# CREATING A SAFE ENVIRONMENT

As we move forward into the society, we are smashing the barriers that have held mankind down for a very long time.

Prior to our reform efforts, there was no hope of eradicating one of the primary sources of evil - psychiatry. Over the years we have made rapid progress and the greatest fraud of the 20th century is increasingly being exposed. Psychiatrists are being tried, convicted and imprisoned for their crimes.

The only reason psychiatry continues to exist at all is that it is supported by outside funding sources. The governments of Earth have given billions upon billions of tax dollars to the psychs to handle the problems of crime, education, drug addiction and other social ills - all to no avail. In fact, when comparing this enormous outlay of funds, we can observe that the decline of our societies is in direct proportion to the amounts that

governments give to psychiatry.

To expose the vast extent of psychiatric fraud, the Citizens Commission for Human Rights has just published a new

booklet which documents psychiatry's incredible level of waste, betrayal and fraudulently obtained funding. This booklet, *Psychiatry's Multi-Billion Dollar Fraud*, was presented to all

passengers aboard the FREEWINDS as part of a briefing done by Heber Jentzsch.

There are 100,000 copies being sent to Congressmen, health care personnel, media, and others involved in psych funding issues.

The booklet not only warns about the horrendous waste of public tax dollars when paying for psychiatric treatment but also tells what can and should be done about it.

We are on our way to eradicating psychiatry so as to end this scourge on Earth. In this way, a safe environment is being created, making it possible for freedom to be attained by all.

*President Church of Scientology International, Heber Jentzsch, presents the new Psychiatry's Multi-Billion Dollar Fraud booklet, funded by a grant from the International Association of Scientologists.*

# PRESERVING THE TECHNOLOGY FOR ETERNITY

In the 1940s and 1950s, ERH supported all of his research that led to the technologies of D.O. and S.O.

His writings today are his intent on the royalties of ERH's work to support the development of the most advanced technologies of the future.

The technology of the future is being developed by the people of the future.

ERH's research and development work in the 1940s and 1950s was the foundation for the technologies of the future.

ERH's research and development work in the 1940s and 1950s was the foundation for the technologies of the future.

ERH's research and development work in the 1940s and 1950s was the foundation for the technologies of the future.

# OT AMBASSADORS IN ACTION

*"If the definition of Operating Thetan is knowing and willing cause over all dynamics, then we can see at once that responsibility must go hand in hand with making an Operating Thetan."*

L. Ron Hubbard HCSB 12 Dec 1984

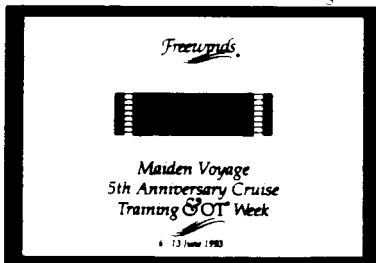

At the conclusion of the 5th Anniversary celebration of the Maiden Voyage, Captain Miscavige presented the passengers with a special award. In the Sea Org, contributions to major programs and accomplishments are awarded with campaign bars which Sea Org members wear proudly. As an acknowledgement to the passengers who participated in the activities of "Training & OT Week," each one was given their own campaign bar with a message to wear it with pride and responsibility.

Keeping this message in mind, the newly appointed OT Ambassadors went back to their areas and held OT Committee meetings around the world to get more public up THE BRIDGE to OT and to get more OTs and other SCIENTOLOGISTS trained.

Many OTs have now started the SAINT HILL Special Briefing Course in one of the Saint Hill Organizations or the Flag Service Org.

Out of the 78 New OT Villis in the Clearwater, Florida area - home of the Flag Land Base - more than twenty-five are now on training, and more about to start! The OT Ambassadors there have set the target of getting all the New OT Villis onto training by July.

In Los Angeles, the OT Ambassadors have been very active with several having already enrolled on the SAINT HILL Special Briefing Course at the American Saint Hill

The special Sea Org campaign bar presented to the passengers at the end of the 5th Anniversary of the Maiden Voyage.

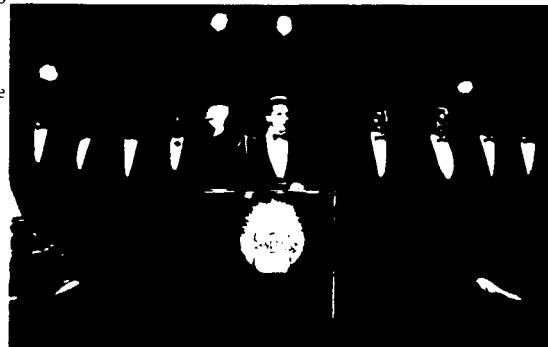

Organization. LA OT Ambassadors have also spoken at several events - including weekly graduations - encouraging other OTs to get on course.

