FLAG THE BEST KEEPS GETTING BETTER

A new FLAG Advanced Org, instant arrival lines, instant testing lines, four LRH Hosts, Grand FLAG Graduation – these are just some of the new exciting improvements!

Recently, tremendous work has been done by International Management and the staff and executives at Flag to improve Flag in many and varied ways.

What are the improvements? On the following pages are details about the improvements at Flag and what you can expect when you come to Flag.

- To the right, on pages 4 and 5, find out what has changed on the arrival lines at Flag.
- On the fold-out that follows, you will be introduced to the new FLAG Advanced Organization, and the reorganized FLAG Technical Divisions. Find out what the reorganization means for *you*.
- Flag is a big place. On page 12 you'll see what we've done to help you make your way around Flag and get excellent service.
- LRH established the LRH Host on Flag in the 1970s to make sure every preclear and student at Flag received top service. This area has been expanded. Find out what this means for you on page 13.
- Last but definitely not least, on page 14 you'll learn about FLAG Graduation.

**YOU'RE WELL
CARED FOR, FROM
THE MOMENT YOU

After you have been picked up by the FLAG van at the airport, you will go straight to the FLAG Land Base. When you arrive at Flag, one of the first people who will greet you is the LRH Host, who will help you get oriented to Flag and will introduce you around to the staff who will see you get swiftly onto your services.

Every SCIENTOLOGIST™ coming to Flag is important, a VIP (Very Important Person), and this is evident right from arrival in Tampa at Tampa International Airport. As long as we at Flag know someone is coming to Flag, they will be met when they arrive. (This is easily handled

THE BEST GETS BETTER

Flag is a BIG place, delivering SCIENTOLOGY® and DIANETICS® training and auditing to over one thousand SCIENTOLOGISTS at any given time. Speed of service is almost as important as Flag's 100% standard delivery. To speed up service and streamline the organization, Flag's Tech Divs have been reorganized.

Until recently, Flag had three Technical Divisions. The organization has now been

streamlined to two Tech Divs. The org boards for these divisions are on the next two pages.

One of the exciting improvements is now all OT® services from Solo Course Part One through New OT VII SOLO NOTS® Auditing are in one Division – and in one location in the Sandcastle Delivery Building! There is more on this area and its services on page 7.

Delivering auditing below OT levels, L Rundowns and all technical and admin courses

Tech Div Four has three delivery departments:

THE HUBBARD® COLLEGE OF IMPROVEMENT

Located in the Coachman Building, a few steps away from the Fort Harrison, are different courserooms

delivering the full range of technical training on the Grade Chart from Professional TRs up to Class XII auditor training. All of Flag's technical and administrative training services are located in Department 11 of Division Four.

DEPARTMENT OF GRADES AND CASE RESOLUTION PROCESSING

Department 12, Department of Grades and Case Resolution Processing, delivers all auditing up to Clear including the PURIFICATION RUNDOWN®, Case Cracking and all of the Flag-only Case Resolution Rundowns. Also delivered

DEPARTMENT OF L RUNDOWNS PROCESSING

Also located in the Fort Harrison, this is the home of the famous L Rundowns, delivered by the world's most highly trained auditors – Class XIIs. There are two HGCs in Department 12-1, both delivering all three of the powerful L Rundowns. The first HGC delivers Ls to Grade IVs up to New OT IVs. The L Rundowns can be delivered to New OT VIII completions and the second Ls HGC specializes in delivery to New OT VIIIs; the Class XIIs in this HGC are also New OT VIII completions.

There is plenty to do in the Fort Harrison between sessions. Division Four has a Special Schedules Course section with a courseroom located close to the HGCs. Delivered here are SCIENTOLOGY auditing courses.

Between sessions, you can also relax by the pool, in the FCCI* Lounge, or in your room in the Fort Harrison.

THE FLAG ADVANCED ORGANIZATION DIVISION FOUR A

With this new Technical Division, all OT Levels services are in one division and are in one location in the Sandcastle

As soon as you are ready to embark on your journey up the OT Levels, you will go to the Sandcastle Delivery Building, home of the new FLAG Advanced Organization.

Here you can study and audit and live in an environment that is completely geared to the needs of the pre-OT. The Sandcastle Hotel connects to the Sandcastle Delivery Building and features rooms that are specially designed with Solo auditing in mind: they feature a desk designed and built to be the perfect height for Solo auditing. It has a drawer built to hold legal size paper and an adjustable desk lamp.

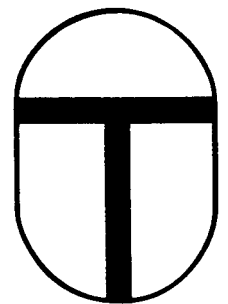

The Sandcastle Delivery Building was completed in 1991 and originally housed the courserooms for New OT VI and the Home HGC for New OT VII Solo NOTs Auditors.

In 1993, the facilities were considerably expanded so

that pre-OTs could go all the way up the OT Levels without having to move between buildings.

Beginning in the main lobby, the Sandcastle Delivery Building is a symphony of lights, with ceilings that seem to reach to infinity. Paintings displayed throughout the building and connecting Sandcastle Hotel were donated by internationally renowned SCIENTOLOGY artists.

In this magnificent building are all services from Solo Part One through New OT VII SOLO NOTs' Auditing.

On the first floor are the Solo courserooms delivering Solo Part One and Two, and New OT VI Part A. Also on the first floor are the theory courserooms for R6EW, the Clearing Course, New OT I, OT II and OT III and New OT VI Part B.

The gateway to the OT Levels, HUBBARD Solo Auditor Course Part One, is now delivered in one of the most beautiful courserooms in the world at the Sandcastle! This is the perfect beginning for a Clear's journey to OT. With high sculpted ceilings, the courseroom gives the feeling of freedom and flight.

FLAG THE BEST GETTING TO KNOW FLAG

Flag is BIG, with nearly a dozen buildings and many hundreds of SCIENTOLOGISTS. In fact, Flag is the biggest community of SCIENTOLOGISTS and OTs on the planet.

The staff at Flag make a special effort to make every SCIENTOLOGIST coming to Flag welcome and comfortable.

Particular attention is paid to helping guests get oriented to Flag's buildings, spaces, lines and posts.

To assist with this, a new Welcome to Flag pack has

The Accommodations Counselor will help you pick a comfortable, even luxurious, room that suits your needs.

been produced to give to each person arriving at Flag.

The Welcome to Flag pack gives details of the org schedule, maps and building floor plans, and other data on where to find things.

Telephone numbers for areas within the org that you may need to call are part of the pack.

Those arriving at Flag are greeted by the LRH Host who

will introduce them around and help them feel at home.

