

*"Therefore the road before
Scientology is clear and its
ultimate success is assured if
the technology is applied."*

KEEPING SCIENTOLOGY WORKING

Having the Correct Technology

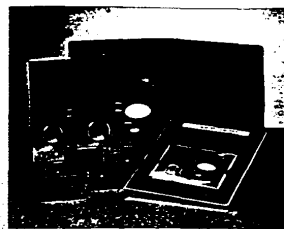

The new Hubbard Class IV Case Supervisor Course

The new Hubbard New Era Dianetics Case Supervisor Course

The new Hubbard Class V Graduate Case Supervisor Course

The new Hubbard Senior Security Checker Course and lecture series

The first point of Keeping Scientology Working is **HAVING THE CORRECT TECHNOLOGY** in order to keep Scientology working as Scientology must always be the correct technology for auditing. The technology must be correct and the auditor must be correct. This is the first point of Keeping Scientology Working.

successful in life, whether on staff in an organization or field group or as members of a busy and prospering field. The many bridges that greatly increased our ability to introduce and use all the way up through Class V are the most important. The new Hubbard Class V Graduate Case Supervisor Course is the most important level of the new technology. It is the most important level of the new technology.

"Training up to the level of a Class IV/NED Auditor who knows his business is the most positive assurance there is that you will make it to OT."

"It's all right for these guys in lower grades to be pcs — that's fine. But there comes a point as you move up the Grade Chart when your lack of auditing skill starts hitting you in the teeth and you won't make it to OT at all. You're walking straight into the tiger's lair on New OT VII and you'd better be good!" LRH

short period of time, enabling one to quickly learn to deliver specific rundowns or techniques, or even co-audit them with another. Some of the Technical Specialist Courses that were released earlier are: the Hubbard Professional Word Clearer Course, the TRs Clay Table Processing Delivery Course, the Psych Treatment Repair Auditor Course, the Scientology Marriage Counseling Auditor Course, the Allergy or Asthma Rundown Auditor Course, the Hubbard Happiness Rundown Auditor Course, and the PIS/SP Auditor Course.

Three brand new Technical Specialist Courses were released on Auditors Day, presented with the technology of means and will, and an added bonus: they are the "official" Hubbard course. They are: the Hubbard Happiness Rundown Auditor Course, the Hubbard Marriage Counseling Auditor Course, and the Hubbard Allergy or Asthma Rundown Auditor Course. These courses are designed to help you deliver these rundowns with confidence and ease. They are the only Hubbard courses that are designed to be delivered by auditors. They are the only Hubbard courses that are designed to be delivered by auditors. They are the only Hubbard courses that are designed to be delivered by auditors.

was released in May, where people drill TRs for the purpose of co-auditing the Objective processes after completion of the Purification Rundown. Also released in May was the Therapeutic TR Course, for preclears who are receiving all their Objective auditing from another. And last year the new Hubbard Professional TR Course with Clay Table Processing was released, for those moving onto Academy training. Each one of these TR courses has produced fabulous results for Scientologists all over the world.

Completing the packaging of the entire TR training line-up, the new Hubbard Professional Upper Indoc TR Course was released on Auditors Day. This vital training series is the next step in the ability to go into advanced auditing.

At the top of the list is the new Hubbard Professional Upper Indoc TR Course, which is the next step in the ability to go into advanced auditing. It is the only Hubbard course that is designed to be delivered by auditors. It is the only Hubbard course that is designed to be delivered by auditors. It is the only Hubbard course that is designed to be delivered by auditors.

to do Upper Indoc TRs!

The Upper Indoc TR Course can be done by anyone who has completed the "Student Hat," the New Professional TR Course, and is not in the middle of a major auditing action. It is invaluable for any Scientologist, whether an auditor, businessman, salesman, executive or artist — literally any profession imaginable.