In Sydney, Australia, all of the new OT Villis in the area are now on training and the Sydney OT Committee was expanded and gotten active in projects to expand SCIENTOLOGY in their area. There are also New OT Villis now in charge of the OT Committees in Perth, Melbourne and Adelaide.

The New OT Villis have been experiencing many wins as a result of this new role of OT Ambassadors. Here is what some of them have to say:

*"An OT Ambassador for all of Canada! A huge assignment! Can I do it? Yes, I can. I began by signing up for the SAINT HILL Special Briefing Course. Next, guided by LRH's words, 'a being is only as valuable as he can serve others,' and my own excitement about the*

*group to get the orgs to Saint Hill size and have New OT IX and X released. I've not been sitting around on my hands but somehow I just couldn't feel I was contributing in a big enough way to help the orgs. The OT Villis from Clearwater came home and hit the town running! We called a meeting of all the local OT Villis and briefed them on the game of every OT getting on the Training Bridge*

Captain David Miscavige presents the campaign bar awarded to all newly-appointed OT Ambassadors aboard the FREEWINDS.

The New OT Villis aboard the Freewinds at her Maiden Voyage 5th Anniversary Cruise.

*immediately. Personally, on the Auditor Update Service, I came out with a huge win. I now have a Technical Individual Program to fully get my tech in on the left hand side of the Grade Chart.*

*"We have a detailed organized program that will accomplish what is needed and wanted to get the job done and behind all this we have but Management right in there seeing to it that everyone is moving up and winning. I am proud to be an OT Ambassador and help LRH for the greatest good of all - Freedom."*

Darlene Eggen

*preparations for New OT IX and X. I began contacting the Canadian OTs. I have had incredible wins in talking to others who are stalled in their training. Providing them with the data that we are moving forward with our biggest plans ever and sharing the excitement of the briefings and events on the ship has brought new insights into my own OT abilities to create and expand. I have found new power and stability. Helping them and me prepare to make it on the upper OT levels has been one of the most incredible wins of my life."*

Jessie Snow

*"I've just returned from the 5th Anniversary Cruise and am very excited about what occurred there and the game that we now have to play! I can see what we can do as a*

*"When I heard the requirements for New OT IX and New OT X, I became very excited. I had to confront that even though I was a Class VI auditor, there were many areas of my auditor training that did need updating. So I routed myself to the registrar at ASHC and am now back on the SHSBC" again. I truly feel a resurgence as a being. I started telling other OTs about my experience, and have gotten tremendous response from them. I am very proud to be an OT Ambassador and am very excited about wearing this hat."*

Suzanna Sudabnik

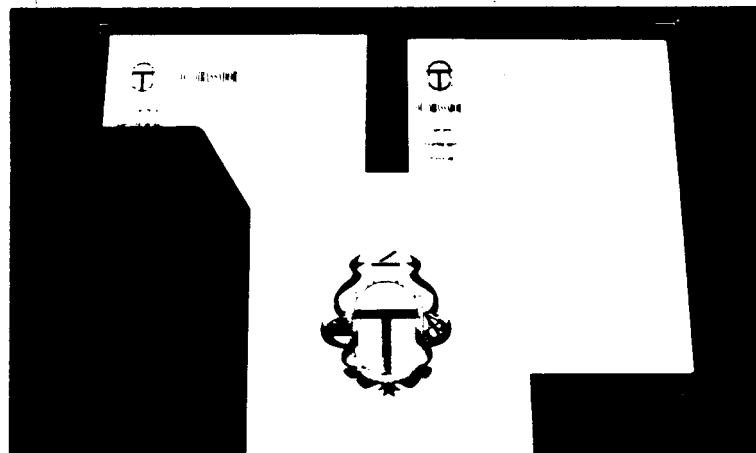

# THE OT AMBASSADOR PROGRAM

International Management executives held a special seminar during the Training & OT week, in which they launched a new program - the OT Ambassador Program.

Along with the increased abilities and awareness that an OT has comes increased responsibility. As befitting this responsibility, all New OT VIII's on board were given a new hat and official appointment as OT AMBASSADORS. Per definition, an ambassador is "An authorized representative or messenger." These messengers are to spread the word on becoming a trained OT.

