

IS IT POSSIBLE TO ACHIEVE GREATER FREEDOM and HAPPINESS?

THESE AMERICANS ARE FINDING THE ANSWERS USING SCIENTOLOGY® RELIGIOUS PHILOSOPHY IN THEIR DAILY LIVES, AT WORK AND WITH FAMILY AND FRIENDS

AMANDA AMBROSE
Singer, actress, mother of five.

"In 1968, I was introduced to Scientology religious philosophy, and since then I have had many hours of Dianetics™ and Scientology counseling. I found the most significant change is that I am no longer afraid of anything. Before, I had observed how some 'successful' people led their lives and I was afraid of having a life like theirs. I did not want to become an alcoholic or druggie in order to be 'successful'. Because of counseling, I no longer have those fears. I know I can achieve anything I want to without compromising my reality."

CHICK COREA

A *Scientologist*™ since 1968, acclaimed as the top jazz pianist/key-boardist in the world.

"I've always loved to make music for others to enjoy — but have basically made my own way through the years — like a wanderer. One reason for this wandering is that I thought for a long time that the freedom I was seeking was a wholly personal thing — a personal activity."

"Meeting up with Dianetics and Scientology technology in '68 began to change that idea for me. I began to see that the environment and life itself is made by many — and so the resultant quality of life is a sum of the efforts of all people living as a group."

"The inspiration for my music has always been the dream of a better life. That's why I'm a *Scientologist*."

GLORIA NEUMEYER

Businesswoman and mother, Los Angeles.

"I can honestly say that my success in the areas of raising a family, investment, and owning and running a business would not have occurred without Scientology technology. The well-known statement 'you can't have everything' has proven to be a falsehood in my life. Using Scientology technology you *can* have everything!"

DIANA VENEGAS

Model, Exclusive Fashion Designer, Successful businesswoman.

"When I design a dress for a client, I'm designing something for them specifically. I ask what kind of effect they want to create, what picture they want people to see. They tell me and I then create it for them."

"Scientology technology helps me with every step of the process and thus has added much happiness and satisfaction to my life."

DR. ANGEL CHACON

Chiropractor, Los Angeles.

"I have learned through the basic Scientology courses how to listen to my patients, and this has enabled me to really help them more effectively."

"Using Scientology philosophy in all aspects of my life has brought me greater happiness and a sense of well-being."