Part of Religion Technology Center's purposes is to make sure that the potential of Scientology is made and applied in the most appropriate manner. The new Hubbard Professional Upper Indoc TR Course is the next step in the ability to go into advanced auditing. It is the only Hubbard course that is designed to be delivered by auditors. It is the only Hubbard course that is designed to be delivered by auditors. It is the only Hubbard course that is designed to be delivered by auditors.

It is the only Hubbard course that is designed to be delivered by auditors. It is the only Hubbard course that is designed to be delivered by auditors.

TECHNICAL SPECIALIST COURSE

Auditing is the most important part of Scientology. It is the only part of Scientology that is designed to be delivered by auditors. It is the only part of Scientology that is designed to be delivered by auditors. It is the only part of Scientology that is designed to be delivered by auditors.

HAVING THE CORRECT TECHNOLOGY

Translation of LRH Materials

An essential part of *having the correct technology* is seeing that standard translations of LRH technology are made available to Scientologists around the world. Over the last few years major strides have been made in providing translated materials to Scientologists in many different countries. Today there are more translated books, tapes, courses and films available than ever before in the history of Scientology, with translations now occurring in up to 24 different languages: Danish, Spanish, French, German, Italian, Portuguese, Swedish, Dutch, Norwegian, Finnish, Czechoslovakian, Hungarian, Polish, Russian, Serbo-Croatian, Greek, Japanese, Mandarin, Cantonese, Korean, Hebrew, Urdu, Arabic and Afrikaans.

In the past 12 months over 18,000 pages of translated LRH materials have been sent to press, which represents an average of 1,500 translated pages per week or more than 200 pages per day!

In the Church of Scientology International, it is the Translations Unit International that is responsible for the translation of LRH technology so it is available to the public. This unit is staffed with Sea Org members from all parts of the world, and it operates under the International

Executive Strata in International Management.

The procedures for translating LRH's technology are very exacting and precise. Once a book, bulletin or tape has been fully translated it is verified against the original LRH writing or recording, and is checked again by a highly trained auditor who ensures the tech is 100% standard and pure.

Written materials are then readied for printing by the LRH Book Compilations Unit, which also operates directly under the International Executive Strata of International Management.

All LRH taped lectures are translated by the Translations Unit, following the same procedures for written materials except the verification is done by comparing the translation to the actual LRH recording. Once fully verified and checked for technical standards, the translations are professionally recorded in a state-of-the-art recording studio at Golden Era Productions. They are then reproduced, packaged and released with full transcripts and glossaries.

The volume of translated materials now available has had a very definite effect on the expansion of Dianetics® and Scientology internationally, and has made it possible for public in many countries to get onto and up The Bridge for the first time.

One such example is in Japan where, prior to 1980, LRH materials were not

translated and available for training auditors. In the last few years, Scientology has been able to expand into this area and the following LRH materials are now available to Japanese-speaking public: *Dianetics: The Modern Science of Mental Health, Fundamentals of Thought, Problems of Work, The Basic Dictionary of Dianetics and Scientology, The How to Make Work Easier Course, The Mini Course Supervisor Course, The Success Through Communication Course, The Hubbard Qualified Scientologist Course, The Student Hat® Course, The Method One® Co-Audit Course, The Hubbard Professional TR Course with the Clay Table Picture Book and Clay Table Processing Delivery Course, and all of the Academy Levels 0 - IV.*