Two overall objectives were laid out for the OT Ambassadors: (1) to get OTs totally grooved in to help other OTs in the field to move up and get ready for New OT IX and X and (2) to increase the activities of Scientology in the community.

As each New OT VIII was appointed an OT Ambassador, he took on new responsibilities which include:

The OT Ambassador Kit given to passengers to get them in on the hat of OT Ambassador.

a) Getting one's case in perfect shape, including doing the New NOTS Rundowns if not already received;

b) Getting trained as an excellent auditor so one can actually make it on New OT IX and X. This training includes getting through the auditor courses required to enroll on New OT IX;

c) Taking responsibility for getting other New OT VIII's trained and ready for the release of New OT IX and getting other OTs up to New OT VIII and through their training requirements;

Passengers study their OT Ambassador Kits.

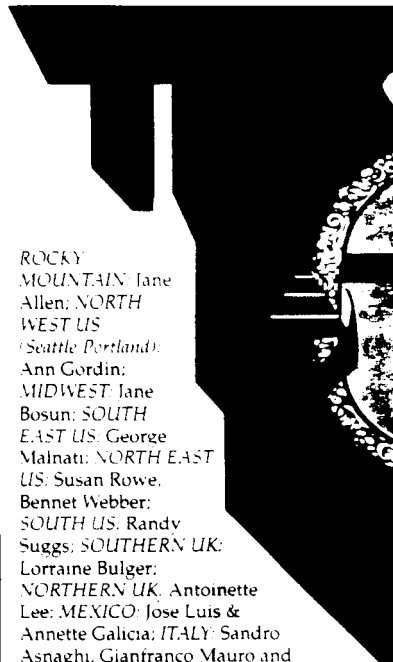

During the OT Ambassador Seminar, attendees received a Creating a New Civilization Kit giving key data and steps on how to open up a field group.

(d) And, taking responsibility for making one's community into a safe area by using SCIENTOLOGY tech to get missions and groups formed up and delivering. This occurs by opening groups under Scientology Missions International, the World Institute of Scientology Enterprises and the Association for Better Living and Education so that LRH's tech gets into use in every area of society.

The OT VIII's were organized as OT groups in the different areas they come from. An OT VIII from each area was appointed as the Regional OT Ambassador In-charge for his area. For example, all the New OT VIII's from the San Diego area are under the I. C. for San Diego, all the OT VIII's from Zurich are under the I. C. for Zurich, etc.

The OT Ambassador Regional I. Cs assigned during the Maiden Voyage 5th Anniversary Cruise are:

ROCKY MOUNTAIN: Jane Allen; NORTH WEST US (Seattle/Portland): Ann Gordin; MIDWEST: Jane Bosun; SOUTH EAST US: George Malnati; NORTH EAST US: Susan Rowe; Bennet Webber; SOUTH US: Randy Suggs; SOUTHERN UK: Lorraine Bulger; NORTHERN UK: Antoinette Lee; MEXICO: Jose Luis & Annette Galicia; ITALY: Sandro Asnaghi, Gianfranco Mauro and Franco Beschi; HOLLAND: Hill De Hocheplied; NORTHERN GERMANY: Michael Klinger; SOUTHERN GERMANY: Tatiana & Roland Stahl; SWITZERLAND 1 (Bern): Tobias Leutenegger; SWITZERLAND 2 (Geneva): Don Roberts; SWITZERLAND 3 (Zurich): Martin Schoenberger.

A staff member representing each of the Advanced Orgs and the Flag Service

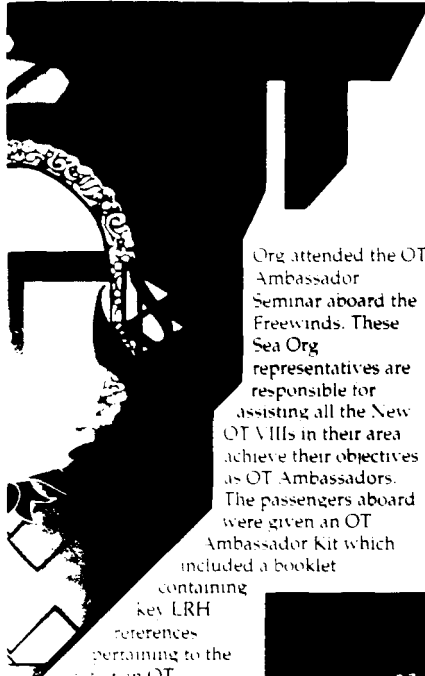

Marketing Executive International, Commander Ronnie Miscavige, presents the 71 Reasons To Get Trained during the seminar.

