Making a Safer & Saner Environment

Give the Gift of Knowledge

GET LRH'S TECHNOLOGY INTO THE HANDS OF YOUR FRIENDS, ASSOCIATES AND FAMILY

LEARNING HOW TO LEARN—

Standard Study Technology for children. Use it to help them conquer the barriers to full comprehension.

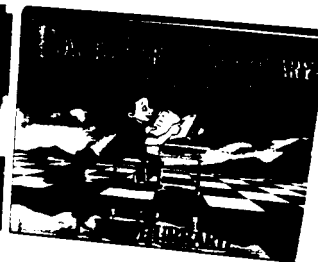

HOW TO USE A DICTIONARY—PICTURE BOOK FOR CHILDREN—

Teaches a child how to use a dictionary to clear concepts and words.

THE BASIC STUDY MANUAL—Standard Study Technology and word clearing technology for students from high school to college level and adults. Educational breakthroughs with easy to do practical drills for ages 15 and above.

STUDY SKILLS FOR LIFE—Standard Study Technology for teenagers. Without an ability to learn how to do things, the goals that a teenager has put there for himself are blocked.

GRAMMAR AND COMMUNICATION—Based on the revolutionary

Key to Life™ Course, this book makes grammar a highly understandable and useful tool to improve a child's ability to communicate.

THE NARCONON™ NEW LIFE DETOXIFICATION PROGRAM—Is someone you know being

destroyed by drugs or alcohol? Give them an education on drugs and their effect on the body and mind. It will change their life.

THE WAY TO HAPPINESS—Book and Video Cassette. The Way To Happiness is probably the first moral code that EVERYONE can agree to, regardless of their culture or religious background, as it is based purely on common sense! It offers a solution that people can use right now* to restore trust and honesty to themselves and others. The Way To Happiness Results Video shows the widespread use of TWTH in society.

Letter from the President of ABLE International

What is this world coming to anyway? How many times have you said that as you watched the evening news or read the morning paper?

Declining literacy statistics. Young people addicted to drugs. Violence in the community. An absence of common sense values. Many people shake their heads and decide that it's hopeless while conditions only worsen.

The only solutions to the increasing global problems of drug abuse, crime, illiteracy and deteriorating moral values is L. Ron Hubbard's technology.

Only LRH technology can reach a being who has skidded to the very bottom of the social ladder, give him a helping hand and show him the route to decency, happiness and a new life.

ABLE—the Association for Better Living and Education—was formed to bring workable technology to areas of society formerly marked by despair.

ABLE sees to it that the social betterment technology of LRH is put into wide use. It sponsors broad promotional and public relations campaigns that gain

recognition for the social betterment technology. This issue of INROADS Magazine covers some of these actions.

ABLE raises funds from corporations, governments, institutions, foundations and individuals to support these campaigns and further disseminate the Social Betterment Technology.

ABLE also holds the trademarks of Applied Scholastics™, Narconon®, and Criminon™ and thus ensures that the social betterment technology is used standardly by those licensed to use it.

There are ABLE offices in the United States, Europe, Australia, South Africa, United Kingdom, Mexico and now Russia.

I invite you to read this magazine and learn more about ABLE and its activities.

And I strongly urge you to get involved today—your time, your volunteer contributions, your donations are all key to helping make a better world.

Contact us today.

Sincerely,

Rena Weinberg

TIMES MUST CHANGE

by L. Ron Hubbard

From CERTAINTY magazine, Vol. 13 No. 1

Unless there is a vast alteration in Man's civilization as it stumbles along today, Man will not be here very long, and none of us will survive.

Times must change.

Today, we, as a culture, poise on the brink of destruction. It does not matter whether that destruction will come with a dramatic bang or by political upheaval or by the putrefaction of social decay. It will come.

I do not have to tell you what is wrong. You can look around yourself and see a number conditions, all signs of decay and sources of pain. You know they should not be that way.

To pretend all is well today is like whistling in a hurricane. It does no good.

Death waits. He is never announced. He simply arrives gradually or suddenly. He waits for each of us and for Mankind.

Yet man today does nothing effective to halt death. Indeed he knows little or nothing about it. He even greets any effort to understand it with jeers or a shrug.

Man is sick and nations have gone mad.