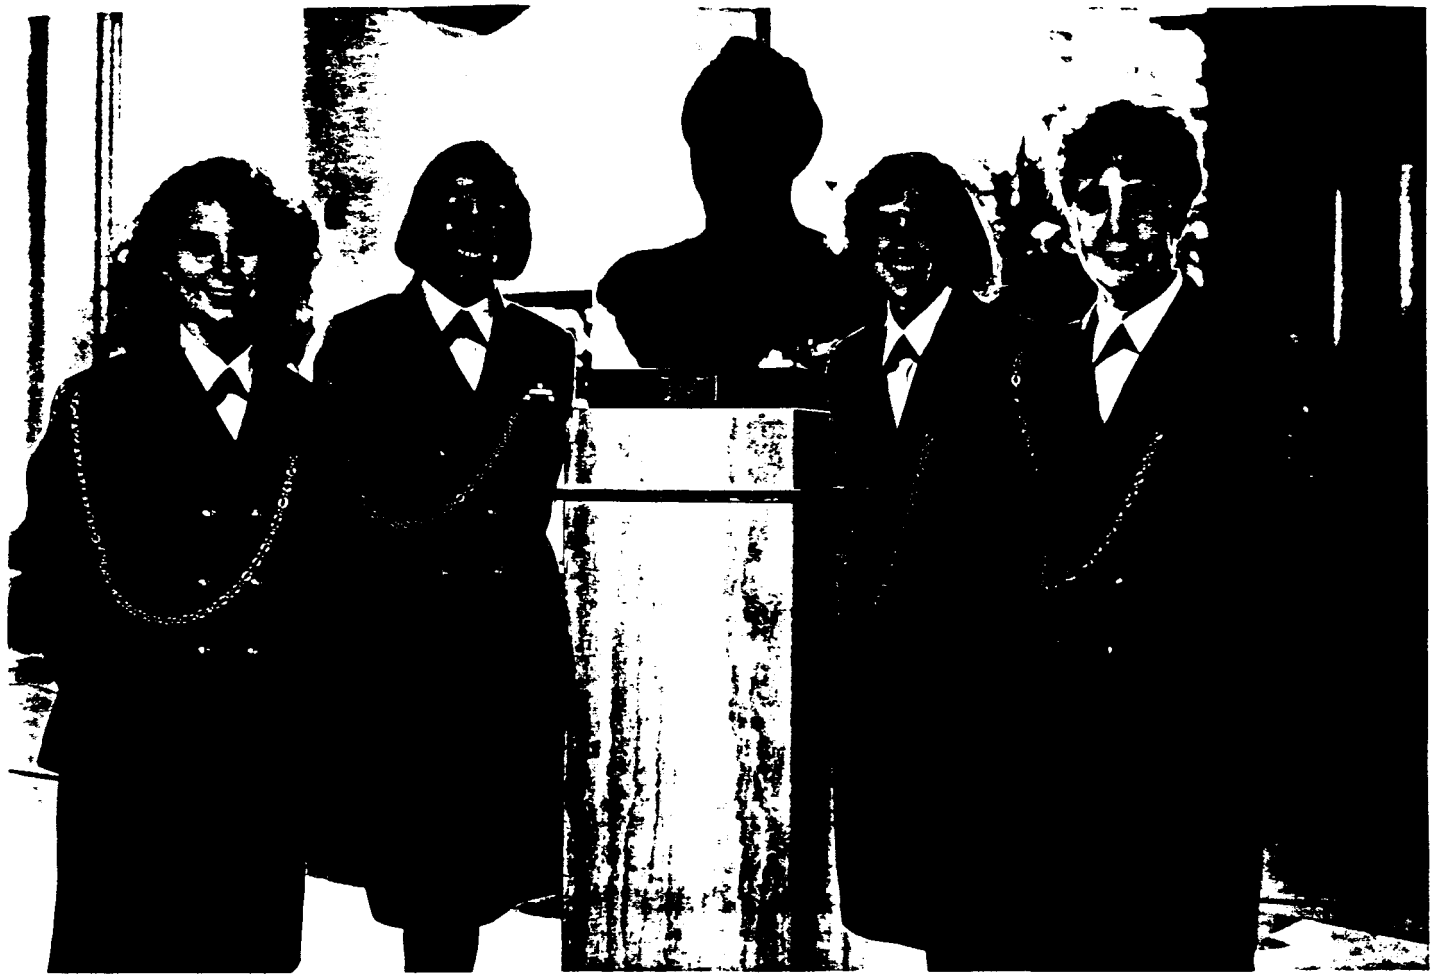

There are several other people at Flag who are there to help make each guest's stay enjoyable and distraction free.

The Accommodations Counselor makes sure every guest's hotel room is exactly to their liking, and will take care of every need during one's stay at Flag. At Flag, part of the service is to ensure one's hotel room is located close to the service lines for convenience and speed of service.

The Hotel Concierge can help rent a car, get clothes laundered or dry cleaned, rent a tuxedo for an event, or any number of services.

The Social Director is there to make every guest's stay enjoyable. She can arrange excursions to the many local attractions around Clearwater or any part of Florida. Disneyworld and Epcot Center are two popular attractions.

The whole FLAG team is dedicated to providing you with the best there is in service and personal care, to make your stay comfortable and enjoyable.

THE BEST GETS BETTER

THE LRH HOSTS

There are four LRH Hosts at Flag whose only job is to ensure that every preclear and every student gets excellent service.

One of the first people you will meet at Flag is the LRH Host, who will welcome you to the FLAG Land Base. If you are new to Flag, the Host will introduce you around so you immediately feel at home.

The LRH Host was established by Ron on board the Flagship *Apollo* with the purpose of ensuring all FLAG public had someone to turn to if they had questions or if they encountered any problems with their service. Flag is and always will be

Ron's org, and the LRH Host represents the Office of LRH in this regard.

There are now four LRH Hosts at Flag, including one for each main FLAG delivery building – the Fort Harrison, the Sandcastle and the Coachman.

The LRH Host ensures that all those arriving at Flag are comfortably settled into their room, are oriented to the FLAG spaces and the surrounding area, and get started on services rapidly.

The LRH Host keeps in close communication and

monitors the progress of every individual at Flag.

The LRH Hosts help you get oriented and familiar with the service lines and the staff who will be taking care of you.

The LRH Hosts can help you get onto your services rapidly and smoothly.

FLAG Graduation. It's the talk of the SCIENTOLOGY world! Every Friday night at 9:00pm, the 1,500-seat Fort Harrison Auditorium is packed to "standing room only" with SCIENTOLOGISTS who are at Flag for services and who live in the local area, in anticipation of a huge dose of theta and the latest news of

what is happening in SCIENTOLOGY across the world.

Flag does it right: each graduation is a first class event in its own right!

The expansion news is a very popular part of the graduation. There is always the latest exciting expansion news and wins from around the world. What's happening in and about SCIENTOLOGY and DIANETICS in Pakistan? Russia? Ghana? Washington, D.C.? Clearwater, Florida?

Specially acknowledged at the graduation, with magnificent framed certificates and flowers, are all those who have gone

Clear and completed pre-OT Levels, all L Rundowns completions, and all completed on major technical and administrative courses or internships. At graduation the real excitement is the rave success speeches given by graduates.

Here is what SCIENTOLOGISTS are saying about FLAG Graduation

"It was awesome and totally theta! I have never had as many tear-jerking moments at a FLAG event! I loved it when people told their wins

"I think that the flowers and certificates are a great acknowledgement. I love the fact that I can get in comm

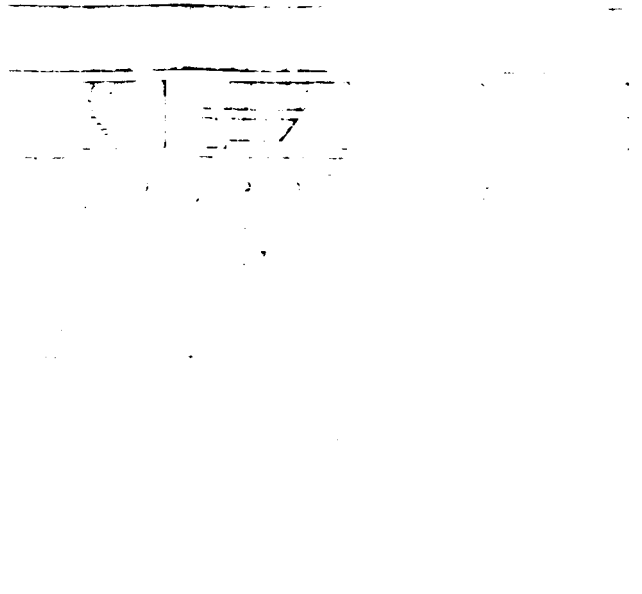

with a lot of other
SCIENTOLOGISTS after the
graduations. It really makes
Flag "The Friendliest Place in
the Whole World."

"I was supposed to go to
Los Angeles for ten days to
take a job position and the
reason I didn't want to go
was graduation."

"I loved the wins of other
SCIENTOLOGISTS - it zooms you
up the Tone Scale!"

"Tonight was totally
awesome! I was so blown out
just listening to the wins of
SCIENTOLOGISTS. SCIENTOLOGISTS
are the leaders of the future
of the world!"

THE THETAN & ETHICS

by L. Ron Hubbard

A person elects himself out of the human race by various means, and after a while, he just goes down on the dynamics. In view of the fact that he is in agreement already that he is part of all these dynamics, then an election *out* of the dynamics brings about a circumstance whereby he is denying his own agreements. In other words, he is forced to violate his contracts.

The contracts, you could say, are the eight dynamics. "I will be faithful unto..." across the boards. A thetan, basically, is an individual, and then he makes these contracts across the boards, and one fine day somebody elects him off of one of these things. Well, that's a breach of contract, which means a denial of his own word. This is the decay of ethics. In view of the fact that he's agreed to be part of this big game all up and down the dynamics, a denial of that agreement reacts seriously upon him.

What I **have** just told you is a disentanglement of a great many misconceptions which are held in the Himalayas and in many schools of thought and beingness.

People have never before even delineated these dynamics, and they have never looked above them. They conceived that a person *was* – get the factuality here that they thought took place – *was* only a part of an allness.