Watchdog Committee Member for WISE, Commander Greg Hughes answers questions during the seminar.

# IBASSADOR GRAM

Org attended the OT Ambassador Seminar aboard the Freewinds. These Sea Org representatives are responsible for assisting all the New OT VIII's in their area achieve their objectives as OT Ambassadors. The passengers aboard were given an OT Ambassador Kit which included a booklet

containing key LRH references pertaining to the role of an OT Ambassador and report forms to fill out and send to the OT Ambassador Representative in their nearest Sea Org org. Additionally, the New OT VIII's received a letter appointing them officially as an OT Ambassador and an OT Ambassador

Membership Card.

The passengers at the seminar were also given lists of all the New OT VIII's, OT VII's, OT VI's and OT V's in their area so they can contact them and get them onto auditor training and up to New OT VIII.

Commanding Officer CMO International, Captain Marc Yager, briefs the New OT VIII's aboard the ship on their role as OT Ambassadors.

Additionally, to help them make a real SCIENTOLOGY community in their area, the seminar attendees were provided with an extensive kit to hat them on how to get field groups opened to deliver services under SMI, WISE and ABLE.

The New OT VIII's returned and you should be hearing from them. They will be:

- a) Contacting all the OT's in their area
- b) Briefing all OT's on what happened on the ship.
- c) Contacting their local org and getting out of Non-Existence with them, briefing them on what they are going to do.
- d) Getting OT's on training and moving on their next step on THE BRICK either at their AO or at the FSO.
- e) Contacting all SCIENTOLOGYISTS in their area and enlisting them to become active as FSM's and open groups such as missions, WISE groups and ABLE groups.

As not every New OT VIII attended the Maiden Voyage Anniversary Cruise, other New OT VIII's may apply for appointments as OT Ambassadors to the OT Ambassador I/C of the Flag Service Org or the Flag Ship Service Org or directly to the Fields Executive International, who is the final

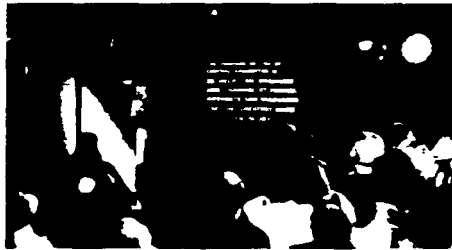

authority on such appointments. Upon acceptance, the New OT VIII will be sent an OT Ambassador Letter of Appointment signed by the Executive Director International and an OT Ambassador Kit to hat him on his duties.

Watchdog Committee Member for WISE, Commander Greg Hughes, presents the Creating a New Civilization Kit.

Executive Director International, Captain Gaullione Lescre, briefs passengers on the OT Ambassador program.

Captain Marc Yager does a Chinese school drill with the seminar attendees on the purpose of an OT Committee.

Captain Marc Yager supervises passengers during a drill as part of the OT Ambassador seminar.

Passengers drill the Reasons To Get Trained on each other.

To get ready for New OT IX and X, New OT VIII's have been made a vital part of the team working to carry out the broad mission of handling this sector of the universe. They are now OT AMBASSADORS.

# TRAINING TO GO F

During one of the first cruise events, passengers were briefed on actions being taken to speed Scientologists' progress to OT. For example, as the Flag Service Org is the top of THE BRIDGE\* where everyone travels to on his way to OT. Religious Technology Center and International Management have put a lot of attention on building up Flag's service facilities.

The Flag Service Org is of such importance in the making of OTs that the Senior Case Supervisor International, John Eastment is now holding the post of Senior Case Supervisor FSO so that he can be on the ground directly, seeing that people move up THE BRIDGE to OT as fast as possible.

In the overall broad picture of SCIENTOLOGY, the Flag Service Org plays an extremely important role. Not only must everyone go there to make it to full OT, but it is also where top tech terminals for lower orgs get trained. Commander Mark Ingber is now on a senior post at Int Management which coordinates all its resources to help even further increase the service facilities at the Flag Land Base - including its planned new Technical Delivery Building. These actions, while indispensable to the making of OTs, left some holes in our organizational structure at International Management. Therefore Captain Marc Yager has now assumed the post of Commanding Officer of the Commodore's Messenger Org International and Commander Ray Mithoff is now Senior Case Supervisor International.

