Cary Grant Tells Troubles Of Southpaws

By BOB THOMAS

HOLLYWOOD, April 23.—(AP)—Are you a member of that sometimes-abused minority of left-handers? If so, you have a champion in Gary Grant.

This came up as I was watching Grant conduct a symphony orchestra for a scene in "The Dr. Praetorius Story." The actor, who is noted as a southpaw, was wielding the baton with his right hand. I asked him about this when he came out of the scene.

"I spent hours learning how to lead with my right hand," he complained. "Why? Because movie fans would think something was strange about somebody leading an orchestra with his left hand. Now isn't that ridiculous?

"I'm always having to learn things right-handed. In 'The Bishop's Wife' I had to play the harp right-handed because the harpists in the audience would think it looked odd!"

Grant, and all southpaws, must make adjustments in living in a right-handed world. School desks, machines, automobiles, army supplies and athletic equipment are usually designed for right-handed convenience.

"Even writing is difficult," he added. "Most left-handed people have to cramp their hand and write below it. The reason is that in writing from left to right you would smudge the paper with your hand. If we wrote from right to left like the Hebrews, you wouldn't have that trouble."

Grant declared he had done some research on left-handedness and found out that there is no particular tendency for a child to use one hand or the other.

"A baby will use either one, according to the books I read," he reported. "But older people usually induce him to use his right. The predominance of the right hand goes back to ancient times when men clamped their left arms by their sides to protect the heart and face."

Except for learning such things as conducting and playing harps, Grant actually doesn't suffer too much as a southpaw. He can perform normal functions with either hand. He uses the left or right to sign his name, although he can throw a ball only with his left. This doesn't seem too serious. How much ball-throwing does he do in a normal week?

He concluded that being a southpaw has one outstanding advantage: "It's great for eating salads."

Talk of the town. . . . The hits made by three current films, all starring Susan Hayward. . . . Louis B. Mayer's statement when interviewed on television at the MacArthur festivities in San Francisco—that he believed TV and movies could work together, we to supply the entertainment and you to supply the medium." . . .

The slash in network radio rates by CBS. . . . Still-rumored rift in the Clark Gable home. . . . The energy of Ray Bolger in "Where's Charley?" which opened the civic light opera season here. . . . The talk of a Barbara Stanwyck-Robert Taylor reconciliation. . . . The Dick Contino mess. . . .

The fancy new dressing room for Betty Hutton, officially making her queen of the Paramount lot. . . . Lana Turner's hiring of a press agent (indicating she will leave MGM soon?). . . The off-again, on-again wedding of Arlene Dahl and Lex Barker and the wonders if it was all for love or publicity?

Studio Says Rita Planning Film

HOLLYWOOD, April 23.—(UP)—Rita Hayworth planned today to return to work at Columbia studio where she has been on suspension for three years.

The glamorous red-haired actress is expected to arrive here within a week from New York for her first Hollywood visit since her marriage to Prince Aly Khan on May 27, 1949.

Harry Cohn, boss at Columbia, received a telegram over the week end revealing her plans to return to the studio. He expects to telephone her today to discuss several story possibilities.

Miss Hayworth has been on suspension since she refused to make "Lana Hanson." Her career was dropped temporarily while she toured Europe with the prince. But she goes back on the Columbia payroll as soon as she shows up at the studio.

Auto Stolen Next To Police Station

Burlingame police today were searching for a late model Cadillac convertible coupe stolen Friday night from next to the police station. The owner, Kenny Angus, proprietor of a market adjoining the police station, said he left the vehicle parked in city hall alley at 8:45 p. m. Friday. When he returned an hour later it had disappeared.

Matean Jailed On Dope Count

Abe ("The Trigger") Chapman, 48, who gave an address of 124 Twenty-ninth avenue, San Mateo, when he called at the apartment of Mr. and Mrs. Winkleblack at 115 Highland avenue, Burlingame, as narcotics agents were making a raid March 24, was arrested last night in San Francisco with two others on charges of selling narcotics.

There was insufficient evidence to hold Chapman in connection with the Burlingame raid which resulted in the confiscation of narcotics valued at several hundred thousand dollars.