You've heard this expressed many ways. "We aren't individuals really; we're all part of a big spinning pool of something or other."

Nothing could be less factual. That whole idea of the big thetan and "we're all one" and the "oneness of everything" and "you are everything, and everything is you," and that sort of thing, is simply an observation of these series of agreements which evolve into the eight dynamics. A person then believes that these series of agreements called the eight dynamics are fact, and that is the composition of the universe. No, that isn't the composition of the universe; that is merely a series of agreements made by an individual.

Having agreed to do something, the individual is made to deny his own word. He backs out someplace. It makes him feel bad, makes other people feel bad. They protest against this, and they say this shouldn't be. This fellow then goes downscale. He says, "I can't keep my word."

Actually, a thetan is a very ethical being. His ethical sense is tremendously high. It couldn't be otherwise. It's a rather pathetic thing the way a person gets into a trap. He gives his word, he agrees to be part of, he's there. And only by his own ethical sense does he continue to be in that trap.

It's a very interesting rebuttal against the concept, such as Plato's, that all men are bad and some are worse and some are worse than that even, and some are politicians. Plato's ideas concerning this are fantastic.

Only after a person has broken his word with an agreement does he go bad, you might say – does he react badly?

A thetan can, at any moment, reassert his own individuality and separateness from everything and anything. He does this every time his body dies. He says, "I'm not further responsible for that," and there he goes. Doesn't even remember it. That's the way he normally tackles the situation in this day and age. When he loses the mass, he also loses the agreements that held him to that life.

There is an exact instant at death where a person will attempt to complete all cycles of action. If a person is given some kind of warning, and if he is not in such bad shape that he can no longer control his body, he'll just work like mad to finish off some of these cycles of action. And right next door to that instant is the abandonment of all of them.

When he abandons them, he feels bad. He agreed to do certain things. It now becomes impossible. He no longer has a body to push

continued on page 14

around that people will talk to. And he backs out. He feels so bad, he actually goes right on downscale. And that accounts for your forgetfulness.

But he can do this. That is what is interesting. He becomes an individuality; he doesn't become part of a swimming pool of non-identity. He doesn't step off into a buttered-all-over-the-universe situation. He becomes himself.

The only thing wrong with a thetan is truth. It's very fabulous. Everything that is wrong with a thetan is a harmonic on being a thetan.

Games conditions were all lies. No-games conditions are all truths. Quite interesting, isn't it? You look down the no-games-condition lists in *Scientology: Fundamentals of Thought* and you'll find out that every single one of them, he is. This is what's wrong with him; he is what he is.

One of the big tricks that everybody plays on everyone is to say, "Well, you have to be what you are. Don't try to be anything else." If you don't try to be something else, you aren't. Just as there are no other problems than other people's problems – there are no problems of yours; you have to misown a problem before it can be a problem to you – so it is also true that a thetan, without postulating himself into some form of beingness, isn't.

He does have awareness, does have knowingness. He does have the capability of remembering. He has tremendous capabilities. But to say that he *is* something – by which you would mean, he has an identity – no, this isn't true. He has to invent or assume an invented identity before he has an identity.

What is this that causes him to be so anxious? Why does he have to have a game in the first place? And that question we really can't answer. You might say it's just the nature of the beast, but that's sort of getting rid of the whole problem without doing anything about it. Just why, I wouldn't know.

What is this anxiety he has to be "part of" when it's obviously so bad for him? Well, of course, he goes on a theory that nothing can hurt him, because that is the truth. Nothing can hurt a thetan. That is what's wrong with him: no effect on self.

So here he is. He assumes – invents, pledges his word, makes compacts – this broad agreement we now call the eight dynamics. And then, one by one, he falls off of these things. He is to that degree cheating.

Let's take a wider look than just a thetan dying and reassuming his identity. There it has become impossible for him to continue. He has this, to that degree, in his favor: it is not possible for him to continue a game, which requires bodies, without a body. Game requires bodies, he hasn't got a body, so he can't continue the game. Well, he can't be responsible for that, can he?

That is the thetan's answer to breaking a contract. He'll hold a contract until he conceives it to be utterly impossible for him to do anything else. He will remain father of a family or a teacher, or something else, until it becomes impossible for him to do anything else. He will remain what beingness has been assumed. He'll retain that – until by his consideration it's impossible for him.

Death itself is manufactured out of that. He said, "I'm not responsible for any of this."

That's absolutely true. He has no real responsibility for it, and it's not important. That it is important, that he is responsible for it, are both lies. But remember, he's given his word to be responsible for them. He's given his word to stand fast to these eight dynamics. Having given his word, to say "Now I am not responsible for them" is a breach of contract. It's a denial of self.

You get the picture of a thetan playing a game for a short time, and then not playing a game, and playing a game and not playing a game, playing a game and not playing a game; we get our dwindling spiral. Because every time he agrees to play a game, he sets up a liability or potentiality out of the consideration that he must not break his word.

And then he lets other forces break his word for him. *He* doesn't break his word; he makes other things break his word. "The bullet came from nowhere." "I don't know how I lost that body." "It was a perfectly innocent glass of milk. After it was drunk, I did notice that it had a thick scum of arsenic in the bottom of it. But here I lie, dying." As the body kicks off, "What could I have done?"

Let's get wicked. Let's get mean. Let's get critical. You mean to say that something which has the potentiality of total knowingness can't sense arsenic in a glass of milk? You mean to tell me that somebody who has the basic ability to predict the entire future didn't know that the space that body was occupying was also going to be occupied by a fast-traveling bullet?

A thetan makes a great deal of fetish about this. He says, "Well, I don't know sometimes. Sometimes there is a sixth sense. I just have a

feeling like a..." Well, there he goes. He's making a continual alibi. And he's saying, "There goes my responsibilities. There goes my responsibilities. I was overwhelmed."

Confidentially, how can a thetan be overwhelmed? No mass, no other meaning than invented meaning, no wavelength, not even a location in space – and he can be overwhelmed? Now, just a minute! That's a paradox! It isn't possible! Ah, but it must be possible because it happens all the time.

Under what category comes that possibility? Just under one category, I'm afraid. The category of "postulated to be so, by the person." Ah, we run into this all the time auditing people. A fellow hurt his hand. You audit him a little while on hurting his hand, he suddenly remembers postulating to hurt his hand. We run into this rather continually. Very often in rendering assists to people, this postulate that this accident was going to occur restimulates and runs out. You've all seen that; had some notion about that.

That's what we call an obsessive game condition. The insistence – unknowing insistence – upon a sequence of events. That's an unknowing games condition. The individual has gotten himself into this trouble and he says he's not in this trouble.

Well, let me assure you, that if you make a postulate and then say somebody else made it, or it was the Fates, it's not going to erase. The whole principle of misownership looms before us at this moment. *The proper authorship of a postulate or a mass must be established in order to totally vanish that mass*

It's a funny thing that a thetan is not really responsible for anything. He's only responsible for things he says he's responsible for. He's got to say he's responsible for something before he's responsible for it. Or he's got to agree with somebody who says he's responsible.

Above the level of mocking up the universe, there is no responsibility. Even after you've mocked something up, there is no implicit responsibility unless one says there is. And when you talk about responsibility, you're talking about ownership. You're also talking about authorship of the situation or the mock-up. And isn't it funny to look down at the other end of the spectrum and find out that insanity is extreme irresponsibility. In other words, a thetan is insisting upon his own state to such a degree that he now can't insist on anything.

Anything that is wrong with a thetan, is being a thetan. Evidently, he can't stand his own beingness to some degree, because it isn't. It's an odd, odd little paradox. As I say, that's the one philosophical paradox: Why can't he sit on cloud nine? What does he have to do things for? Why does he have to charge around, getting into this and getting into that? What's this all about?

We can tell you what it's all about, except just that one little, tiny item. We do observe that he does do it. So our philosophical concern is possibly nonsensical. It's perfectly observable that he does enter into games and he won't stay out of them. And having entered into one, he denies himself, he denies his own postulates and agreements, the moment he withdraws from it. And when

he withdraws from it, he goes bad – as far as the remainder of his environment is concerned. That is the dwindling spiral.

One enters a game, he's going to do something with the game, and then something comes along and kicks him out. And that is the cycle – it's the game condition and no-game condition, the game condition, no-game condition. It just goes between those two things: a game condition, no-game condition.

Which one do you process? Well, you'd be very, very foolish to process a no-game condition. There isn't anything there to process.

The only thing that is in existence which can be processed, really, effectively, is a series of game conditions, which is this action to enter the game, action to enter the game, action to enter the game.