Passengers of the Maiden Voyage 5th Anniversary Cruise doing their Auditor Update tests.

These changes mean that public SCIENTOLOGISTS will now get more direct and personal attention on their way up THE BRIDGE from these long term executives.

#### WHAT ONE MUST DO TO GO OT

To go OT one has to be well trained. What tech do you need to know on New OT IX and X?

**All of Scientology.** It's that simple. You need to be so good that you can think with the tech, and instantly handle anything that could come up.

As you move up the OT levels, the skills required are much greater. Imagine auditing something way, way, way, way down the track that has a lot of charge on it, and you suddenly encounter a certain type of phenomena calling for an auditing procedure that needs to be done immediately, right at that point. You must know what you are doing and must be in full command as an auditor.

On these upper OT levels, one needs to be able to audit any rundown with no hesitation or uncertainty. And not just know what to do technically but also have a full understanding of why it is that way.

While it is not possible to detail what types of spiritual phenomena one will encounter on New OT X or other levels, one thing is clear: **To make it on these upper levels and get out of the trap, you absolutely must be trained.**

Some may think, "Where am I going to get the time to do that much study?" It may seem a lot to learn. But view it in this context: How long have we been in an aberrated state? How long have we been stuck in MEST bodies and pinned down on a degraded planet? This is the first chance we've ever had. Put in that

Senior C.S. International, Commander Ray Mithoff, checks the passengers on their auditor basics.

framework, it really is not insurmountable.

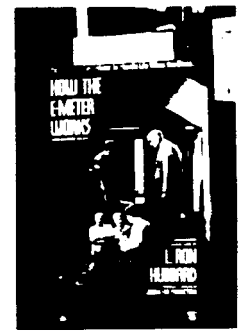

RTC and International Management want every SCIENTOLOGIST to make it through the OT levels. And everyone can make it, providing one arranges the necessary time in one's schedule for it and, applying study tech, studies diligently.

#### NEW AUDITOR UPDATE SERVICE

To help all New OT VIII's aboard the FREEWINDS, a new program was launched during the 5th Anniversary Cruise called the Auditor Update Service. While introduced aboard the FREEWINDS for the New OT VIII's, this service will first be available to all SCIENTOLOGISTS at the Flag Service Org.

This new service is tailored to the individual person's needs. The Auditor Update Service tests him on all his former auditor training. From this, any area of uncertainty or weakness on previous training is isolated and an individual training program to handle these specific points is drawn up. Part of this tailor-made training program also includes filling in any missing training steps, including new courses

released since the person did his auditor

(Left) Poster of new LRH Tech Film 'How The E-Meter Works.'

(Below) Passengers viewing LRH Tech Films during the day in the cinema aboard the FREEWINDS.

training, such as the New HUBBARD Professional TRS Course, the HUBBARD Professional Upper Indoc TR Course or the New Solo Auditor Course.

If one is a Class IV auditor for example, he will take exams on the Academy Levels and all the weak points or uncertainties will then get picked up. A specific individual program then gets put together so the person can review and restudy specific points missed.

The Auditor Update Program is centered around the LRH Technical Training Films. The Tech Films were designed specifically to clarify and greatly improve and speed the training of auditors. LRH wrote the scripts for these films in order to show tech basics - they show what standard TRs and E-Metering look and sound like and give a model that auditors

## TRAINING PREREQUISITES FOR NEW OT IX & X

The specific auditor training prerequisites for New OT IX and New OT X are:

- SAINT HILL Special Briefing Course
- Class VI Auditor Internship, or as an alternative, one may do all of the following auditor classification and Technical Specialist Courses and internships:
  - HUBBARD Class V Graduate Auditor Course and Internship
  - HUBBARD HAPPINESS RUNDOWN Auditor Course
  - PTS/SP Course, How to Confront and Shatter Suppression

- PTS/SP Auditor Course
- HUBBARD Senior Security Checker Course and Internship
- HUBBARD FALSE PURPOSE RUNDOWN Auditor Course and Internship
- FDH Detection and Handling Course

The SAINT HILL Special Briefing Course and internship is without question the recommended route. It contains all the above in addition to a full chronological study of the development of DIANETICS\* and SCIENTOLOGY and the practical application necessary to become an expert auditor.

