, 750 DIANETICS groups sprang up around the country. The growth and expansion of DIANETICS was astonishing. Banner headlines proclaimed: "DIANETICS TAKING U.S. BY STORM" and "DIANETICS - FASTEST GROWING MOVEMENT IN AMERICA."

While this wave of enthusiasm swept the country, Ron was working out faster and more direct ways to locate and handle areas of charge in the mind.

DIANETICS was already getting results that man had never achieved before. But many auditors in 1950 had trouble deciding what to run in session and they could only judge the progress and success of a process by the pc's indicators.

Ron realized an instrument was needed to help auditors systematically find and clear engrams.

His research led to the development of the Mathison Electropsychometer Model B, which Ron then used to plot the time track, as recorded in the book *Scientology: A History of Man*.

Since then, the E-METER has undergone refinements to keep pace with the advances of SCIENTOLOGY religious philosophy. More than 20 different types of E-Meters over the years have been assembled and tested.

The famous HUBBARD British MARK V E-METER was developed and released by Ron in 1962. After refinement in 1963 it became the standard E-METER, used by auditors the world over. It is still in use today as the meter that can take a person from his very first

auditing all the way to Clear.

Ron continued to pioneer the route to higher states of beingness, making the processes broadly available as soon as they were thoroughly tested and proven. In 1967, he penetrated the Wall of Fire and released OT III - with all of the research auditing for this phenomenal level done using the MARK V E-METER.

In 1978, with the development of NED for OTs, the need for a more sensitive E-METER became evident. Ron found that OTs were not reading properly on the MARK V E-METER.

The route to the upper OT levels could have been blocked by the lack of an OT E-METER. Again Ron had to push forward the limits of electronics technology to devise the HUBBARD Professional MARK VI* - the first OT E-METER.

As Ron continued to make research breakthroughs in the OT band, even the MARK VI E-Meter's range and responsiveness could not always measure up to the demands.

On March 13th 1988, a totally new OT E-METER, designed by Ron, was released and made available to all auditors. The culmination of more than thirty-five years of E-METER development and refinement, the HUBBARD Professional MARK SUPER VII E-METER is today's ultimate in E-METER technology, used from the lowest grade to the highest OT level.

"...the electropsychometer utterly dwarfs the invention of the microscope, for Leeuwenboek found the way only to find bacteria; the electropsychometer provides the way for man to find his freedom and to rise, perhaps, to social and constructive levels of which man has never dreamed, and to avoid perils in that route which man, in going, would have found more deadly than any bacteria ever evolved or invented.

"There may be those who underestimate this achievement; but they also underestimate themselves."

L. Ron Hubbard
from "Electropsychometric
Auditing Operator's Manual"

The Hubbard Mark V E-Meter

*A reliable workhorse
meter that opens
the road to Clear*

You'll need an E-METER* to go up THE BRIDGE to Clear. Originally designed by L. Ron Hubbard, the British MARK V™ E-METER has been recently reproduced following his exact specifications, giving you a totally standard and reliable workhorse for your training and auditing.

Authorized for use on all auditing below Solo levels, you can co-audit from METHOD ONE* word clearing all the way to Clear with this trusty E-METER.

Whether co-auditing with a friend, or clearing your family – the MARK V E-METER allows you to use your skills and get results as an auditor. It's easy to read and use – making it an excellent first meter.

- In use since 1963, the MARK V played a vital role in Ron's research and development of many auditing levels and run-downs

- Faithfully runs for over 100 hours without needing a re-charge!

- Beautiful hand-made mahogany case

- Comes with pc leads, charging adaptor, calibration resistors and owner's manual

- Lightweight, compact, highly portable – the ideal back-up for those who already own an E-METER.

You can count on the MARK V to plow through the reactive mind, locating areas of spiritual distress so you can find charge on your pc's case! Guaranteed reliability and accurate metering will keep you auditing with confidence.

From the Senior C/S International, Commander John Eastment

The HUBBARD MARK V E-METER adds a new option for auditing and co-auditing for all SCIENTOLOGISTS. One can co-audit using this meter up THE BRIDGE from the lower levels all the way to Clear.

"This E-METER is exactly the same as the British MARK V E-METER – which Ron personally developed.