Now you say, "Withdrawals from the game – how about those?" Well, they run out just under this same heading. Action to enter the game inevitably carries with it the connotation that one will leave the game. "Don't stay in games forever": No thetan ever seems to have postulated that. He doesn't seem to have any understanding of this at all. Every game he enters, he enters forever.

Why does he enter everything forever? Well, that's the nature of the beast. The *thetan* is the survivor; the universe and the game are transitory. They're very temporary.

You look at this MEST universe and you say, "Boy, is this MEST universe

Three SCIENTOLOGISTS from across the world describe their wins from FLAG standard tech

Lindie Heasler, a writer from Denver, closed out her apartment, packed her car and moved with her daughter to Flag to get up *THE BRIDGE* to New OT VII.

She described her wins after attesting to Clear. "I'm really Clear. But I saw how important it is to go right from Clear to OT III. The path looks so laid out to me and so clear with all these terminals that will help me get there, that it seemed so important to let everybody else know - don't do it later, do it now! Everything is available for you right now; whatever stops come up, there aren't any there to help you; these stops out of your way."

"I really saw that before Clear, it's hard to operate on this planet. It really is. There's just so much around you that's trying to stop you and trying to hold you down."

Lindie, who is a mother of four, is also determined to get her children up to Clear as well. "I am a mom and I have a hat to wear - they need to be fed and clothed. It became really clear to me that they need to be Clear, too. Because of the CLEAR CERTAINTY RUNDOWN and the OT Preparations auditing I received, I am really determined that my children go Clear. It's vital that they go Clear and have that freedom, too. What an incredible thing to do."

Lindie particularly commented about the service at Flag. "It is fabulous. The staff *amaze* me. They've got everything handled so well

(top) Lindie Heasler from Denver, Colorado; (center) Nancy Owen from Santa Rosa, California; (bottom) Paul Bozzone from Valencia, Venezuela.

"I am very impressed with that. I must say that I feel really catered here. It is a wonderful experience. I was in the Hibiscus restaurant earlier and there are beautiful flowers everywhere. The aesthetics are so high here and I really appreciate that."

Lindie recommends that every SCIENTOLOGIST come to Flag now. "Get here. Don't delay. Do whatever it takes. The service and the auditing here are awesome. This is the place to be on all accounts."

"I have more affinity for SCIENTOLOGISTS than I've ever had before. Being here at Flag has really done that. Everywhere I go, I listen to different languages. My daughter is thirteen and she has all kinds of friends here. She attracts friends like a magnet. Some are teaching her French, some are teaching her Italian, some are teaching her Spanish. She's starting to live as a planetary being and it feels wonderful to me that she can be here in this upstat, very high-toned environment. I just think Flag has done a wonderful job of not only giving the best service I could have ever imagined, but providing a really neat environment and a really neat community and I just can't commend enough the staff here at Flag, and I just can't say enough about it."

Raul Bozzone, a medical doctor from Valencia, Venezuela, is the owner of nine clinics, all of which operate on LRH administrative technology and are staffed with SCIENTOLOGISTS. The stats, of course, are at an all-time high.

Raul is on his second visit to Flag and has progressed from NEW ERA DIANETICS auditing all the way to New OT V.

"When I started on New ERA DIANETICS, I felt like a blind man wandering in darkness. I am a completely different being now. I have a completely different view about life." Raul said about the changes he experienced at Flag.

"I arrived at Flag with my family. In less than four months, I went from New ERA DIANETICS auditing to being on New OT V, AUDITED NOTS. My wife is on New OT VII now. My son progressed on this trip up to New OT V and my other son is now on the CLEAR CERTAINTY RUNDOWN. Every member of our family changed dramatically on this trip to Flag. I am going to stay until I am on New OT VII."

Talking about his wins, he said, "I have real peace in my life and that was not real to me before - to really have silence, to really grow like a thetan.

"To see my wife on New OT VII and see all the incredible changes in her, see the changes in my son on New OT V and see the changes in my other son is incredible. It is win after win, after win, after win. That is what I wanted all my life. And that is the biggest win of all. I am really happy to be here. And returning to my home town with an OT

The Fabulous Flag Only Rundowns Rehabilitate Your Power as a Thetan

The L Rundowns are the most direct route to OT power and ability. LRH said of the first L, L 10^o, "You have individual technology now which turns the sick well, the insane sane and makes a one life being immortal."

In 1970, on the Flagship *Apollo*, Ron's research produced a spectacular breakthrough. He found the key to bring about a tremendous increase of cause level in a being. The Ls rundowns sprang from this discovery, resulting in L 10, L 11^o and L 12^o - rundowns so powerful that they can be delivered only by a Class XII Auditor - and only at Flag. The L Rundowns are not grades in themselves, but case boosters that can enhance all future grades and levels delivered, and speed progress to OT.

L 10 is called "King of the Mountain" by LRH. Every being was once a powerful OT, but accumulated aberration and restraints, dimming his real ability and nature. L 10 unleashes a being into an entirely new realm of cause. It is comprised of twenty-three separate actions which address your

reach and ability to DO and ACCOMPLISH things in life. L 10 cuts straight through the protective mechanisms of the mind to locate areas that are intimate to you, areas previously occluded and locked from your inspection which are not handled with any other auditing.

L 11, the New Life Rundown^o, is swift, dramatic and direct. There are six steps in L 11 which address a being's flows, to open them up so that the individual can freely carry out his intentions. L 11 handles the major deep-hidden source of aberrations on the case, the source of introversion and power loss. View stops and survival in a way you never have before, as you are freed from any tendency toward self-destruction and attain a new level of personal purpose.

L 12 is known as the Flag OT Executive Rundown^o. In the words of LRH, it "makes a stable thetan extor-

whose ability is greatly increased and is not likely to become PTS to anything." The

first step of L 12 deals with extroversion, to strip away any factors that introvert a being into a body and then put his attention fully into the environment.

The second step addresses BEINGNESS, to remove forever any confusions concerning your beingness - what you are and what you are not.

The third step produces a thetan who is fully exterior from his body - the only direct process used to accomplish extenonization today.

The L Rundowns can be delivered at many points on THE BRIDGE and chances are you could start one right away.

PEOPLE AT FLAG

family will make an incredible difference."

The service at Flag not only met but exceeded his expectations. "The service is 100% standard. We expect from Flag that it is 100% standard and it really is. But it is more than I expected. The auditors and the Class XII C. Ses are incredible. They really focus in on the points you need to handle and you get immediate wins. You don't need to wait for hours of auditing to have wins. You will have them immediately."

Nancy Owen from Santa Rosa, California, is on New OT VII. SOLO NOTs Auditing and recently came to Flag for her six-month check. As part of her check up she finished the End of Endless Int Rundown.

"The End of Endless Int Rundown was fabulous. I had no idea that I really needed that rundown. I had been getting headaches, and, being on Solo. I wasn't able to handle them in my own sessions. I came back here and said I wanted to get that handled and it is *handled*. A lot of stuff came up on that rundown that I had no idea was sitting there. I used to have some kind of misunderstanding about that rundown and the purpose of it and who needed it. I definitely needed it and I feel real excited about the results of it.

"I can say that the C. Sing has been great, spot on and very A to B and the sessions are well prepared. Data that has to be dug up from old folders is handled rapidly which saves time for me once the session starts, and it keeps everything rolling."

While taking services at Flag she is staying at the

newly renovated Sandcastle. She said, "I love the service here. The housekeeper couldn't be more caring. I have stayed at some pretty nice hotels in other places, and the care factor isn't there the way it is here. They really give you a lot of special attention and do special things, like putting fresh flowers in different places in the room. Things like that make it really pleasant to stay here."

Nancy has been in SCIENTOLOGY for eighteen years and after her first four years in SCIENTOLOGY came to Flag and from then on has taken all her services here.

"I have done from Objectives to New OT VII at Flag. I have received a couple hundred hours of auditing from Class XII Auditors. I did the Ls and the Alternate Clear Route and I feel that I have no doubts or reservations when I attest to something here.

"I can only recommend, *do it* and come to Flag. I have gone up the whole Bridge here and I feel that I get standard tech here and I don't question it or wonder if they're doing the right thing. I don't have doubts or reservations that I am being handled correctly. I *know* that I am being handled correctly.

"I like the new changes, the way the lines are greased, and I like the routing forms. They are very direct and you get routed without Q&A. I didn't have to wait at any point of the lines and I moved rapidly."