# PROGRAM FULL OT

**T** can watch again and again and drill in order to perfect their own basic auditing skill.

The Tech Films are themselves technical references just as HCO' Bulletins are. They contain numerous technical data which exists nowhere else.

As part of this update program, auditors see all the Tech Films up to their class level and drill the actions shown in the films. In this manner, the auditors will achieve 100% standard application of the technical basics and deliver flawless sessions.

During the cruise, Captain Miscavige briefed passengers on the LRH technical training films, how they came about

Captain David Miscavige presents a special booklet on training and OT to all passengers.

and their vital importance in training. At Saint Hill and then later on the Flagship Apollo, LRH was always there to train the top auditors on the planet. He knew that this wouldn't always be the case. LRH's solution was to get technical films made so one could see exactly how to audit.

These films are not on complex technical procedures, but cover all the basics of auditing. LRH carefully surveyed to find out where tech application could break down and keep a standard session from taking place. He then wrote a series of 29 technical film scripts covering all the basics of auditing.

There is a major program which has been ongoing of getting all these films shot and there are a series of films which are now fully completed.

During the cruise, a preview of several new films was given to the public as part of their Auditor Update Service. They will be released in the coming months and will be available on training courses at the Flag Service Org first.

## NEW LRH OT LECTURE SERIES TELLS ALL ABOUT EXTERIORIZATION

In order to make it to OT, one needs to know ALL the tech and this very definitely includes training on the tech of being OT. Knowing and being able to apply this data is crucial.

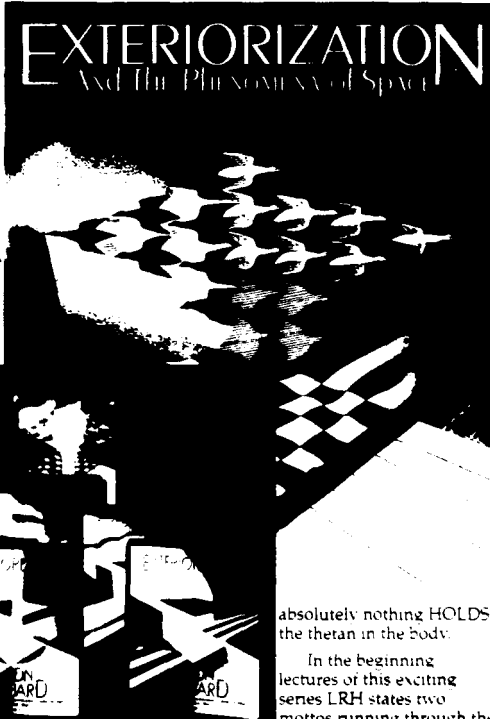

LRH did a tremendous amount of research on the state of OT in the early and mid 1950s, embracing all aspects of the thetan and the OT capabilities of a thetan.

Just released on the 5th Maiden Voyage is a series of LRH lectures from 1953 that are particularly applicable to OTs, while also of great benefit to any SCIENTOLOGIST.

A primary factor that LRH was working to solve at that time was the thetan not being able to operate as he should, due to being in a body.

very extensive coverage of the phenomena of exteriorization, including how to exteriorize a person, how to maintain a state of being exterior and the basic theory on the subject.

LRH points out in these tapes that

absolutely nothing HOLDS the thetan in the body.

In the beginning lectures of this exciting series LRH states two mottos running through the

whole course: "Look, don't think" and "Feeling is a condensation of looking; thinking is a condensation of feeling." He explains the nature of thought and why it is much more optimum for a thetan to look than to think.

As LRH pointed out, "A thetan can be what he can see; he can see what he can be."

As one moves up The Bridge and the OT levels, past new OT VIII, one will reach a point on the OT levels where it is vitally necessary to go exterior and be exterior stably.

Working within the confines of a body is a real barrier. And exteriorizing and operating separate from the body is very much a part of the upper OT levels. This new tape series is available at all Scientology organizations. There is also a new OT Hatting Course that goes with the Exteriorization and the Phenomena of Space lectures available on board the FREEWINDS, at the Flag Service Organization and in the Advanced Organizations for SCIENTOLOGISTS who are on OT III or above.

In the summer of that year, LRH announced he would personally train a selected group of top auditors in the latest tech. He was inundated with applications but accepted only 10, enabling him to devote more time to the individual students attending this course.

The follow-up to the Philadelphia Doctorate Course lectures, this was the 1st Advanced Clinical Course, given by LRH in October - November 1953 at his house in Camden, New Jersey. He delivered 84 lectures, making this the largest single series of lectures next to the SAINT HILL Special Briefing Course.