You would not tolerate for one moment the conduct of an individual that is common-place in the acts of some nations. You would lock up such a person.

We cannot, any of us, go on pretending all is well or that all will be well. It is not so.

Unless we ourselves are audited, we will die as personal beings.

Unless a large and effective effort is made to halt Man's decline this planet will revert to a barren desert. Certainly, with his bombs, racism, and inhumanities, he is trying hard enough.

Times must change.

We have too long gone downward towards personal and social oblivion.

We have a way to do this. We are the only group on earth that does have a workable solution. It's time we realized it and used it, every one of us.

Thousands of philosophers couldn't have been totally wrong. They sought, every one of them from Socrates to Russell, the way to salvage the individual and the society. The one common denomination of their search was a deep knowledge that there was a way out and that somewhere someday somebody would find it. All right we have found the way out.

Let the ignorant laugh; the ignorant always do. Let the smug and pompous ride their toboggan to nowhere. We have the answer, and we are using it.

If each of us moves up toward higher

states of effectiveness we can then exert enough pressure collectively to set things right.

That's easy. We have the way if we follow it.

Times must change.

The hard thing to do is try to keep society the way it is. The cruel thing to do to oneself is to do nothing.

Times must change.

No pressure of governments, no campaign by incompetent "healers" who have already failed, no threat of ridicule or punishment must be let stand in our way.

We have the technical materials. We are making our way already—all the way. Now we must not stop. There is not one more single thing we need to know to accomplish all.

We weren't effectively prevented from attaining our knowledge—the hard part of the journey. Now we cannot be prevented from applying it.

Times must change.

And we, the Scientologists, are the ones who are changing them.

Set a Good Example

Fred Oxaal, President of the
Concerned Businessmen's Association,
with boxes containing the
"Set a Good Example" program,
delivered to schools with your help.

**Help
Children
Become
Well Educated!
Drug-Free!
Moral! and
Happy!**

The cost is very little to adopt a school or a classroom of students and provide them with educational materials that include a copy of the *Basic Study Manual* and other study books by L. Ron Hubbard and gift copies of *The Way to Happiness* book for each student. The *Set a Good Example* School Contest has already provided books and materials to help nearly seven million students in more than 8,000 U.S. schools become active in their own campaign to get drugs off

school grounds and help to reduce juvenile crime, violence and illiteracy.

YOU CAN HELP! You can provide children in our schools the workable tools they need to build a safe learning environment based on honesty, trust and competence.

**Set a Good Example—
Become a Sponsor.
Call (310) 821-8073
Find out how you can
adopt a classroom!**

The Way To Happiness Set a Good Example Contest Becomes *the* Thing to Do...

uring this past year over 600 new schools have joined The Way To Happiness — Set a Good Example Contest. There are now over 7,000 schools in the United States that have participated in this contest and more than 6 million copies of *The Way To Happiness* have been distributed on school campuses as a result.

The assistant principal of one of the winning schools in Durham, North Carolina had this to say about the book: "*The Way To Happiness* is a stunning book and we are all enjoying it very much. We live by the principles and use the book as a guide to help rid our school, community, state, and nation of drug abuse, crime, illiteracy and dropping out. We use the principles of the book as a marvelous lesson in citizenship and responsibility that will stay with our students for the rest of their lives. Many students asked for second copies of the book to give to relatives and friends. The book benefited our students and many others who were touched by the students through their work."

Set A Good Example Month was also proclaimed by the Governor of North Carolina, the mayor of the city of Durham and a commendation has just been received from US Senator Jesse Helms. The governor said in part:

"*The Way To Happiness* has created a nationwide effort to get youth active in a campaign to get drugs off school grounds, to encourage youth to educate themselves and use common sense standards of right and wrong as contained in the book *The Way To Happiness*, and to teach young people to set good examples for other youth in their schools by being honest, trustworthy and competent."

▲ Winners of the Set A Good Example Contest ride with celebrity spokesperson Lee Purcell in the world famous Hollywood Christmas Parade, which reaches over 180 countries.

The Way To Happiness has been received with great popularity in Russia, a country experiencing numerous internal social problems. The police, school administrators and government officials have begun to distribute *The Way To Happiness* on a broad scale. Even the media had recognized the importance of getting this booklet into the hands of as many Russians as possible.