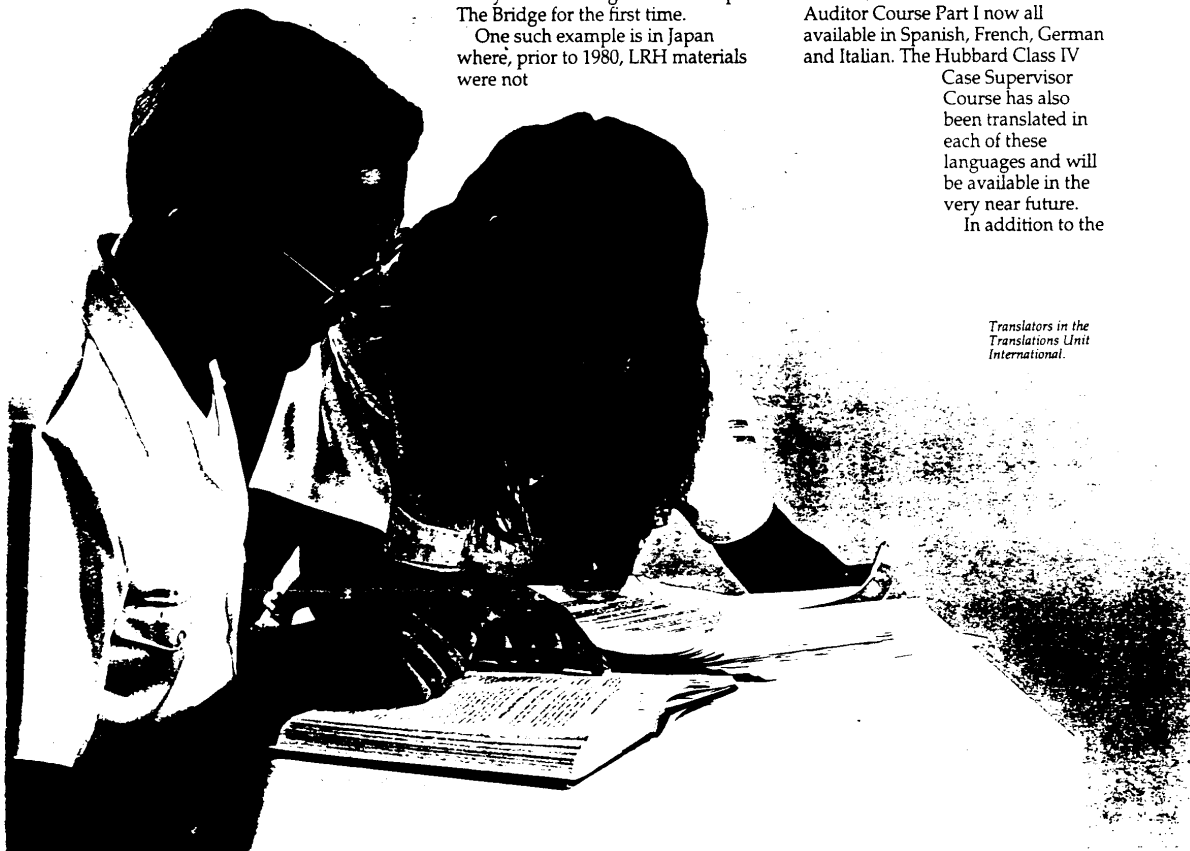

Having these materials available in Japanese has resulted in continued expansion in this country over the past two years. Last year the forming org in Tokyo became the first official Scientology org in Japan, and it is now the largest organization in its continent!

Translated materials have made it possible to train many hundreds of auditors around the world, with the Student Hat, Method One Co-audit Course, Hubbard Professional TR Course, Academy Levels 0 - IV, the Hubbard New Era Dianetics Course, the PTS/SP Course and the Solo Auditor Course Part I now all available in Spanish, French, German and Italian. The Hubbard Class IV

Case Supervisor Course has also been translated in each of these languages and will be available in the very near future.

In addition to the

Translators in the Translations Unit International.

translated technical training courses, there is a large amount of translated LRH tech available for the introductory routes onto The Bridge.

Dianetics: The Modern Science of Mental Health and the extension course for this book, the Hubbard Dianetics Seminar, the Hubbard Dianetics Auditor Course, the Success Through Communication Course and many of the Life Improvement Courses are now

Translator verifies a translated taped lecture at the Translations Unit International.