Recordings of these 84 lectures have never been available. The only people that have ever heard them are the 10 auditors that attended the original course in 1953!

This entire series of LRH lectures has now been released as the Exteriorization and the Phenomena of Space lecture series. They give a

The FREEWINDS as it sails out of Acapulco, hundreds of boats.

# TRAINING & OT

The plain truth of it is, if anybody is really going to make it to OT he has to know how to audit. That's the long and short of it.

Would you put yourself and your case in the hands of an untrained or poorly trained auditor, would you? You owe yourself the best auditor in the world on Solo, and that is you.

"So get trained."

L. RON HUBBARD

## TAKE ADVANTAGE OF THE AUDITOR UPDATE SERVICE AT THE FLAG SERVICE ORG

*"You are very fortunate people. You are very, very lucky people. You come all the way down the track, lived all of those years, did all these stupid things, and you wind up here with a chance out. The chance is as good as you can audit, and it's not a bit better." L. Ron Hubbard*

from Lecture Relationship in Training and OT

The brand new Auditor Update Service is available only at the Flag Service Org at this time.

On the Auditor Update Service, one gets tested on all previous auditor training. All weaknesses and uncertainties are isolated and a tailored individual training program is drawn up which takes up and handles anything missed on previous training.

The training program you will receive also includes study of any courses and materials that have been released since you originally did your training.

The LRH technical films are a vital part of the Auditor Update Service. It is like having LRH right there in the classroom, showing you exactly how to audit. As part of this new service, you will be able to see the newest technical films -- which will be available at Flag before any other org. You will also do special practical drills based on the films. These will make you 100% certain and fully in command of all the basics of auditing.

Go to Flag or contact your nearest Flag Service Consultant and enroll on the Auditor Update Service. Get the training you need to make it to OT *now*.

# THE SEA ORG 25 YEARS OF MAKING OTs

*"The Sea Org is an organization of expansion and our prize is a sane planet."*

LRH

To bring about an OT civilization, LRH realized that he needed to create a unique group, unlike any other on this planet. That group is the Sea Organization.

LRH defines Sea Org members as he does OTs - at cause over life, matter, energy, space, time and form.

The Sea Org has always been the custodian of the upper section of THE BRIDGE. Growing from only a few members in 1967 to over 5,000 strong today, the Sea Org is capable of performing any task necessary to ensure the standard delivery of LRH tech to every individual on this planet.

In tribute to its 25th Anniversary, a special video illustrating the history and accomplishments of the Sea Org was presented to the passengers aboard the 5th Anniversary Cruise of the Maiden Voyage. This presentation shows the discipline, competence and dedication of each individual Sea Org member and what can be accomplished by a well-organized group, working towards clearing this sector of the universe. The 25th Anniversary Tribute to the Sea Org video will be available for viewing in all Sea Org orgs.

The basic duty of the Sea Organization is to keep Dianetics and

L. RON HUBBARD  
FOUNDER

Captain FREEBORN and his crew receive a plaque from RTC and International Management for passing the 100,000 mile mark or safe operation since the Maiden Voyage.

Scientology working, through a continued standard use of all the technology.

This tough group of men and women operating in coordination with one another to put ethics in on this planet, to protect THE BRIDGE forever and to take responsibility for all mankind have achieved major accomplishments in its 25 year history.

In Ron's Journal 1967, LRH announced the dramatic news of OT III and made the existence of the Sea Org known for the first time. From that point forward, the Sea Org has dedicated its resources to making it possible for everyone to move all the way to full OT.

Through the years, Sea Org members have been instrumental in getting LRH's tech exported to the public. From the release of standard DIANETICS in 1969 to the delivery by Flag auditors of the life-changing L. Rundowns, to exporting the Sea and Wall of Fire in 1978, NED for OTs. Sea Org missions have seen the training of auditors on these new breakthroughs so man can achieve.

Standing at the threshold of the Wall of Fire in 1966, LRH showed exactly what it would take to attain the Aims of SCIENTOLOGY through hard working, dedicated teamwork that would maintain the integrity of his technology and bring about his dream of an OT civilization.

As SCIENTOLOGY prepares to move into the 21st century, the Sea Org is gearing up for the greatest period of expansion ever.