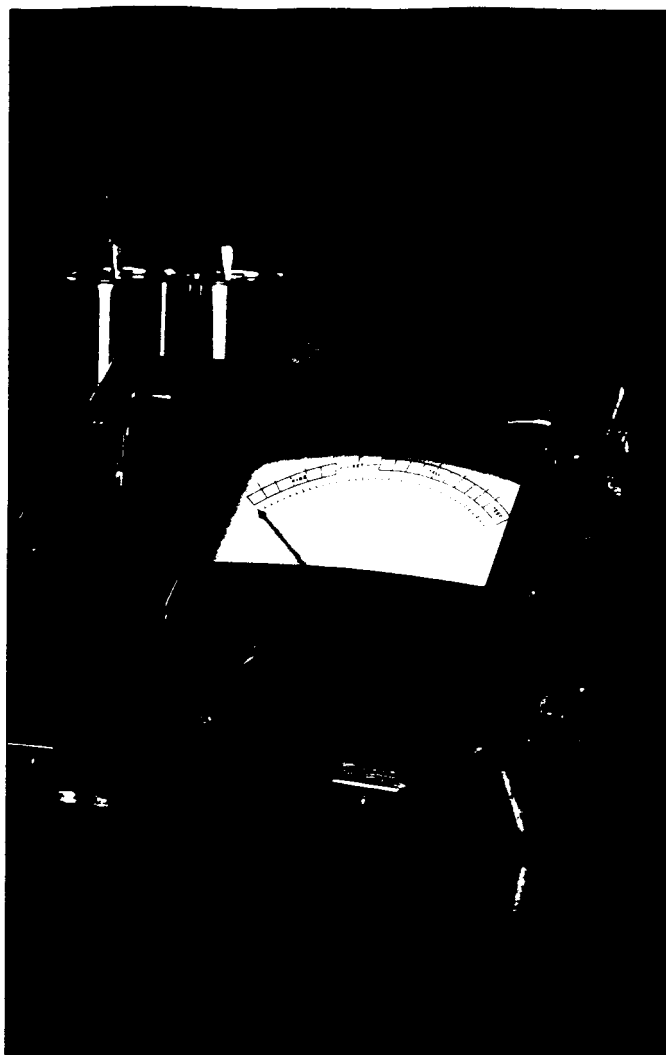

"It has been made as affordable as possible; which will help more and more people travel the road to freedom. The new MARK V E-METER has been thoroughly side-checked by the Office of the Senior Case Supervisor International and is an excellent and reliable meter. With the application of Standard Tech it will help you attain miracle results with your preclears!"

Success Stories

From seasoned auditors...

"I went Clear on a MARK V. So did many of my friends. The E-METER was as much a part of me going Clear as I was. The MARK V will also be the clearing meter." M.Z.

"I bought my first MARK V E-METER in 1968 so that I could train on it and use it to go Clear. I did all my training on the MARK V, and that's the E-METER I used on the Clearing Course when I went Clear. It really is a wonderful meter. It never gave me a moment's problem." P.S.

*"The Mark V is designed
to give good serviceable
reads for the lower classes
of auditing and is quite
wonderful at it."*

The Hubbard Professional Mark Super VII® E-Meter™

Most accurate and precise E-Meter ever made

The MARK SUPER VII is a masterpiece of computer-age engineering, combining accuracy with ease of use. The MARK SUPER VII E-METER has a number of specially designed features which all combine to give the best possible results from the one instrument you depend on most to take yourself and others up the SCIENTOLOGY Bridge to Total Freedom.

Designed under the direction of L. Ron Hubbard, the MARK SUPER VII is the most precise and accurate E-METER ever built. It uses the lightest, most responsive needle ever engineered for an E-METER. The black needle, light gray dial and non-glare glass of the E-METER dial, combine to make the MARK SUPER VII very easy to read. The digital tone arm readout displays TA position to 1/100th of a TA division. The charging circuit will completely recharge your E-METER in only 4 1/2 hours.

A full understanding of the E-METER and how it works requires that you study the books *Introducing the E-Meter*, *Understanding the E-Meter* and *E-Meter Essentials* and do the E-METER drills as contained in *The Book of E-Meter Drills*.

In order to be qualified to use the E-METER, you must: 1) do a standard course which includes E-METER training at a Church of Scientology and 2) be a Minister in training or a fully ordained Minister of the Church.

Features of the MARK SUPER VII E-METER Design

Space-age elegance combines with perfectly functional, precision-engineered detail. The MARK SUPER VII is completely sealed, preventing dust, dirt or moisture

from getting into the working parts of the E-METER.

Tone Arm Position Digital Readout

Accurate tone arm readings are vital to any auditing.