In Moscow, the newspaper SOBESEDNIK (which roughly translated means Communication Line) printed and distributed 560,000 copies of *The Way To Happiness* as an insert in their national newspaper.

In the same newspaper, the editors wrote: "Recently L. Ron Hubbard has crossed the Russian border... now we offer to our readers his philosophical essay. L. Ron Hubbard liked to say, 'I like to help people.' We hope this book will help us be more patient, more kind and more ethical."

Within days, hundreds of letters and calls had poured into the *The Way To Happiness* Foundation in Moscow requesting more information and copies of the book.

The Way To Happiness Foundation in Moscow has delivered over 1600 special editions of the Russian *The Way To*

▲ Here you can see children in a local school study *The Way To Happiness* insert which was printed in flat sheets and then folded and cut and made into a booklet.

Happiness to government leaders and ministers, business leaders, university professors and directors of cultural institutions with overwhelming acceptance.

Endorsements and support for *The Way To Happiness* Campaign in Russia and the Commonwealth States have already been received from the Minister of Security of Russia, the Peoples Deputy of the Russian Federation, the Minister of Foreign Affairs and the President of the Commission on Crime and Justice of Ukraine as well as over 40 other leaders.

The People's Deputy of the Russian Federation said the following in his letter:

"Thank you very much for your book *The Way To Happiness*. I appreciate your noble aim to help young people to cope with the pressure of the complicated problems which surround them. Your book appeals to our mind and soul; if we realize ourselves we'll understand the whole world, the source of life power is in our soul and your book helps to believe in it."

The Minister of Security of the Russian Federation, who is the head of several of the top intelligence organizations in Russia said this in a letter

received at *The Way To Happiness* Foundation: "I have read the book, *The Way To Happiness*. This book is very interesting to me. In our time and in Russian life this book is very helpful. Drugs are not good for people. They make people destroy their lives. These are the worst things and everyone has to help handle these problems. I wish your foundation good luck in your activities."

And another letter received from the Vice President of the large business enterprise stated:

"In this complex and historical period that Russia is experiencing today, finding itself in the light of social shocks of the 20th Century, it is extremely important for its citizens to receive a moral and humanitarian support. In the light of massive reconstructions in our society, downfall of false ideals and moral readjustments, the activities of your foundation are very timely and constructive. With genuine interest we familiarized ourselves with L. Ron Hubbard's book, *The Way To Happiness*. Its significance is hard to overestimate. In our opinion, this book contains in itself centuries of human wisdom."

Hundreds of thousands of Russian people are now discovering the basic moral code contained in *The Way To Happiness* for the first time. More printings of *The Way To Happiness* are now being done in order to fill the demand for the book and to bring happiness and survival for the several hundred million people in this portion of the world.

A student at Moscow University wrote in about *The Way To Happiness* and what it will do for the Russian people: "The L. Ron Hubbard Library is a wonderful place. I read my first book by L. Ron Hubbard, *The Way To Happiness*. I don't wonder any more how 40 million copies were printed in America, Africa, Europe and Asia. I think this book will be very helpful for Russian people. It will help them believe in themselves. I think you could spread Mr. Hubbard's books in Moscow as a special city program."

▲ TWTH Foundation Russia is receiving thousands of letters inquiring about the common sense moral code - *The Way To Happiness*.

Sports Leaders Endorse *The Way To Happiness*

▲ Barcelona gold medal winner receives a leatherbound copy of "The Way To Happiness."

Sports leaders concerned with declining ethical standards among athletes requested that *The Way To Happiness* books be distributed at the Olympic Summer games in Barcelona. Over 700 Olympic athletes and coaches from 55 nations received copies of *The Way To Happiness*.

Early this year *The Way To Happiness* Foundation introduced various heads of sports and Olympic organizations to the grassroots campaign and its messages of goodwill and competence. Many organizations responded very favorably to *The Way To Happiness* and endorsed the worldwide campaign.

These organizations included the British Olympic Association, the Union of European Football Associations, Olympian International and the Syrian Olympic Committee. Representatives were invited to promote the book to Olympians and other sports leaders by the World President of Olympian International, an organization promoting Olympian Ideals since 1964.