The arrest last night caused the booking of what the arresting officers describe as three narcotics peddlers. Arrested with Chapman were William Levin, 48, San Francisco, allegedly the former chief "lieutenant" of Antonio ("Black Tony") Parmagini, who once headed a Pacific coast narcotics ring, and Richard Benson, 34, Oakland, said to be a former member of the Stardust tavern narcotics ring.

Ernest Gentry, district supervisor for the federal narcotics bureau, said the arrests climaxed several months of intensive investigation. He said none of the men was carrying narcotics at the time of the arrests. All three men have been imprisoned previously for violations of the narcotics laws.

Arson Seen in S. F. Apt. Blaze

SAN FRANCISCO, April 23.—(AP)—Fire department investigators today probed for evidence of arson in the ashes of a four-alarm, $50,000 apartment house fire here.

The blaze early yesterday drove 75 to 80 persons from two California street apartment houses and left 30 of them homeless.

Arson investigators said their suspicions were aroused by the "unusual" number of big fires in the neighborhood in the past two weeks. There were four blazes.

He said yesterday's blaze apparently started in the basement of the apartment houses. It roared up a lightwell and a service stairway to the roof where it was noted by two policemen who turned in the first alarm.

The two officers, Patrolmen William Mojica and Layton Duffy, entered the burning buildings to rouse out sleeping occupants. Mojica went back later to rescue three children overlooked in the excitement.

Five of the 130 firemen who fought the fire were treated for minor injuries. The flames were under control in an hour, but it was six hours before all fire crews were free to leave the scene.

BOY FALLS FROM CAR

SOUTH SAN FRANCISCO, April 23.—William Lance Pickworth, 4-year-old son of Mr. and Mrs. William J. Pickworth of 1213 Hillside boulevard, was treated at South San Francisco hospital yesterday for minor injuries he received when he fell from the family automobile on Hemlock street.

Stock Market

NEW YORK, April 23.—(UP)—A touch of firmness crept into the stock market late today, enabling the list to close irregularly after early uncertainty.

Gradings fell off to around the lowest levels of the month, however, as concern over the new price controls to be announced Wednesday gripped the street. Investors were reluctant to extend their commitments until they saw how "general manufacturers' prices were to be stabilized.

Corporate news developments influenced a handful of issues. Steels showed little reaction to near-record production. The new turn of events in Korea had not declined sufficiently to influence market opinion.

Oils and aircrafts provided some of the best gainers on the list with gains at the outside ranging to around 2 points. Motors moved irregularly. Rails were dull. Chemicals turned with Freeport Sulphur a standout on a rise of more than 2 points.

Pittsburgh Steel weakened on announcement that its merger talks with Allegheny Ludlum had been called off. The latter, aided by a report of record sales, firmed. Manhattan Shirt gained around 2 points on declaration of the first extra dividend in three and a half years. Reynolds Metals common jumped higher on a report of record first quarter earnings.

Among the issues which made new highs today were Amerada Petroleum, Barber Oil, Republic, Continental Oil, New York Dock, Westinghouse Electric, Texas Company and Lone Star Cement.

Dow Jones closing stock averages: 30 industrials 255.12, up 0.10; 20 rails 82.63, unchanged; 15 utilities 47.38, up 0.06; 65 stocks 83.32, up 0.04.

Sales today approximated 1,160,000 shares, compared with the total of 939,960 shares in Friday's three-hour session.

Founder of 'Dianetics' Said Insane by Wife

LOS ANGELES, April 23.—(UP)—Dianetics Founder L. Ron Hubbard's wife charged today in a divorce suit that he subjected her to "scientific torture experiments" and is suffering from a mental ailment.

Mrs. Sara Northrup Hubbard, 25, charged in her divorce suit that Hubbard subjected her to "systematic torture" through denial of sleep, beatings, strangulations, and suggestions that she kill herself "as a divorce would hurt his reputation."

As a consequence, she and her medical advisers concluded Hubbard, 40, was "hopelessly insane," her petition stated.

"Competent medical advisers recommended that Hubbard be committed to a private sanitarium for psychiatric observation and treatment of a mental ailment known as paranoid schizophrenia," the petition said.

The complaint said that the Hubbard dianetics research foundation, which deals with the "modern science of mental health," did more than $1,000,000 business in 1950.