Flag auditing gets **RESULTS**

The best C/Sing, the best auditors – simply the best. FLAG auditing is standard, smooth and direct. The moment you arrive here at the FLAG Land Base, our tech team sprints into action to provide the best service and the highest level of quality attainable. Many are in session within hours of arrival. And from there it is a rocket ride to the top. It can seem like magic! You may find yourself wondering, "How did the C/S know to ask me that question?" or "How could that one action have resolved so much? I thought I'd have to wait to handle that until I was way up THE BRIDGE."

FLAG results come from hours of hard and dedicated work on your case, often before you've even arrived, with intensive folder study to locate and handle any errors that could exist on your case. Send your folders to Flag ahead of time to ensure the fastest service possible.

The FLAG Folder Error Summary is done by our expert FESers, specialists who can spot an outpoint a mile away. They'll start with the first session you've ever had and move forward, examining your auditing track to detect any outness that could prevent you from making the full gains available on the grade chart. This is one of the secrets of Flag's auditing

results. This service is absolutely free at Flag – part of our continued service to provide excellent technical standards to every case that walks up our walk.

Handle What You Want To Handle

When you arrive in our HGC, one of your first steps is with the FLAG Director of Processing (D of P). Your case progress is his personal responsibility, and he takes it seriously!

You'll receive a full detailed interview, addressing you and what you specifically want to handle. This will help your Case Supervisor program your folder and give you exactly what you need to get flying up THE BRIDGE.

You'll do a full battery of tests which allow the Case Supervisor to track your personal progress and improvements.

Next, the complete package, including your Folder Error Summary, the interview worksheets and your tests, go to the Case Supervision area. One of our

highly trained Case Supervisors will be assigned to your case personally to ensure that you get all the gains possible for each action.

Your C/S studies the information carefully and through the application of 100% standard technology, he draws up the exact, correct program that is needed for your case – no additional or unnecessary actions that could delay you on your way to OT.

"This is the Session."

Now your folder is routed to your auditor, a highly trained professional in standard tech application. He studies your folder as well to become fully familiar with your case and what he will be auditing you on before you go in session.

Now you're ready to experience FLAG auditing!

You'll be able to see from the results how the standard team work of the FLAG technical crew pays off to bring you the most remarkable gains and wins. You can remove barriers from your progress and get moving on your route to OT.

Get into session fast by sending your folders to Flag ahead of your arrival. Your FLAG Service Consultant will help you with this and will assist you in any other way to get you to Flag.

RESULTS! OF FLAG STANDARD TECH

*The enormous wins and gains
available at Flag are described by SCIENTOLOGISTS*

Mike Strickland, Is completion, on New OT VII, Class IV Auditor, pianist, composer, recording artist. It's incredible being here. I've been coming to Flag for seven years now and I've never seen Flag so on-Source, so uptone, with so much ARC, and the staff so service oriented. They are professional and they're going out of their way to ensure you *are* getting enough auditing, that everything is going right. "How is your room, sir?", "How was your dinner?" The amount of attention to detail and professionalism is incredible.

There were a couple of things I wanted to address when I came this time and they were handled BAM. BAM. BAM. My auditor has superlative TRs and superlative ARC - you can't get

any better. I've had great auditing and I can't say enough good things about how exceptional the auditing is and how on-Source the tech is. This has been another one of those "miracle" trips to Flag.

Currently there is a boom going on at Flag. I'm seeing an on-Sourceness and an LRH intention that I've never witnessed or experienced before. It is *so* on-Source, so clean, so high ARC and so easy to be here and do the service. It's impossible not to get keyed out in a major way.

Gunter Mohl, on New OT VII, Level 0 and HUBBARD NEW ERA DIANETICS Auditor, transport executive from Germany. I've done a lot of services at Flag: training and processing. These services include the Personal Integrity Course, New OT V and VI.

two L Rundowns, Level 0 and the NED Course.

On my progress up THE BRIDGE, both sides, I have moved way up the Tone Scale. I have changed dramatically over this period. This is the most incredible environment, the service is excellent, and the staff *really* want to clear the planet.

I would sum up Flag by saying this is the best place on the planet to handle whatever you want to handle. Whatever it is, you will get it handled at Flag.

Tullio Vaccari, Class V Auditor, currently on New OT V, real estate representative from Milano, Italy. Flag is the best. It is the most uptone environment for a thetan on the planet and the perfect place to go free!

I did all my set-ups and OT Eligibility here and now I

am on New OT V. I am going in session four and five times a day and this is perfect for me. I am becoming so stable, it's wonderful. My wife was here last year and she really won. She insisted I come and she was right.

Andreas Hermann, mid-New OT VII, Class IV Auditor, electrical engineer from Munich, Germany.

Although I am mid-New OT VII, I didn't ever do the New OT V Rundowns and so I am doing them right now. They are incredible! My power has increased dramatically and my perceptions are way up. My ARC level has rocketed. And amidst all this I feel very relaxed. What this all adds up to is I am operating more and more as an OT. I can do things now that I had to apply a lot of pressure to earlier, with absolutely *no* effort!

Mike Strickland

Gunter Mohl

Tullio Vaccari

Andreas Hermann

The other thing I want to say about Flag is the atmosphere of total caring from the staff here. It's a great feature of Flag.

Of course the most vital feature is the technical quality. The technical quality is tremendous! It's so exact, and the handlings are so tailor-made for you. A Class XII org is an impressive organization. Everyone should experience Flag; there is no place like it!

Mary Spencer, New OT IV, Level 0 Auditor, artist from Michigan. I have been coming to Flag for services for the past six years and have done a number of services here: Level 0, Key to Life and LOC, and my OT Levels. Right now I'm on my set-ups for New OT V.

I always bring my children, they love it here. Right from the first they spotted the difference between being here and being somewhere else. One daughter has joined the Sea Org here and the other goes to a SCIENTOLOGY school in the area.

The staff at Flag are incredible. Great service - nothing is too much trouble. They simply want you to get up THE BRIDGE.

The Sandcastle is beautiful - aesthetic, fast service on auditing and training lines and the same top service in

the hotel. It is the top OT environment and being in this environment makes moving up THE BRIDGE faster and more fun.

I had some things to handle that had been with me for so long that I honestly wondered whether anything would move them. With the precision of LRH's technology they have *all* gone! Watching my auditor do his job just makes me want to train now. I have nothing but admiration for auditors and I want to become one. I also know it is important to move up the training side of THE BRIDGE in order to go full OT. Now I'm ready to train.

The further you go up THE BRIDGE the more you realize this is it, this is the group, there is nothing else and in fact nothing else is needed. Just 100% standard application of LRH's tech will take us out of here. Life is good and the reason it is good is LRH's tech!

Andrea Paar, on OT III, Pro TRs, real estate agent from Stuttgart, Germany. I've done all my services since my grades here at Flag, and I've had many, many wins. It is very important for anyone who is Clear to move on up through the OT Levels immediately. Don't make a long Q & A about it. It's inevitable and survival that

Mary Spencer

Andrea Paar

Peter Thalmann

you continue up: so don't delay, simply move on up to Flag right away.

I like the fact that all the OT services have moved to the Sandcastle. Flag is geared to service you in every imaginable way – auditing, ethics, cramming, training, accommodations and the fine restaurants. The new set-up for OTs at the Sandcastle further improves this.

Currently I'm on OT III and I'm having incredible wins daily. This is a vital level and I want to urge everybody to do it fast. If you haven't done OT II, there is nothing more important for you to do as quickly as you possibly can. Come to Flag now and do it.

Peter Thalmann, on New OT VII, Level I Auditor, music teacher, singer and choir conductor from Zurich, Switzerland. The first time I came to Flag was eleven years ago to do my HAPPINESS RUNDOWN. I attested to Clear here at Flag, and did my OT Preparations auditing. I have since moved up through New OT VI.

Flag is the most interesting place in the world to me. It is true for me! This is because of the help here, and because you meet so many people from all over the world. You meet people in the arts, you meet people in business, you

Helen Chen

meet the most valuable beings on the planet.

Things have continued to get better, especially this year. This benefits the public because your stay here is very easy and very comfortable and you feel a lot of care from the staff.

Helen Chen, currently on New OT VI Part B, Level I Auditor, Power FSM, from Taipei, Taiwan. This was my first trip to Flag and I've been here over a month. I finished up New OT V AUDITED NOTs here and am now on New OT VI.