Over 700 special editions of *The Way To Happiness* were presented to Olympians and sports VIPs from around the world. Gold, Silver and Bronze Medalists along with other athletes, trainers and coaches from over 55 coun-

tries received copies of the book. Over 250 of the books, in English, Spanish, German and Russian were given to the athletes and officials through individual presentations that awarded the Olympians for their competence in their field. Each of the presentations was based on the precept "Be Competent" and promoted the Olympian messages of world peace and goodwill.

Special hardback and leatherbound editions were presented to General Secretaries, Presidents and Executives of 14 national and international Sports Federations and also to the heads of 19 separate National Olympic Committees including Russia, South Africa, Lithuania, Korea, Mexico, Kenya, Costa Rica, and Angola. The teams from Great Britain, Costa Rica and Fiji received copies of *The Way To Happiness* for all their coaches and athletes.

The General Secretary of the Union of European Football Associations made this statement about the campaign. "In view of the ever-increasing negative tendencies in sports, which we experience daily in the world of soccer, I am convinced that the thoughts contained in the inspirational book, *The Way To Happiness*, can make a positive influence for sportsmen and administrators alike."

And the World President of Olympian International made this statement: "The theme, philosophy and attitudes of *The Way To Happiness* reflect my beliefs and principles. I encourage you to print and circulate this book throughout the world in the interest of love, peace and harmony to mankind."

Companies Adopt *The Way to Happiness* as

Special contracts are now available which enable companies to adopt TWTH as their own and reprint copies for distribution with their company logo. Over 70 companies have now signed up on this program.

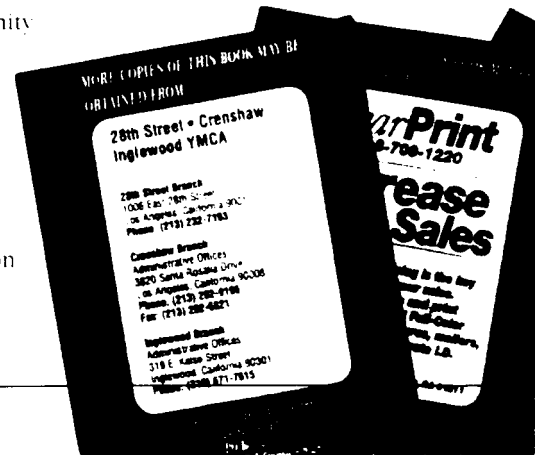

In other methods of reaching the broad public, many newspapers this year have inserted copies of *The Way To Happiness* for their readership.

Papers included are: • Hollywood Today • Glendale New Press • LA

Centinel • El Universal • Community Clipper • Sobesednik (the Russian paper) • and Arguments & Facts.

South African police are distributing 115,000 copies of TWTH to all their police officers.

There are now more than 46 million copies of *The Way To Happiness* in worldwide distribution in 41 countries and 16 languages.

Applied Scholastics Brings Study Technology to the World...

In its 20th year, the number of Applied Scholastics groups grew from 135 to 181 in 25 countries around the world.

There are now 24,015 teachers throughout the world who have been trained on L. Ron Hubbard Study Technology — and over three million people who have participated in Applied Scholastics programs.

In the last year, there were 13,278 completions on the Applied Scholastics lineup of courses. In South Africa alone, Education Alive—South Africa's Applied Scholastics program—has introduced LRH Study Tech to 14,462 seminar attendees in the past year.

Recently ninety-one teachers and over 500 children were trained in Uganda on new study courses including the *Basic Study Manual*.

Here is an example of the response from Uganda's teachers: "All in all what I have learned will help me greatly in my profession as a teacher and I promise to use every bit I have

▲ Uganda teachers on break during their *Communicating is Fun* course.

learned on the course to benefit others for the sake of unity and peace and to promote the work of L. Ron Hubbard.

"I commend L. Ron Hubbard for his wonderful research whose work has enabled me to learn a lot."

Applied Scholastics opens in Japan!

A new Applied Scholastics center is now operating in Japan. A kindergarten teacher had this to say:

"Today I realized that study is the way it is explained here and not any other way.

"In school, teachers tell the students 'This is the way it is' but most important is to understand it ourselves, to think for ourselves, how to use the data, and get more information about it. This is the way to study.