Translated LRH materials now available for use around the world.

available in Spanish, French, Italian, German, Swedish, Dutch and Danish. The recently released LRH book and materials on the Purification Rundown and the Grade Chart services, immediately following this rundown are being made available in many different languages. *Clear Body*, *Clear Mind* and its extension course,

the Purification Rundown Delivery Manual, the Purification Rundown Picture Book, the Purification Rundown Delivery I/C Course, the Purification Rundown C/S Course, the Therapeutic TR Course and the TRs and Objectives Co-Audit Course are all now translated into Spanish, French, Italian and German.

With this expansion and increased availability of LRH tech and much much more soon to come, Man's only route to total freedom has been opened to millions across the world.

HAVING THE CORRECT TECHNOLOGY

LRH Technical Compilations

Research and compilation in progress in the LRH Technical Research and Compilations Unit.

subject. This package of research data is often up to 6 inches thick for a single issue.

This research data is then thoroughly studied and reviewed by RTRC's Compilations personnel, to make sure that his directions are fully and accurately carried out, and that the new release is 100% standard. The item is then compiled, and forwarded for review and final authorization.

LRH gave Religious Technology Center the ultimate responsibility

The compilation of LRH technology and materials is a vital part of the first point of Keeping Scientology Working: "HAVING THE CORRECT TECHNOLOGY".

The LRH Technical Research and Compilations Unit (RTRC) exists in the Office of Senior C/S International, and it is this unit that is responsible for the compilation of all unpublished LRH issues in accordance with his exact instructions.

The LRH Book Compilations Unit is a separate unit operating under Int Management which is responsible for the compilation of all LRH books, tape transcripts and course packs.

Both of these units are staffed with trained and experienced Scientology members who have the task of seeing that 100% one source

technology is made available to the public.

LRH TECHNICAL RESEARCH & COMPILATIONS

The first step of preparing new LRH materials for release involves extensive research and study by the Research personnel in RTRC. A full package of data is prepared, which includes LRH's exact instructions for the item to be released, and all of his notes, tapes and writings on that particular

of ensuring that one source technology is available to the public and of one source technology. The handling of one source technology is done in accordance with the instructions of LRH concerning RTRC issues. The first issue against the LRH tapes, writings and transcripts is sent to the RTRC for review and final authorization by LRH. The RTRC then compiles and releases

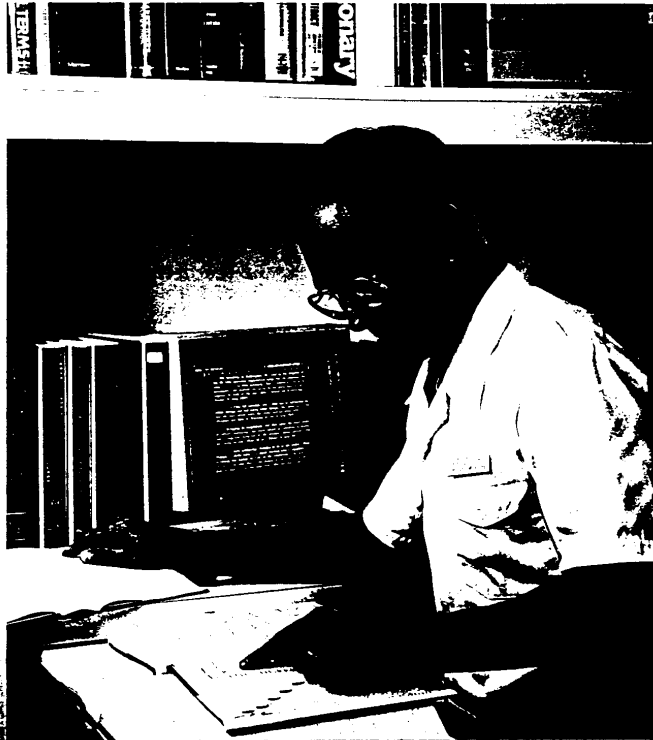

of ensuring that one source technology is available to the public and of one source technology. The handling of one source technology is done in accordance with the instructions of LRH concerning RTRC issues. The first issue against the LRH tapes, writings and transcripts is sent to the RTRC for review and final authorization by LRH. The RTRC then compiles and releases