# MAKING SAINT HILL SIZE ORGS

Many programs are now coming to fruition, resulting in big orgs where a huge volume of people can go up *THE BRIDGE*. There are internal programs such as the Org Executive Training Program and broad dissemination programs to open the entrance of *THE BRIDGE* to millions of people.

## REACH-OUT PROGRAMS

More than 16 million Dianetics books have been sold planet-wide and surveys show that about one out of every five Americans have read *Dianetics*. The next step is to get them to **apply** the tech.

To get this done, a reach-out DIANETICS dissemination campaign is being launched with this sequence:

1. Continue to make Dianetics known to the public, getting DMSMH into the hands of more and more people.

2. Tell the readers of DMSMH what to do next. This is being done with the Dianetics Commercial, a 30-minute TV

advertisement giving a summary of what Dianetics is and its goals. It is being used now to begin reaching this summer on the TV, starting in the USA.

3. Tell people what to do it by getting the DIANETICS HOW TO DO VIDEO into broad use.

4. Get people who apply Book One using the DIANETICS video to come into missions and orgs to continue up *THE BRIDGE* to Clear and OT.

The amount of TV broadcasting of this docmercial will exceed the biggest prior Dianetics campaign by a ratio of eight to one.

At the same time, the first ever major campaign on SCIENTOLOGY is also being launched. This campaign, just like the DIANETICS campaign, will make it possible for people to find out right in their own homes what SCIENTOLOGY is, get started in applying the tech to their own lives and from there move onto and up *THE BRIDGE*.

This campaign begins with the *Problem of Life* film which will air on national TV in the US. Look for it! The film promotes the book *What Is Scientology?* which answers the question raised in the film.

*What Is Scientology?* will also be in

public bookstores in the USA starting in September. The reach for this book just from public bookstores has flooded the publisher, Bridge Publications, with tens of thousands of advance orders.

## ORG PROGRAMS

At the same time, actions are ongoing to make our orgs each capable of handling the increased interest and reach created for DIANETICS and SCIENTOLOGY.

This requires trained executives in orgs. A program has been underway to train execs on the FEBC Executive Briefing Course and in recent weeks a number of these highly trained executives have

the LA area is organized in such a way that when receiving service in Los Angeles Org, you can see your next target: the American Saint Hill Organization. And when receiving your service at ASHO, your next target towards going OT is directly in view: the Advanced Organization of Los Angeles.

Los Angeles Org is being renovated to make its quarters physically attractive to new public and convenient for fast service to Clear.

Another example of an org being built up to Saint Hill size is the Advanced Organization & Saint Hill Europe and Africa, AOSH EU & AF. Along with the Flag Service Org, it is the only org to specialize in delivering OT levels in non-English languages. Seven executives for AOSH EU & AF, including several Sea Org veterans, are nearing

completion of their training. At the same time, all upper level materials are being translated into the main European languages and a major renovations project is occurring in AOSH EU & AF to set up their

spaces for maximum delivery.

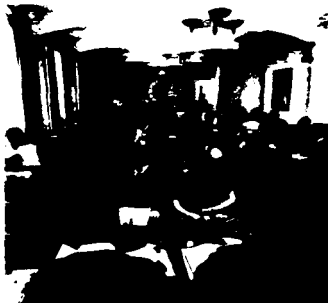

Huge dissemination programs to broadly get the word on SCIENTOLOGY to the public will be launched in Australia in conjunction with the International Association of Scientologists 9th Anniversary Event, to be held in Sydney at the end of October. Also along with this, there will be a large Australian convention held for all SCIENTOLOGISTS.

And AOSH ANZO (Advanced Organization of Saint Hill Australia, New Zealand and Oceania) is getting ready for this expansion with their own renovations program!

Today, we are richer in resources than we have ever been, with more people in training than at any previous time in SCIENTOLOGY, broader dissemination programs and org buildings which are bigger and better set up than ever.

Newly opened Saint Hill Special Briefing Course classroom at AOSH ANZO in Sydney, Australia.

New reception at AOSH EU.

New library at AOSH ANZO.

returned to their orgs.

For instance, the executives of Brighton Org (England) and of San Francisco Foundation Org just completed their FEBC program and fired back to their org.

Another org soon to be receiving its FEBC team is the Los Angeles Org - an organization with a unique role in SCIENTOLOGY. LRH dreamed of making it possible for public traveling up the Bridge in Los Angeles, the largest SCIENTOLOGY community in the world, to be able to move swiftly and smoothly from one org to another in one location. The Bridge in