In the center of the MARK SUPER VII, below the needle, you will find a digital display. This digital indicator displays the exact position of the tone arm down to 1/100th of a division.

Gold Plated Connectors

The electrical connectors in the MARK SUPER VII (the jack plug, leads jack and alligator clips) have been gold plated to prevent corrosion and thereby reduce the possibility of a mechanically caused dirty needle or rock slam.

Digital Clock Display

The digital clock in the MARK SUPER VII not only tells the time, but also the day and month. It can continuously display seconds, and tell the time and date alternately, with the push of a button.

Tone Arm Display

A digital display shows the tone arm action accomplished during the session, so you don't have to work it out manually.

Light and Responsive Needle

The MARK SUPER VII has an ultra-responsive needle which shows reads with astonishing precision and clarity. The needle has been treated to be totally black. You will be delighted with how easy the needle is to read!

Optical Non-Glare Glass

Over the face of the E-METER dial is high quality optical glass treated with a special coating that reduces glare by ninety percent. The same glass is used on each of the digital displays.

The surface of the dial is a light shade of gray to reduce eye-strain, and the dial markings are boldly printed in black ink for easy reading.

Charging

The MARK SUPER VII E-METER is designed so that it can be charged whether it is turned to the "Off," "On" or "Test" position. You can even audit with the E-METER while it is being charged. When the E-METER is fully charged, you should get at least fifty hours of use from it before it needs to be recharged.

Extra Accuracy and Durability

The needle movement itself floats on a taut platinum band that cannot rust and is completely free of friction.

Left-Handed E-METERS

E-Meters made specially for left-handed auditors can be ordered in all MARK SUPER VII editions and

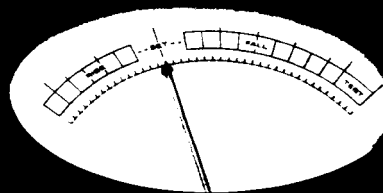

colors. The price is the same whether the E-Meters are for left-handed or right-handed auditors

Silver Certification

*Guaranteeing 100%
Standard E-Meters*

The Silver Certificate that appears on every E-METER, gives the date that the E-METER was certified as okay to use for auditing and the date that it needs to be recertified.

To get your E-METER recertified, ship your E-METER to GOLDEN ERA PRODUCTIONS and we will certify it, with a new Silver Certificate showing it is a valid and authorized HUBBARD E-METER.

Here is what to do to recertify your MARK SUPER VII E-METER:

1. Pick up your E-METER. Turn it over so that you can see its base. You will notice a metal plate with a white sticker.

Read the sticker. It gives the date your E-METER was "OK'd to audit" and when the next check is required.

This sticker also has the serial number of your E-METER. Write the serial number down for your own record in case you need to identify it later.

Write your name, address and phone number on a piece of paper. Securely stick this to both the front and back of the E-METER.

(If you are sending the carrying case too, then securely fasten your name, address and phone number on that as well.)

Write down anything that GOLDEN ERA PRODUCTIONS needs to know about your E-METER or any outnesses that may need correction.

Include a check or money order for re-certification and shipping. Re-certification for a MARK SUPER VII is \$150. (\$100 for a British MARK V, made by GOLDEN ERA PRODUCTIONS, \$175 for an earlier model MARK VI). For return shipping from GOLDEN ERA PRODUCTIONS back to you, send the same

amount charged for shipping to GOLDEN ERA PRODUCTIONS.

Place your E-METER in a sturdy cardboard box. Put packing material around it to ensure it will not get damaged when travelling. You could use styrofoam pieces or wadded newspapers.

Note: It is less expensive to ship your E-METER without the carrying case, but if you do ship the case with your E-METER, pack it with plenty of protection as well.

Tape the box securely with heavy packaging tape. Mark it FRAGILE on all six sides.

2. Address the E-METER to:
GOLDEN ERA PRODUCTIONS
Att: HUBBARD Electrometer
Manufacturing
6331 Hollywood Blvd.,
Suite 1305
Los Angeles, CA 90028-6313
USA.

Note: If an E-METER is being shipped from outside the USA, proper papers must be included which state it is being returned to the manufacturer in the USA for service. Make a copy for your records. The shipping company will help you to do this. This will assist your E-METER to move rapidly through Customs.

Get the shipping number from the shipping company. You will be able to keep track of the progress of your E-METER by referring to this number in calls to the shipping company later. Also insure your E-METER for its full value.