Compilations Unit first does extensive research and locates and studies anything and everything that LRH has said about that book, including handwritten originals, notes, instructions, the original manuscripts, etc. Based on this data, the book is put together containing *only* LRH's writings, and in exact accordance with his directions for that publication.

LRH Book Compilations Unit then prepares a full glossary, so that any person reading the book can fully understand it and can easily locate the meanings of any hard-to-find terms. This unit also prepares any needed illustrations for the book. The book, its glossary and any illustrations are then fully checked and verified by RTC, who compares the compilation against LRH's instructions, notes and originals to ensure it is 100% pure. Once a book is given final authorization by RTC, the LRH Book Compilations Unit typesets the book according to exact set standards and format. It is proofread several times and then sent on to Bridge Publications or New Era Publications for printing and release.

The LRH Book Compilations Unit is also responsible for preparing transcripts and glossaries for LRH taped lectures. Here, the first step consists of fully transcribing the recorded lecture and listening to the tape to verify that what is written is exactly what LRH said on the tape. A full glossary is then prepared, and the entire transcript and glossary are checked and verified by RTC to ensure they are accurate. Once approved, the tape transcripts and glossaries are typeset, proofread many times, and are then forwarded to Golden Era Productions for printing and release with the LRH taped lectures.

Thousands upon thousands of home have gone into the research, compilation and verification of the books. We sincerely thank you for all the changes and improvements to the publications. We are proud of your contribution to the Scientology. We hope you will continue to help us in our efforts to bring the world to the light of the truth.

Glossary being prepared in the LRH Book Compilations Unit.

Graduate C/S Courses, Technical Specialist Courses, the full TR training line-up and much, much more.

The vast amount of work done by LRH in developing this powerful technology, and the work of Religious Technology Center and the Church of Scientology International to get it compiled and released has been done solely and only so that Scientologists around the world could have and use the technology.

You **HAVE** the correct technology, and it is

for your USE. Study it well, put it to use standardly, and you can help create a new civilization for all!

KEEPING SCIENTOLOGY WORKING

We have some time since passed the point of achieving uniformly workable technology.

The only thing now is getting the technology applied.

If you can't get the technology applied, then you can't deliver what's promised. It's as simple as that. If you can get the technology applied, you can deliver what's promised.

The only thing you can be upbraided for by students or pcs is "no results." Trouble spots occur only where there are "no results." Attacks from governments or monopolies occur only where there are "no results" or "bad results."

Therefore the road before Scientology is clear and its ultimate success is assured if the technology is applied.

So it is the task of the Assn or Org Sec, the HCO Sec, the Case Supervisor, the D of P, the D of T and all staff members to get the correct technology applied.

Getting the correct technology applied consists of:

- One: Having the correct technology.
- Two: Knowing the technology.
- Three: Knowing it is correct.
- Four: Teaching correctly the correct technology.
- Five: Applying the technology.
- Six: Seeing that the technology is correctly applied.
- Seven: Hammering out of existence incorrect technology.
- Eight: Knocking out incorrect applications.
- Nine: Closing the door on any possibility of incorrect technology.
- Ten: Closing the door on incorrect application.

L. RON HUBBARD

KEEPING SCIENTOLOGY WORKING SERIES 1

STANDARD TECH

Standard Tech is the only tech that accomplishes the rapid forward motion up The Bridge for the millions, and it is your only route to Total Freedom.

If you are not receiving Standard Tech, you have not been able to resolve the dynamic problems that stand in the way of your progress. You must receive Standard Tech to move forward on The Bridge.