"Today was the first time in my life I studied this way and now I have lots of new ideas on study."

▲ Japanese students are introduced to LRH's Study Technology at the new Applied Scholastics center in Japan.

LRH Educational Technology Becomes Required Training in China

The Kunming Teacher College this year mandated that all teachers in the area receive training on LRH Study Technology. This training is part of an on-going Applied Scholastics program to introduce the new technology of learning into China.

Personnel from the People's Education Press (the official Chinese school textbook publisher) who were earlier trained on L.Ron Hubbard's Study Technology, began rewriting China's school textbooks this year utilizing Study Technology. As a result an estimated 2 million students are now applying LRH Study Tech in China and over 5000 teachers are trained.

In Shanghai, the State Education Commission's "China TV Teacher's College" arranged with the Putuo District Education Bureau for delivery of English language courses to 100 elementary, junior high and senior high school teachers using Study Technology. The Director of the Shanghai Education Bureau - the state's highest ranking education official - attended the graduation, which received broad radio and press coverage, including one interview that reached 50 million people.

And, in the Yunnan provincial capital of Kunming, junior high school English teachers are now required by the City's Education Bureau to use LRH texts for their teacher training. This summer 500 teachers studied the Chinese version of *The Learning Book* as a key text in their annual teacher training program.

Fu Daming, one of the original Chinese teachers trained on Applied Scholastics materials at Delphi Oregon, wrote the following:

"Since I returned to China, I've been mainly using word clearing in my teaching. But the result is obvious. For two years in succession the classes I taught have ranked first in the city in the national college entrance tests. The

result of this year was even more encouraging. Out of the 54 students in my class 46 got a score over 80, of which 6 were over 90, the highest score was 95. Of

This summer 500 teachers studied the Chinese version of The Learning Book as a key text in their annual teacher training program.

course education doesn't mean test scores. But such a result is enough and more typical to prove the workability of the Study Tech in the class room of any kind.

"This semester I've been moved to the Teaching Scientific Research Office of the City Education Bureau. I've been put in charge of the research work of English teaching. The topic I've chosen is 'Applying L. Ron Hubbard's Study Tech in EFL (English as a Foreign Language) Teaching in China's middle school classrooms.' The experiment is now well under way. Both the teacher chosen to make the experiment and I are full of confidence in our future success. So far as I know this is the first experiment being made systematically in the middle school classroom across the country applying the Study Tech."

▼ Chinese translators from Beijing are completing translations of the Study Technology books at Applied Scholastics International.

Grassroots Study Technology Program Produces Daily Miracles

LRH's Study Tech is reaching into the inner cities of America to address the problems of illiteracy, homelessness, and gangs. Over 120 once-illiterate youth and adults in South Central Los Angeles are now not only reading and writing but beginning to tutor others as part of a grassroots literacy crusade.

One man who was unemployed and homeless, completed the LRH Basic Study Manual. This helped him to pass a test with very high scores and become eligible for full time training as a nurse! He is now employed for the first time in years and he contributes every weekend at the Applied Scholastics project, helping others experience similar wins.

Many of the participants on the program have begun to experience wins for the first time in years. One sullen and despondent man who was homeless, smiled for the first time, after doing communication drills. He commented "This is the first time I have laughed in three years." He then joined up to help others find a new life using Study Technology.

Tutors report zero discipline problems to deal with. Children are interested and bright. The community's

observers commonly remark that all the students look very much into what they are doing, and they are *alive* and happy.

The ministers who initially requested Applied Scholastics' help have observed the program closely. They see the change. They remark every week that the program has raised the hope factor for community youth. They attribute this to Applied Scholastics' personnel and tutors acknowledging students, communicating without invalidation and evaluation, and standardly word clearing at the slightest sign of misunderstandings.

One girl on the *Basic Study Manual* course returned to her school and a teacher who said that the dictionary wasn't important. The new student told her it was very important, as one had to know the meaning of words. The teacher told her that you can't always get the full meaning of words from the dictionary. The girl told the teacher that you can get the meaning of words *if you look up the words in the definitions!* The teacher had nothing further to say on the matter and the rest of the class supported the girl in the discussion.

LRH Study Technology Now Available for Children!

The newly released LRH children's Study Tech books have proven to be wildly popular and in demand.