The biggest win I've had here is the help I receive from every terminal I come in contact with. Today, for instance, I got a lot of help from the Cramming Officer. She really listened to me. In the courseroom, the supervisor really takes care of me and watches out for me, as sometimes I have a problem with the language.

Now, with the magic of SCIENTOLOGY, I have become an auditor and will be able to do New OT VII. That was really a big win for me – from a completely new SCIENTOLOGIST, nowhere on THE BRIDGE, and now able to go to eternity. That's something really incredible to me.

At Flag you get 100% standard tech and a theta environment. Everything can

Dagmar Hopp

be handled here, no matter what area it's in. They want to make sure you *get it* and they spend a lot of time and energy to make sure you do get it. When you attest, it's already way beyond your certainty.

Dagmar Hopp, Ls completion, currently on Soto NOTs, Level II Auditor, fashion consultant, from Berlin, Germany. The first time I came here I did my Ls. I had the biggest win of my life on that.

This time I really feel a new atmosphere here. I felt it when I went into the HGC. I came out of the elevator and it was so inviting and I felt so welcome. It was wonderful, like home.

There are so many specialized auditors here. People are coming here from all over the world to train. This is a big place from the tech side. Flag *really* is the mecca of Technical Perfection.

Eiji Suzumura, on NEW ERA DIANETICS counseling, hair stylist from Tokyo. I've had many wins here. I can change things, like my beingness and thinkingness. These are things I can measure. I'm amazed at the things I've learned about myself. Flag is a place everyone should come to.

Eiji Suzumura

Vicki Norton, Ls completion, on New OT VII Soto NOTs auditing, business consultant. Flag is unequivocally, absolutely 100% standard tech.

I'm encouraging my husband to do his OT Levels here. I've heard everyone in the courseroom giving their wins saying, "Flag is 100% standard." There's no question at all that this is where it happens. It's standard, and that's why they call it the mecca of Technical Perfection, because it really is.

There's no excellence better than the auditing and training I've received here at Flag. Everyone is 100% standard. And I really mean *standard*. There's no deviation from it at all. Everything has gone very quickly for me because Flag has smooth lines and makes things that way. It is like the model of perfection.

I've had so many wins here. I actually disconnected from the MEST universe. I totally disconnected so I was no longer at effect of the MEST universe. It's at that point that I changed my viewpoint entirely about what had been going on and I became senior to what I had been doing and the way I viewed things before. It's a permanent thing. That was one of my biggest wins. I got extremely

Vicki Norton

Yukiko Jones

responsible, extremely causative and very ethical. It's not as if I was out-ethics before – I'm a very ethical being – but it's a new responsibility, new awareness, a new cause level.

The other thing I want to say is, don't stop after OT III, don't stop after New OT V, because it's at New OT VI that a being starts becoming fully, entirely causative over everything that is going on.

Yukiko Jones, HUBBARD Solo Auditor Course Part One, PROSPERITY RUNDOWN, professional interpreter, from Minneapolis, Minnesota. I really like Flag because it is a very theta environment and very international. I'm here getting some FLAG auditing and the service here has been very, very nice. I had to get my pc folders sent over here from Australia and this was done very A to B and fast.

This is definitely the place for anybody in the world to come. I used to think this is only for the select people or something like that, but it really is for anybody and even for people from outside of the United States. Here you get to see how international SCIENTOLOGY is and what SCIENTOLOGY is doing in the world. You really see it coming together here.

I'm having great wins on the PROSPERITY RUNDOWN" and having a lot of fun. I'd like to see other people here getting the same thing.

Vicki Montesinos, Class IV Auditor, New OT VIII, professional artist, from Mexico City, Mexico. I've had incredible wins since I've been here. First, I had a cram and many, many wins on that cycle because I cognited on things that I didn't before on the same materials.

In my auditing I had an incredible win on my PROSPERITY RUNDOWN when I spotted the cause of problems I was having on money and concerns on money.

I think the service here at Flag is incredible. I'm a FLAG public since 1982, and things just go better and better and better. Every time I come back, it's better. It's really great.

In fact, when I arrived at Flag this time and I got to the Sandcastle, I felt like I'd just come out of session. I rehabbed a very big win that I had a month and a half ago just by arriving here!

"The plain truth of it is, if anybody is really going to make it to OT he has to know how to audit.

"You owe yourself the best auditor in the world on Solo, and that is you. So get trained."

CLEARs BEING MADE IN VOLUME AT FLAG

Flag helps Clear's remove barriers to OT

Over the last six weeks, there have been as many Clear's made at Flag as there have been in all the rest of SCIENTOLOGY internationally! Flag is absolutely dedicated to the postulate of a Clear planet, and that begins by helping every individual make it to Clear and then right onto OT.

At Flag, there are simply no barriers to going Clear and becoming OT. That's because Flag can handle any case, no matter how stalled it may seem. And Flag gets a lot of easy cases too. *Every* case resolves with standard tech, no matter what the situation.

Flag's lines have been fully streamlined to provide the fastest possible service to speed the way to OT. First, a pre-clear or Clear is tested fully. These results help to measure case progress as the person wins on their auditing program.

The secret of Flag is the attention to detail paid to every case. Folders are fully reviewed – a service delivered free of charge at Flag. They are given a thorough "Folder Error Summary." The FESer starts with the very first session ever received and comes forward, examining every session in detail to locate any point where standard tech has been violated or a result

was not fully achieved. (It's recommended to send folders ahead of arrival so that this action can be done before arrival.)

From there, the C. S. will

Weekly Number of Clear's Made at Flag

determine exactly what action is needed for the case to get it moving to OT. For stalled Clear's, there are quite a number of actions that can be done to debug Bridge progress, such as the FALSE PURPOSE RUNDOWN⁵, the HAPPINESS RUNDOWN, the Flag-only Case Resolution Rundowns and the L's Rundowns.

These actions happen very quickly, and sometimes it is only hours after arrival before the pre-clear is in session. Flag moves fast.

Whatever action is taken, the entire viewpoint is what will it take to get the person to full OT – as smoothly and as quickly as possible with no detours along the way. Flag's top C. Ses and Auditors

utilize every auditing hour delivered to get the most complete and standard result possible. That means faster progress for the pre-clear or pre-OT – much faster than could be expected anywhere else.

Once the person has reached the state of Clear, he is routed right over to the new Sandcastle Delivery Building to get started immediately on his OT Levels. This is Flag's purpose, after all, to ensure that every person that walks through their door arrives at Destination: OT.

GO CLEAR AT FLAG!

Here are what just a few people said about going Clear at Flag: "I was not moving up THE BRIDGE for six years and if you're Clear and you aren't moving on you're stalled. So I went to the CRD."

"I was auditing and I was auditing for six years."

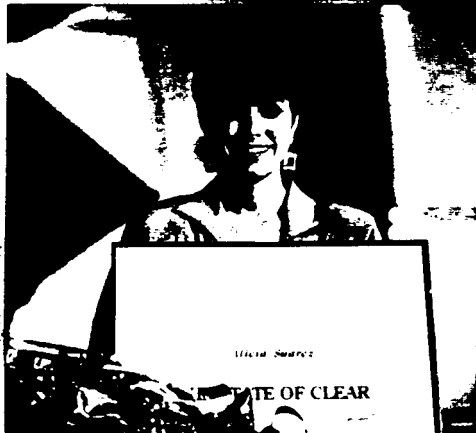

"I had no case load, I had no life and I was affecting different people in different ways for six years."

"I went to Flag I was stalled and that was six years."

"I was stalled for six years."

"I was stalled for six years."

"I was stalled for six years."

realization that I had a lot of strength, that I could make things happen and my viewpoint was valid and it counted for a lot more cause. I had to come to Flag."

"I get the best technical delivery and get the best results. That's Flag."

"The auditing and CSing at Flag cannot be overstated."

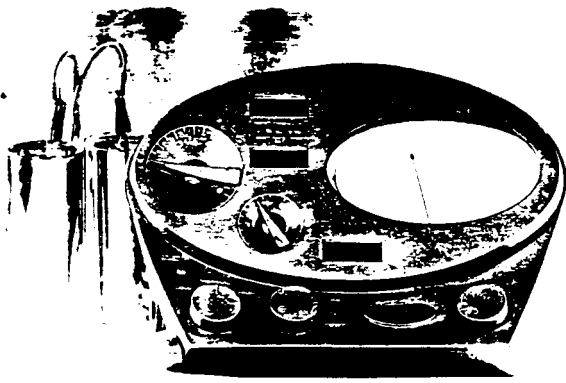

"I had thought that Flag was only for level 1 Vills. I found out that Flag can and does."