3. The HUBBARD Electrometer Manufacturing Department at GOLDEN ERA PRODUCTIONS has been fully set up to give you a forty-eight hour service. E-METERS arrive at GOLDEN ERA PRODUCTIONS and are handled by the Silver Cert I C.

4. All E-Meters will be repaired

as needed and silver certified within forty-eight hours of receipt.

5. All E-Meters receive a thorough Quality Control check after being serviced. Every newly serviced E-METER leaves GOLDEN ERA PRODUCTIONS with a new Silver Certificate (two years for a MARK SUPER VII E-METER, one year for a MARK V or VI) and a new six month warranty.

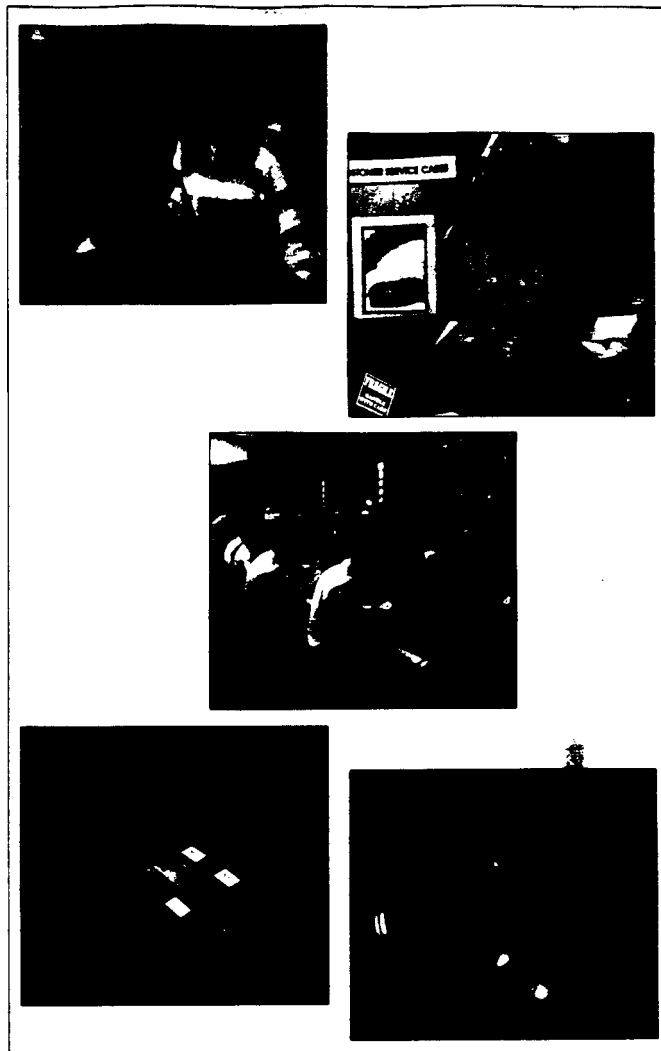

6. E-Meters are shipped back to the address given on the E-METER or to your Org Bookstore Officer if he shipped it for you.

7. E-Meters are returned in perfect condition for immediate use.

If you have any questions regarding the shipment of your E-METER, contact your local Bookstore Officer or the Director of Customer Services, GOLDEN ERA PRODUCTIONS. Telephone: 213-663-8072 (1-800-535-0657 in the USA) for more information.

"The development of the E-Meter to what it is today - a precision and state-of-the-art instrument, that reads accurately and can be relied upon in all auditing, is truly remarkable."

Accessories for the Mark Super VII E-Meter

The MARK SUPER VII comes with a complete set of accessories including a custom carrying case, admin shield, custom electrodes in five sizes, Solo dividers, leads, charging cord and a set of calibration resistors.

Innovative Admin Shield

YOUR MARK SUPER VII comes with its own innovative, color-matched shield. As the MARK SUPER VII E-METER was designed with a recessed tone arm, the E-METER itself does not need to be shielded from the pc's view. The new MARK SUPER VII admin shield is designed to shield only the auditor's worksheets. The shield also can hold books for use in word clearing and is adjustable to hold large books. And there are spaces built into the shield on the auditor's side for storing extra pens during sessions.

Corrosion-Free Electrodes

Five sets of electrodes (or cans) have been provided with the MARK SUPER VII, ranging from small to large to provide the correct size can for different pcs.

These electrodes are custom-made and coated with a layer of tin several times thicker than the coating found on common soup cans. These specially-made cans are by far the best ever constructed, and will last for years of continued use.