Learning How to Learn, Study Skills For Life, Grammar and Communication, How to Use a Dictionary, and Communicating Is Fun have now all been made broadly available.

One community leader stated: "The books are essential to the development of mankind.

"They are simple and profound in their ability to empower the community

▲ Above: Students in Compton, California study the new children's Study Tech courses.

▲ Left: Young students learn to read and write and become able to study as part of the grassroots literacy program.

to learn how to learn. They are a monumental tool for those who desire to learn how to learn and how to teach."

A Catholic school wrote in to say that since implementing the books in their school, the students were able to win five diplomas at the Academic Olympics Contest sponsored by the local diocese.

There is a huge demand for them outside the United States as well. Foreign publishers in 21 countries have signed contracts to publish the new books in 13 different languages. These countries include Chile, Argentina, Uruguay, Paraguay, Bolivia, Peru, Columbia, Venezuela, Sri Lanka, Czechoslovakia, and Egypt.

The first such release has been printed by a major children's book publisher in Singapore.

LRH's Technology Reaches into Prisons...

Earlier this year, San Quentin was the site of a Hollywood movie production. An ABLE Field representative who was working with the film crew, got into communication with one of the inmates. This man just 37 years old had spent 15 years of his life, since age 14, behind prison bars as a result of his drug abuse and related crimes. His future predicted an unchanging pattern. The field representative introduced him to LRH's technology.

The man, Eddie McMillan, has since been released from prison and completed the Narconon program at Narconon Los Angeles and is now on staff at Criminon International.

Upon completing the program Eddie wrote: "My whole life was nothing but drugs and crime. I never knew there was any other way. I have been in many programs but they didn't work. But Criminon was different. Because of L. Ron Hubbard's technology I know I can reach any goal I want to. I want to give other people in prison the same wins I have had. They think their habits and their way of life is a disease and there is no way of changing it. But I am living proof that a person caught up in crime and drugs, who ends up in prison can change and Criminon can show them the way. LRH technology saved my life! I only wish I had known about it sooner."

Criminon™ Prison Programs Expand

Due to the success of running the *The Way To Happiness* Extension Course in prisons, Criminon has expanded and is offering the Learning Improvement Course as a pilot for the inmates who had completed *The Way To Happiness*. The pilot started with 20 prisoners and is going very well. One of the recent individual successes is as follows:

"I am presently attending Chapman University and Patton College and working full time as a clerical clerk, electronic

repair of medical monitors equipment in prison.

"The program 'The Learning Improvement Extension Course' has been instrumental in my ability to participate and succeed in these endeavors. One of the many benefits I have garnered from this program is to realize that my studies are only important if I am able to apply the data. That is why I can read and comprehend my studies.

"I am full of questions, good humor and enthusiastic in class. I apply my studies with a hands on approach. I am an avid practitioner of the word clearing technique that I learned from my studies in the Learning Improvement Extension Course.

"On the front of my notebook, I inscribed these words by L. Ron Hubbard: 'One doesn't learn about life by sitting in an ivory tower thinking about it. One learns about life by being part of it. That is how I chose to live my life, actively being part of life. Thank you for giving me a foundation in learning.'" C.S.

Demand for L. Ron Hubbard's technology by prison officials has resulted in more and more educational and rehabilitation programs being run inside institutions for people of all ages. At Juvenile Hall in Los Angeles, Criminon has been helping teenage girls, convicted of crimes, find a new way of life.

A correctional center in Susanville, California has requested Criminon to train its drug rehab counselors. They have launched a fund raising campaign to help fund Criminon programs at their facility. A top official recently wrote in stating:

"I am sure that Narconon and Criminon would be major contributors to helping our inmates reenter society as productive and viable citizens. We must find a way to incorporate and implement them in the vast and growing correction system."

Criminon continues to grow and has now expanded into more than 200 prisons in the United States, United Kingdom, Italy, and Africa.

▼ Criminon staff member Eddie McMillan gives lectures in local schools on the dangers of drug abuse.

Handling Drugs Across the Planet

Students from all over the world train at Chilocco to expand Narconon®...

Trainees from all over the world are now studying at the International Training School at Chilocco to open new Narconon centers and expand existing ones. This includes trainees from Mexico, Colombia, Israel, Australia, Sweden, Spain, Portugal and Italy.

