## Dianetic Counseling

.L. A1- -

How would you like:

The ability to communicate freely with anyone on any subject.

•The ability to recognize the source of problems and make them vanish:

•Relief from hostilities and sufferings in life.
•Freedom from upsets of the past and the

ability to face the future.

The ability to move out of fixed conditions, gaining abilities to do new things.

•Recovery of your past education.

Release from the harmful effects of drugs, medicine, alcohol and psychosomatically-

induced ailments.

•Self-control with the ability to be at cause over your environment.

•Religious freedom, enabling you to experience more directly your own religious beliefs/practices.

If you would like to take command in your life and really make things happen, let the world of Dianetic and Scientological processing (called Auditing) — delivered by an independent auditor — help you to make that wish a reality.

Auditing services offered by the (church in-

dependent) Human Insights Group give you the advantage of getting the full benefit of Dianetic and Scientological processing at whatever pace you choose to go. In addition, we charge a fraction of the rates being asked by non-independent auditors, as well as delivering services in an effective yet bassle-free manner,