Accessories to Help You Achieve Standard Auditing Results

The Remote Tone Arm and Troubleshooter

Purchase the new Remote Tone Arm additionally, to use with your MARK SUPER VII E-METER. It makes Solo auditing

easier than ever! The Remote Tone Arm has been specially designed to eliminate the problem of body motion while handling the E-METER tone arm during Solo auditing.

No longer do Solo auditors have to move their hand from worksheet to E-METER. Now they can adjust the Remote Tone Arm, positioned close to the worksheets, with a slight touch of a finger, making Solo auditing smooth and distraction free.

Matching colors are available for all MARK SUPER VII E-Meters except Limited Edition gold, silver and bronze and Meridian blue E-Meters.

Order the Remote Tone Arm when you order a MARK SUPER VII E-METER.

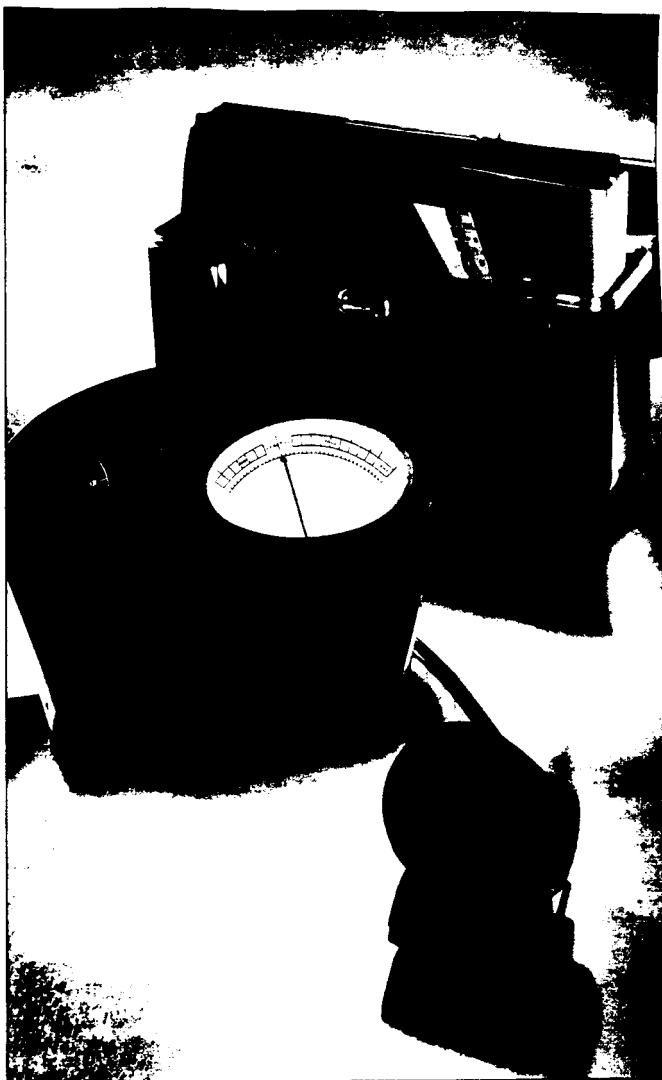

If you already own a MARK SUPER VII, order your Remote Tone Arm now!

It will fit in the case you have for your MARK SUPER VII.

The Troubleshooter helps keep your preclear in session by providing you with the auditing list you need right when you need it.

It contains a complete set of prepared lists in a lightweight, fully portable case with a shoulder strap. Professionally printed lists in the Troubleshooter are clearly marked with tabbed dividers, so you can locate what you need in seconds. A handy booklet of LRH references on prepared lists gives you the Source data at a glance. A pull-out index tells you exactly where to locate the list you need. Your Troubleshooter can be placed open by your auditing table during the session, displaying the lists clearly to you. It tilts back for easy access.

If you are an auditor of any

class, use of the Troubleshooter is vital to your delivery of standard tech.

The Troubleshooter is sold only to fully certified auditors of any class. The standard International Association of SCIENTOLOGISTS discount applies.

I HELP™ members: you get a larger 25% discount on your purchase of the Troubleshooter.

When you buy your Troubleshooter you'll get a form to send to I HELP. I HELP will send you a Troubleshooter owner's card which entitles you to lifetime discounts on prepared list refills that you can purchase at any Church of Scientology or direct from I HELP.

Enhance your professional image as an auditor. Get your Troubleshooter in a case that matches your MARK SUPER VII E-METER!