Narconon Chilocco is now moving into its next major phase of expansion which includes the renovation of major training facilities on the campus and additional housing and administrative space.

Narconon Chilocco won a lengthy battle against suppressive elements who had vested interests in drugs and psychiatry. In October, they received full recognition and award of an official license to operate as a drug and alcohol rehabilitation center from the Oklahoma State Department of Health.

▼ *The President of Narconon International and the President of Narconon Europe outside the new Narconon building in Moscow.*

▲ *Students at the Narconon Chilocco New Life Center study LRH's drug rehabilitation technology.*

Narconon Acceptances Around the World

Narconon in Spain won its major legal case which had been pending since 1988, and received their official recognition which opened up government funding.

Narconon Denmark received their official license this year and Narconon Spain, after receiving a court ruling by a judge in September this year became officially accredited. They are now receiving government funding and support.

And in Russia a new facility is being built outside of Moscow to house Russia's first Narconon which is scheduled to open early in the new year. This year over 500 million Russian listeners were introduced to Narconon through radio and television shows broadcast in Russia.

The new Narconon training materials have now started into pilot. This includes three new books so that anyone can train to open and run a Narconon—*How to Start a Narconon, How to Control and Administer a Narconon, The Narconon Basic Staff Hat.*

Ten new Narconons have started in the past year. The new Narconon in Northern California received its license to deliver and also became fully state certified.

Today there are 40 Narconons in 13 countries. 25,000 people have taken advantage of Narconon services.

In Australia, leading popular singer Kate Ceberano became the national spokesperson for Narconon and held her first benefit concert that raised \$10,000.

Drug Rehabilitation Expert Joins Narconon Ranks

William Kent McGregor is no stranger to the field of drug rehabilitation. He has worked in the field for

▲ Kent McGregor, drug rehabilitation specialist, endorses LRH rehabilitation technology.

over 25 years, headed up a single state agency and has worked as a licensed and accredited social worker as well as a consultant.

Kent became introduced to Narconon when he engaged in inspections of the Narconon Chilocco New Life Center which led to its full, official accreditation by CARF—the Commission on the Accreditation of Rehabilitation Facilities.

After this inspection Mr. McGregor stated: "Over the past twenty years, I have been personally and professionally involved in alcohol and other drug rehabilitation. I have been a direct contact clinician, an administrator of alcohol and drug rehabilitation programs, and director of all state funded programs in New Mexico, on the faculty of a medical school, and a national trainer and evaluator of prevention and rehabilitation service delivery.

"I have explored all of the different types of treatment that are being done for the substance abuse problem and felt

frustrated by my findings. I investigated success rates of well-managed programs, and felt that there must be some better way to deal with these addictions. I knew there needed to be a better technology to handle this problem.

"My discovery of the Narconon program answered many of my frustrations. This program leaves no gap in the handling of the addicted client and gives the graduate an opportunity to have the power within himself to begin a new life that is alcohol and drug free. I was astounded by the remarkable changes that occur within the Narconon rehabilitation process.

"I have been to some of the high-powered programs in the nation and I can say, unequivocally, that what you are doing here is better than anything I have seen anywhere else."

Kent now works for the Association for Better Living and Education, introducing Narconon to other top officials and opinion leaders in the field

Celebrity Support for Narconon Increases

National Red Ribbon week (an anti-drug week celebrated across the United States) was kicked off this year by the annual Narconon Celebrity All-Stars Game—bigger and better than ever.

Major celebrities from movie and television including Kirstie Alley and the stars of "Cheers" Ted Danson, Rhea Perlman and John Ratzenberger, John Travolta, Kelly Preston, Parker Stevenson, Carlos Palomino, Chrystal Bernard (*Wings*), Wild Bill Mock, Gilbey Clark (*Guns n' Roses*), Billy Sheehan, Lori Petty (*A League of Their Own*), Pamela & Paula Mattioli (*from the band Cell Mates*), and Lee Purcell, as well as stars from well known rock bands turned out to support the drug free message and play ball.

Over 2,500 fans attended the game and the proceeds went to support Narconon's very popular Drug Education programs.

The game received wide national publicity on media including Home Box Office, Entertainment Tonight, and E! Entertainment.