"I had to give one advice I give to anyone who is stalled at Clear or lower levels is to DECIDE. It is that simple."

"I was stalled for six years."

"I was stalled for six years."

Be more CAUSATIVE over your own life no matter where you are ON THE BRIDGE

These are the only tapes that LRH designated be on the Class X (L 10) Auditor Course! They reveal why a thetan restrains himself and withholds himself from power.

On the 1st of January 1960, L. Ron Hubbard gave the first lecture of the State of Man Congress at the Shoreham Hotel in Washington, D.C. He brought in the new decade with the announcement that it was now possible to clear someone on all dynamics!

For the next three days, LRH delivered a total of nine startling lectures on whole track responsibility and creativeness, and how they relate to being cause on all dynamics and making it to full OT. These lectures are truly the answer to being effective CAUSE in life!

In these lectures, you'll find amazing fundamentals including how to ensure the continued growth and expansion of SCIENTOLOGY; how a thetan's ability to reach gets out, why man can't usually remember past lives, and much, much more.

Order these cassettes from the FLAG Bookstore. Address is on page 34.

THE THETAN AND ETHICS

continued from page 19
surviving." Oh, no. That's not true. It's falling to pieces and caving in. It is a flicker of an eyelash in the life of a thetan. The entirety of this particular universe, from the moment of its creation to any possible end, would be, compared to the lifespan of a thetan, the flicker of an eyelash.

Our existence happens to be totally predicated on our own responsibility. We're responsible for being here and we're responsible for being alive. And the only quirk that occurs here is that we give our word to be part of this vast agreement called the eight dynamics, and then having given our word, and without saying we're changing our word, we say we have been *forced* to break our word.

In other words, we made the agreement and something else made the break. So the agreement, then, must continue. And that is how you get a survival of an agreement and a survival of a pattern of life. That is how that is done. One *himself* makes the agreement "to be part of" and *something else* breaks that agreement. That's what he *says*, and that's the way it jams up.

A thetan always enters a game forever. Here are these transitory games like MEST universe, and he entered this game forever. He *can't* enter it forever. It's not going to be here forever.

If that is the case, then, he's telling himself a lie. He's saying, "Well, I was a good boy and I tried to help and I tried to do everything, and they came along and they kicked me out." Look, he must have had to have consented to be kicked out. Somehow or another he must have gotten tired of that game and said, "Let me see if

I can figure out a way to get kicked out of it now."

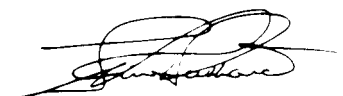

You'll see more clearly that I'm not talking about overt-act-motivator sequence when I'm talking about the dynamics. I'm talking about *the bid to be part of that game*. And that is not an overt act.

He entered lots of games, but he never left one. The motto of the thetan was simply "I've always been kicked out. I was sweet, young and innocent. And I made the bid to be there, and then they abused me and kicked me out."

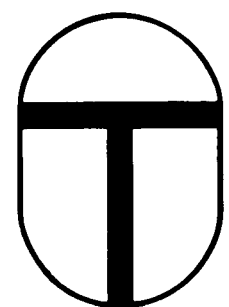

Unfortunately, this is a common denominator of existence. It isn't just one person I'm talking about, or a special case. It is the sequence. He joined up and they shot him. He'll say "I joined up. *They* kicked me out."

His having been kicked out runs out when you run out his having joined up. So you always run the preclear doing things to things, entering things, being the cause point, other things being an effect, and these games strip off.

It is not true that a preclear caused everything that ever happened to him, but it is true that he asked for it.

THE REASON FOR ORGS

by L. Ron Hubbard

The *only* reason orgs exist is TO SELL AND DELIVER MATERIALS AND SERVICE TO THE PUBLIC AND GET IN PUBLIC TO SELL AND DELIVER TO. THE OBJECT IS TOTALLY FREED BEINGS!

The first and all subsequent organizations of the Church were founded for this purpose *only*.

It was manifestly impossible for one being to individually train and audit 2.5 billion people. Time alone would have prevented it.

Thus help was needed.

Every post in every org exists to keep the org there and accomplish this.

You see, we are not dealing with "just another self-help subject" or a "make people feel better."

This universe has been going downhill for just *one* reason – lack of tech to resolve the problems of the mind and beings.

Recent research has confirmed this: There is nothing *whatever* the matter with the universe itself. But suppressive persons and groups have specialized in caving people in. *And* they had no tech *whatever* to *undo* their vicious actions.

So what emerged was a universal population stuffed with lies and artificial disabilities who have been brought almost to the point of obliteration.

For the first time ever – and this is confirmed with

careful historical research – the tech exists to reverse this chaos.

An org and every staff member is there to get it applied.

Where we are this *instant* in time is at the reverse point of the universe. *You* are the one who will make it happen.

And you will do it by selling and delivering materials and service to the public you get in and keeping the orgs there so they can and will do it.

You have the tech now; you have the policy. It is *you* who are applying it.

And by applying it, you have it in your power to reverse the dwindling spiral that has gone on without pause for more years than you can get into an Earth calculator.

For the first time ever you have this chance. And it is *you* who, just by knowing and using relentlessly the policy and tech, will make it happen.

I have never lied to you or conned you and what I tell you now is true. I would be falsifying if I told you other than the facts in this policy letter. So there it is! It may seem large and awesome but it is a fact. You are not engaged in anything superficial.

And that is the reason posts and orgs exist: to change the course of all things past and send the whole of existence back

upward from its long plunge.

Oh, of course the unholy will beg you not to do it, will try to pervert policy and corrupt tech, will cause trouble and mock and lie and try to discourage or stop you. But that's the reason things went bad – and those were the creatures that did it. And no objective worth obtaining was ever achieved without some barriers arising or industrious dedication.

So: Make it happen!
The stars wait!

DESTINATION OT IS HERE

DO ALL YOUR OT LEVELS AT THE
NEW FLAG ADVANCED
ORGANIZATION

Flag has widened the highway and
broadened THE BRIDGE for you to Destination
OT.

All the OT Levels from New OT I to New
OT VII (including the Solo Course) have been
centralized under one roof in the Sandcastle
Delivery Building. This is a paradise for OTs.

The route to OT has never been faster and
the service has never been better.

Waiting for you is the largest Advanced Org
HGC on the planet with thirty NOTS® auditors!

New OT V. AUDITED NED FOR OTS
New OT V consists of twenty-six separate
rundowns, each one like an OT Level all by
itself.

At this level, some of the most deeply
hidden secrets of the universe, its inhabitants
and how the downward spiral can be reversed,
are revealed to you.

Since 1991, these materials include an
entirely new step that will change your entire
view of the remaining rundowns.

NEW OT VI. THE HUBBARD SOLO
NOTS AUDITING COURSE

The materials of New OT VI reveal the
source of much of the unhappiness, suffering
and degradation now found in this universe
and give you the final theory and skills
necessary to be able to continue SOLO NOTs
auditing at home.

NEW OT VII. SOLO NOTS AUDITING

Factors that have kept you from exercising
your ability to be full source and cause in your
own life are addressed daily, intensively,
repeatedly - until they are totally and forever
gone.

Things "just seem to go right" and a calm
sphere of influence expands outward toward
infinity.

Contact the FLAG Letter Registrar or your
nearest FLAG Service Consultant to advance
enroll now. Addresses are on page 34.

YOU CAN ALWAYS WRITE TO THE EXECUTIVE DIRECTOR INTERNATIONAL

*"The essence of good management
is CARING what goes on."*

— L. RON HUBBARD

From HCOF Policy Letter 10 November 1986 Issue 1
GOOD VERSUS BAD MANAGEMENT

The Executive Director International likes to hear from you. Your views, ideas, wins and even any difficulty you may have, are of concern to him.

He will help you with any matter you care to write him about and will provide you with the exact Source reference on that subject.

The Executive Director International follows LRH's long-standing tradition of maintaining wide-open the communication lines of SCIENTOLOGY. He operates on the LRH datum that "to command is to serve and only gives one the right to serve." (HCO PL 12 Sept 67, *Post Handling Of*) He is there to help get every SCIENTOLOGY up The Bridge.

The Executive Director International cares. You are appreciated. Your communication is valuable and will be given swift and on-Source attention.

Write to:

Guillaume Lesève
Executive Director International
6331 Hollywood Boulevard, Suite 1008
Los Angeles, California 90028 U.S.A.

or put your letter in the special message box at your local Organization. The org LRH Communicator will see that your letter is forwarded to the Executive Director International within 24 hours.

KEEP SCIENTOLOGY WORKING

As holder of the DIANETICS and SCIENTOLOGY trademarks, Religious Technology Center has the purpose to safeguard the proper use of trademarks, to protect the public and to make sure that the powerful technology of DIANETICS and SCIENTOLOGY remains in good hands and is properly used.*

Proper use of trademarks means that the delivery of services and materials under the DIANETICS and SCIENTOLOGY trademarks is absolutely standard with no alter-is. You can easily see if someone is doing this as they will be getting the expected results. But by delivering "something else" (out tech) one will not get results.

You can help Keep SCIENTOLOGY Working and ensure rapid progress up The Bridge for all by sending a Knowledge Report to the Ethics Section of the org concerned any time you observe out tech or poor results. (And remember, no application of tech is also a serious violation of Keeping SCIENTOLOGY Working.) Copies of such reports should also be sent to the Inspector General Network of RTC as this information is valuable in carrying out its purpose.

auditing: the application of DIANETICS or SCIENTOLOGY processes and procedures to a person by a trained auditor. The exact definition of auditing is: The action of asking a person a question (which he can understand and answer), getting an answer to that question and acknowledging him for that answer.

auditor: a person trained and qualified in applying DIANETICS and/or SCIENTOLOGY processes and procedures to individuals for their betterment; called an auditor because *auditor* means *one who listens*.

Bridge: The [trademark]: the route to the Clear and OT, which we call the Bridge. Gradation and Awareness Course. It is a term originating in early Dianetics days to symbolize travel from unknowingness to revelation.

C/S: see case supervision.

case: a general term for a person being audited or helped. It also refers to his condition, which is monitored by the content of his reactive mind. A person's case is what he responds to the world around him.

case gain: the improvements and resurges a person experiences from auditing; any case betterment according to the pc.

case supervision: referring to the actions of the Case Supervisor. The C/S directs what auditing actions are done for each individual preclear under his care. All case supervision is for the benefit of the preclear.

case supervisor: see case supervision.

charge: harmful energy or force accumulated and stored within the reactive mind, resulting from the conflicts and unpleasant experiences that a person has had. Auditing discharges this charge so that it is no longer there to affect the individual.

Clear: the name of a state achieved through auditing or of an individual who has achieved this state. A Clear is an unobscured person and is rational in that he forms the best possible solutions he can on the data he has and from his viewpoint.

DIANETICS [trademark]: man's most advanced school of the mind. The word comes from Greek *dia*, through, and *nous*, soul. DIANETICS is defined as what the soul is doing to the body.

Dynamic(s): there could be said to be eight urges (drives, impulses) in life. These we call dynamics. These are motives or motivations. We call them the eight dynamics. These are urges for survival as or through (1) self, (2) sex and family, (3) groups, (4) all mankind, (5) living things (plants and animals), (6) the material universe, (7) spirits and (8) infinity or the Supreme Being.

E-METER [trademark]: an electronic device for measuring the mental state or change of state of *Homo sapiens*. It is not a lie detector. It does not diagnose or cure anything. It is used by auditors to assist the preclear in locating areas of spiritual distress or travail.

FLAG [trademark]: a term used in the titles of a number of Sea Organization posts and orgs. The word Flag is short for Flagship, and originally designated the Sea Org Motor Vessel *Apollo*. The organizations which were aboard this ship have

retained the word FLAG in their titles.

Grade Chart: see THE BRIDGE.

HCO [trademark]: Hubbard Communications Office.

NED [trademark]: NEW ERA DIANETICS®.

operating thetan: a thetan exterior who can have but doesn't have to have a body in order to control or operate thought, life, matter, energy, space and time.

org: (SCIENTOLOGY slang) an organization that delivers DIANETICS and SCIENTOLOGY training and processing.

OT: operating thetan.

pc: preclear.

postulate: a conclusion, decision or resolution made by the individual himself; to conclude, decide or resolve a problem or to set a pattern for the future or to nullify a pattern of the past.

preclear: a spiritual being who is now on the road to becoming Clear, hence pre-Clear.

process: a set of questions asked or commands given by an auditor to help a person find out things about himself or life and to improve his condition.

processing: the action of asking a preclear a question (which he can understand and answer), getting an answer and acknowledging him for that answer. Also called auditing.

reactive mind: that portion of a person's mind which works on a totally stimulus-response basis, which is not under his volitional control and which exerts force and the power of command over his awareness, purposes, thoughts, body and actions. The reactive mind is where engrams are stored.

restimulation: reactivation of a past memory due to similar circumstances in the present approximating circumstances of the past.

rundown: a series of steps which are auditing actions and processes designed to handle a specific aspect of a case.

SCIENTOLOGY [trademark]: SCIENTOLOGY applied religious philosophy. It is the study and handling of the spirit in relationship to itself, universes and other life. SCIENTOLOGY means *scio*, knowing in the fullest sense of the word and *logos*, study. In itself the word means literally knowing how to know.

session: a precise period of time during which an auditor audits a preclear.

thata: energy peculiar to life or a thetan which acts upon material in the physical universe and animates it, mobilizes it and changes it; natural creative energy of a thetan which he has free to direct toward survival goals, especially when it manifests itself as high tone, constructive communications.

thetan: the person himself - not his body or his name, the physical universe, his mind, or anything else; that which is aware of being aware; the identity which is the individual.

track: time track; the consecutive record of mental image pictures which accumulates through a person's life or lives. It is very exactly dated.

whole track: the moment to moment record of a person's existence in this universe in picture and impression form.

*"What are you waiting for?
Come to Flag and get
up THE BRIDGE!"*

I've been in SCIENTOLOGY since 1986. I was a stalled Clear but I didn't realize it until I came to Flag for Clear Week in 1991 for two days and got a free Case Analysis including an interview with a Class XII Auditor. At that point I decided I was going to get my dynamics in order. By November I was married

and in April 1992 I started my Solo Courses! This year I came to do my OT Levels through New OT IV.

I've had *so many* wins from being here. For instance, as a result of doing Solo Auditor training, I was able to salvage a marriage that was in trouble. I didn't wonder if it was my business or wonder if I

should or shouldn't. I got the couple onto a Marriage Co-audit and in 12 1/2 hours of co-auditing, their marriage was saved.

Once I started getting the data on OT II and OT III. I realized that it's important to see that SCIENTOLOGISTS I come in contact with get the intention to arrive at Flag. I know several SCIENTOLOGISTS who are Clear and I'm going to tell them "What are you waiting for? Come to Flag and get up THE BRIDGE." What is important is to get up the OT Levels, then life and careers will take care of themselves. What is most important for anyone is to just get up THE BRIDGE.

I'm staying at the Sandcastle with my husband. I've stayed at some nice places, but I've never stayed anywhere where I had my own housekeeper! I think it's just great. There is really no place like Flag and there is no place else like the Sandcastle.

The way the hotel is set up makes it easy to have your attention on services you are doing here. You don't have to think about anything else. Everything is set up so that I can just go A to B and do what I'm here for.

Dolores Mangels, Jacksonville, Florida. Clear, STUDENT HAT and METHOD ONE Co-audit completion, on OT III currently at Flag.

Move up to OT in an ideal environment

Come to Flag, whether for services, an event or a visit. Connecting up with Flag can help you move up to OT!

YOU CAN COME TO FLAG. For training and auditing. For an event or convention. Or just for a visit. Just coming to Flag is what is important, because once you have connected up with Flag, your progress to Clear and OT can go faster!

Flag is an inspiration. You are part of the largest community of SCIENTOLOGISTS and OTs on the planet. You see hundreds of fellow SCIENTOLOGISTS who are going free and gaining new abilities. You see the results of standard tech in action - miracle wins, the priceless ability to free another being.

And Flag is the center of "where it's happening" in SCIENTOLOGY. You join in events and activities that change the face of this planet.

When you come to Flag, you have a safe, distraction-free environment so you

can put all your attention on what you came to Flag for. Your comfortable room is clean and ready for you when you finish your day's auditing or training. Meals are ready when you are in any of Flag's several dining rooms. There are hundreds of beautifully appointed rooms to choose from at Flag.

Reserve the room of your choice in advance; Flag is busy and they are always in tremendous demand. Make your reservation now. Call the Accommodations Counselor at Flag at (813) 445-4301. Or contact your nearest FLAG Service Consultant. Address is on page 34.
